TRUTH BEFORE FAVOR- PRINCIPLES, NOT MEN

THE BURNING QUESTION

We offer no excuse for publishing the letter given elsewhere in this issue from the pen of E. E. Knott, at one time Reeve of Euphrasia, but at present residing in New York. For a long time The Advance has been admitting to its columns matter (not editorial opinions) denouncing reciprocity, and it is only fair that something of the other side should be heard by the readers of an independent newspaper. Moreover, the letter, which appeared in the Globe last week, has attracted a great deal of attention in this section, and many who do not get the Globe are desirous of seeing what Mr. Knott has to say. This gentleman has evidently been playing the role of Rip Van Winkle. He has been sleeping in Uncle Sam's domain for the past twenty-five years, and has only now awakened to the fact that conditions have radically changed in canada during the past twenty-five years. During that time we have seen two political parties discard their old clothing and don new. That part of it need not surprise Mr. Knott.

For ourselves, we have taken no decided stand on the question since it has been made a question of politics alone. We regret, as we have already said, that this should be the sole question to be discussed. There are others really more important. Personaly we do not think reciprocity would work such a revolution as many appear to think, and therefore it is a very good subject to play political football with. The fact that manufacturers, produce firms and financiers are found opposing it would to our mind be a very good argument in its favor.

In country constituencies the campaign seems to run almost solely along party lines, although there will be some disaffection on both sides. Since the days of the National Policy we know of no question that has stirred the electorate so deeply as has reciprocity, and it is seldom any country sees a more determined political battle than that which is now in progress throughout Canada.

That the great Toronto exhibition has not yet reached its apex of glory is abundantly proven by attendance from year to year. During the first week this year the increase over that of the same period last year amount-to 61,500. The total attendance was 389,500.

E. E. Knott on Reciprocity

"As a Canadian-born, an Orangeman and an old-time Tory, I am amazed and disgusted by the flop-over of the leaders of the political party in which I was born and reared," said Mr. Elijah E Knott to a representative of the Globe, in discussing the present political campaign.

Mr. Knott is a native of Euphrasia township, and was its Reeve at 21. He comes of old Orange-Tory stock, and claims hundreds of blood relatives in the county of Grey. His father, James Knott, was a lifelong friend and supporter of Senator D. L. McPherson, Geo. Jackson, David Creighton, A. W. Lauder, and W. K. Flesher. He himself was a delegate from Grey to the Conservative convention in Toronto at which Sir John Macdonald announced the National Policy. He was secretary of the Conservative convention in East Grey that nominated Dr. Sproule as successor to Mr. W. K. Flesher. Recalling these things, of which he is evidently proud, Mr. Knott said:

"I was a member of the United Empire Club, and was all a good Tory was expected to be in that rock-ribbed riding of East Grey. And to-day, after 25 year of life in New York and Washington, I am in as close touch with Canadian politics, and especially with affairs in Ontario as I would have been had I never left Euphrasia.

"I have been particularly interested in this reciprocity campaign. It simply staggers me. In face of the traditions of the Conservative party and the openly declared policy of its leaders, not only in my time, but ever since its present opposition to reciprocity, its sudden right-about wheel is to me political madness. I regret it so keenly, and feel so certain that the leaders have blundered, that, were I still an elector in Grey, I would do my utmost to save the party from the blind folly of those evil counsellors who are now leading it astray.

"As for the annexation bogey, it would be a joke were it not that playing with fire never is a joke. I left Canada in the dark days of Canadian depression, but my experience in the United States has convinced me that the political union of the two countries would be a mistake. I know from long personal study of movements on the American side that the idea of annexation was long ago abandoned, and is raised now only by the agents of the trusts interested in the defeat of reciprocity in Canada.

"All the leaders of the United States are to-day opposed to the acquisition of territory. Cuba and the Phillipines are evidences. The rise of Canada and its power as part of Britain are welcomed by American statesmen. Americans are learning to know the value of Canadian institutions, and, while they desire to trade with Canada, they have no desire for political union.

"Yes, I have all the bias of the Orange born, and for that reason I am amazed that some of my old associates do not recognize in President Taft the greatest friend and ally of Britain among all the presidents. More than any of his predecessors, he stands for the association of the English-speaking peoples. How my old friends can distrust President Taft and stand for Bourassa is beyond my comprehension.

"The fight put up by Taft against the lumber trust and the whole farming industry may cost him his re-election, but that fight opened, as far as could be done by Congress, the markets of the United States to the great natural products of Canada. If Canadians fail on their side it will be a misfortune which all Canadians in the States will regret. But my most earnest word is against this loyalty cry. I am as loyal to British connection for Canada as any of my old friends in Grey, and for that reason I deplore this cry of 'Fire! Fire!' when I know there is no fire.

"Yes, as an old-time County Grey Orange Tory I would urge my friends in Canada not to be deceived by cries I know to be false. This is the farmer's chance."

DO YOU USE PILLS?

If In Doubt About the Right Pills to Use Read the Following Letter Carefully:

"I am one of those persons whose system requires aid," writes Mr. Young Gledhill, from Picton, "but it is so easily affected by reason of the great sensitiveness of the bowels that ordinary drastic pills inflict great injury to the delicate coating, and excite such persistent activity as to be with difficulty checked.

"I wish in the highest terms to express the great value of Dr. Hamilton's Pills in cases like mine, and I am sure also for elderly people and the very weak there is no pill like them.

"Speaking of my own experience with Dr. Hamilton's Pills, I can say they have proved the most stimulating pills for the liver I have found. I have proved their tonic action upon digestion, and the same results have been secured by friends upon whom I have urged their use. The manufacturers are to be congratulated upon possessing so valuable a prescription, and the public should know that so valuable a remedy has been placed at their command."

No other pill for constipation, for liver, kidney, or stomach trouble, compares with Dr. Hamilton's Pills; they are mild and sure always to restore health. Refuse substitutes. Sold by all dealers, 25c per box, or The Catarrhozone Co., Kingston Ont.

SCIATICA EXPECTED DEATH ANY DAY

Another Case Where Life Was Saved and Health Restored by "Nerviline."

It is because he feels it his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration: "For three years I was in the Royal Mail service, and in all kinds of weather had to meet the night trains. Dampness, cold, and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down because the money I spent on trying to get well was wasted. I was speaking to my chemist one day, and he recommended "Nerviline." I had this good liniment rubbed on several times a day, and got relief. In order to build up my general health and improve my blood I used Ferrozone, one tablet with each meal. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating, and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism, or sciatica to use Nerviline. I know it will cure them."

CURED SIX YEARS

There isn't a more highly-esteemed citizen in Westchester than Mr. Hires. What he says can be relied upon. For six years since being cured he hasn't had a single relapse. Don't accept anything from your dealer but "Nerviline," 50 cents per bottle, trial size, 25c; sold everywhere, or The Catarrhozone Co., Kingston, Ont.
