TO THE FREE & INDEPENDENT ELECTORS OF THE COUNTY OF NORTHUMBERLAND.

GENTLEMEN:

AS the time is last approaching when a general election must take place, and as I had the honor of asking for your suffrages at the last election, on the Reform interest, and being well supported, and having at the solicitation of many friends, been induced at the close of the Poll, to pledge myself to come forward again when an opportunity should offer for exercising your right of suffrage, I now listen to redeem the pledge given as well at the earnest request of many staunch Reformers during the last five years.

I am then before you a Candidate for the purpose of representing this County in Parliament at the next General Election on true Constitutional Reform principles, supporting and carrying out Responsible Government in the broadest sense of the word, as understood by the people.

Should I have the honor of being elected your Representative, I pledge myself most distinctly to use every influence in my power to settle that much vexed question, the Clergy Reserves; and any measure that may be brought forward to unravel them in the people, either for purposes of Education, or for General Improvement, shall have my warmest support, so as the People may receive the whole benefit, without reference to Religion or Politics.

I will also use my utmost influence to have the Court of Chancery abolished—to reduce Law Costs as much as possible, and also to reduce the expenses of the General Government as much as is practicable for its proper working.—and finally,

Gentlemen,—I pledge myself to do all in my power for an improvement of the Country in general, and for this County and District in particular.

I have the honor to be,
Gentlemen,
Your ob't, Serv't,
WM. WELLER.

Cobourg, 8th Oct., 1851.

P.S.—If the Reformers of the County will hold a Convention composed of Delegates from each Municipality, and nominate a Candidate to go to the Polls on the Reform interest, should I not be fortunate enough to receive the Nomination, I pledge myself to resign and support the party who shall receive such Nomination.

Another Living Witness of the Hydropathic and Botanic Medicines, from CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

SEEING and hearing of so many testimonials for Dr. Lanktree's Medicine, brings me to recollect my duty both to him and the public; for I was some time ago, to the knowledge of many in this city, given over as an incurable case, with Enlargement of the Heart and Liver Complaint, and was effectually cured by him; also, lately, I was in despair with a Dropsical Swelling, and obtained immediate relief, so that I am now able to do my business well, thank God.

American and Foreign Patent Agents, and Publishers of the Scientific American,

RESPECTFULLY announce to the public that the first number of Volume VII. of this widely circulated and valuable journal will issue on the 25th September. The new volume will commence with new type, printed upon paper of a heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by increasing the number of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner—the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The Inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original matter not found in any other weekly publication.

BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 3.

THE great success of this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out very safe and profitable inducement to the person willing to Assure.

All claims payable within THREE months after proof of death. No proof of death is required as the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, except, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not vacated void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premium received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in withholding this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

C. T. GOODRICH having procured a suitable piece of ground at Waterloo (opposite the Pine Grove, on the Lobrough Road) for the Nursery Business, would intimate to his friends and the public, that he will be prepared the coming fall to supply all orders for Fruit and Ornamental Trees that he may be favored with, having recently received nine thousand standard Trees from the Oswego Nursery. The subscriber would also notice, that after this season he will be prepared to attend to all calls in the way of Grafting, Pruning and Setting trees, and hopes by punctual attention to the interests of his customers, to merit and receive a share of public patronage.
