TRUTH BEFORE FAVOR—PRINCIPLES, NOT MEN

WHEAT

There are probably some who think Canada, with her vast areas of the west, produces more wheat than any country in the world. As a matter of fact she comes very low in the scale. As a comparison, for instance, on a basis of 1000 parts for the world, the United States produces 207.3, while Canada only produces 33.9. Nine other countries produce more than Canada, making us tenth in the scale. These figures are on the basis of 1909, when the yield was something like 130 millions. We are creeping up, however, and with present prospects ought to take a position considerably higher. Experts are already figuring on the western crop reaching the 200 million mark. In production of given area we stand considerably higher, or in the sixth place, with the United States tenth showing our great fertility of soil and suitability of climate as compared with other countries. When the great West is fully settled there will be a much different story to tell. Canada will then take her place at or near the head.

LOAVES AND FISHES

A despatch from Ottawa says that the whole civil service is in blue funk because orders have been issued that all holidays must be over by July 18, when parliament reassembles, and that as the Conservative party is the cause of this condition of affairs it is likely to turn the civil service vote against that party. Can it be possible that our civil service is made up of that kind of patriotic citizens—men who vote on personal grounds, without any thought for the larger questions which are agitating the country? We would hope not. We would hope that the despatch was sent out with sinister designs, and that it traduces the character of a class of gentlemen who are not altogether given over to the worship of the loaves and fishes. If it is a fact, there should be a readjustment of the clerkships at the capital.

By the death of County Judge Hatton, which occurred in Owen Sound last week, the position of County Judge is now vacant, and there is considerable speculation as to who will be the possible successor. The only name we have heard mentioned is that of W. H. Wright, who is probably the best qualified of local men. It is just possible, however, though hardly probable, that an outsider will get the appointment.

o o o

The United States government has certainly shown wisdom in deciding not to further increase their naval squadron on the great lakes, as announced from the Navy Department on Friday last. This action is taken through fear that Canada may protest so strongly that no training ships whatever will be allowed on the lakes. It is thought better to retain the bird already in hand.

o o o

Away up in Northern Ontario there is a township named Nesbitt—at least it was there when the last government map was made. Perhaps it is not there now, but if it is, it shouldn't be. We don't want the name perpetuated. Give it to the Mexicans.

Osprey Council

The members of the Osprey Council met at Maxwell on Saturday, May 27, last, as a Court of Revision. Mr. A. N. Brownridge having been elected to fill the vacancy in the Council caused by the death of A. E. McCallum, filed the statutory declaration with the Clerk and took his seat. There were only two appeals against the value of the assessment, viz: John Bannerman appealed against his property, lot 31, con. 12; lot 32, con. 11, and lot 32, con. 13, being assessed too high. The Court sustained the valuation set by the assessor. The other case of appeal was John Tyson, lot 18, con. 14, as being assessed too high. The Court reduced this assessment from $2300 to $2100. A number of names were added to the assessment roll by parties interested, and some changes were made regarding the assessment of dogs, which completed the work of the Court of Revision.

The Council proceeded to general business, all the members being present. Minutes of last meeting were read and adopted. Communications, accounts, etc., were read from Henry Heitman, account $5, clerk's postage; Dr. W. C. Ryckman, asking to have a truant officer appointed for the township; W. H. Wright, solicitor for A. L. Smith, regarding the opening of 30th sideroad, cons. 1 and 2 S.D.R; F. Irish, assessor, account $4.75 for equalizing U.S.S. A, M and O; deputation of R. Coutts and Wm. Rowley, asking for improvement on 40th sideroad, con. 3 S.D.R; notice of obstruction to the street in Singhampton owing to Brown's shed falling down; Municipal World, account 60c for supplies; J. A. Kernahan, treasurer, account $2.20, expense for exchange of cheques with county treasurer; Dr A. H. McFadden, account $8, disinfecting house of John Arnott. Orders were issued on the treasurer to pay Henry Heitman $5, clerk's postage; Thomas Scott $5, service as returning officer filling vacancy in Council; F. Irish $75, salary as assessor: Mrs. A. E. McCallum $7.50, amount due the late A. E. McCallum for service; F. Irish $4.75, for equalizing U.S.S. A, M. and O; The members of Council, including the Clerk and assessor, $2.50 each for service on Assessment committee; James Elliott and John Gordon $60 each, salary as collectors; Municipal World 60c supplies; J. A. Kernahan $2.20, exchange on cheques.

An additional sum of $150 was appropriated to each of the five road commissioners' divisions, thus making $300 to each. A special grant was given to the improvement of 40th sideroad, con. 3 S. D.R., of $50, with the understanding that commissioners of divisions No 1 and 5 would spend some of their appropriation there also.

James Gordon was awarded the contract for making tile on the same terms as last year.

Bylaw No 548, appointing A. N. Brownridge road commissioner; Bylaw No. 549, taking lots 12 and 13 in Con 8 and 9 from S S No 5, and attaching them to S S No 9, also taking lots 24 and 25, Con 9, from S S No 7, and attaching them to S S No 8; Bylaw No. 550, establishing a local municipal telephone system in Osprey, were each read the necessary number of times and passed in committee.

Council adjourned to meet at Singhampton on Saturday, July 18, next.

Reciprocity seems to be the chief topic now under discussion throughout Canada and of course, as usual, the party papers such as the Globe and Mail-Empire, are trying hard to switch everyone into line to their one-sided views regarding the matter. Our advice is to read what every paper has to say and then draw your own unbiased conclusions.
