The establishment of this Line will enable the merchants of Canada West to remain throughout the business day in Montreal and reach their homes, almost as early as if they had gone by the Mail Line at cost, and connecting as the boats will do with up and down Express Trains at Ogdensburgh, they will afford direct conveyance for passengers and freight between the Canadian ports and the Eastern States.

It is deemed unnecessary to dwell upon the advantages of first class steamers passing direct from the head Lake Ontario to Montreal, and we trust, that of Lines that involve a transhipment (on the downward trip) at an unseasonable hour in the morning.

In compliance with a generally expressed wish, on the part of the public, a separate charge will be made for meals.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes Street, Bank, London.
CAPITAL, ONE MILLION.
ENPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great success of this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, on meeting the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may claim for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by assuming more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 3 Mutual Tables established by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out very rich and profitable inducement to the prudent and wishing.

All claims payable within three months after proof of death. No proof of death is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, except, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not vacated and in case of death by doubling on the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

This is the most desirable route for either pleasure or business travel between New England and the Western States; and is at the most expeditious route from Montreal to Western Canada.

THE CANADA LIFE ASSURANCE COMPANY.
Incorporated by Royal Authority.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, by old Annuities, to purchase Annuities and to embrace all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that it now commands in Canada, to offer terms to Assurers much more reasonable than the rates of mortality obtainable on investment by British Companies and their consequently large expenditure can with any reason be willing to offer.

An annual statement of the receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it stands all the finds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, or what comes to nearly a similar instrument, neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time find themselves in trouble to meet the payment of their premiums, the Company will grant Policies, payable at death, half upon receipt of the value of such payments as may have been made, & it is further engaged to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the annual branch are yearly divided among the policy holders in that branch.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
