IN addition to the above named ports, the boats will call at the other important Lake and River ports. ☞ After the 20th day of September, the Boats will discontinue calling at Lewiston, and make Hamilton the port of departure at 7½ o'clock on the mornings of Mondays, Wednesdays and Fridays.

The establishment of this Line will enable the merchants of Canada West to remain throughout the business day in Montreal and to reach their homes, almost as early as if they had gone by the Mail Line at noon, and connecting as the boats will do with up and down Express Trains at Ogdensburgh, they will afford direct conveyances for passengers and freight between the Canadian ports and the Eastern States.

It is deemed unnecessary to dwell upon the advantages of first class steamers passing direct from the head Lake Ontario to Montreal, and vice versa, over those of Lines that involve a transhipment (on the downward trip) at an unseasonable hour in the morning.

In compliance with a generally expressed wish, on the part of the public, a separate charge will be made for meals.

☞ The Line will be commenced by the HIGHLANDER leaving Montreal on TUESDAY, the 28th instant; the CHAMPION on THURSDAY, 30th, and the MAY FLOWER will be out next month.

RESPECTFULLY announce to the public that the first number of Volume VII. of this widely circulated and valuable journal will come on the 25th September. The new volume will commence with new type, printed upon paper of a heavier nature than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by interesting representations of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner—the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The Inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes Street, Bank, London.
CAPITAL. ONE MILLION,
EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out very safe and profitable inducements to the person wishing to Assure.

All claims payable within three months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, contest, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not received void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the instalments of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letters personal application to

THE CANADA LIFE ASSURANCE COMPANY.
Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, based thereon, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it thus not consequently contributes to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as may have been made, & it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

C. T. GOODRICH having purchased a suitable piece of ground at Waterloo (opposite the Pine Grove, on the Lobrough Road) for the Nursery Business, would intimate to his friends and the public, that he will be prepared the ensuing fall to supply all orders for Fruit and Ornamental Trees that he may be favored with, having recently received some three thousand standard Trees from the Owego Nursery. He would also call the attention of the public to his beautiful stock of Cherry, and Pears, together with many choice Ornamentals, now in the McLean Garden, Lot 23, just above the Roman Catholic Seminary; there are some six kinds of Cherry and as many of Pears, all of the very best kinds.

The subscriber would also notice, that after this season he will be prepared to attend to all calls in the way of Grafting, Pruning and Setting trees, and hopes by personal attention to the interests of his customers, to merit and receive a share of public patronage.
