FEEDER PURCHASE POLICY

To encourage the winter feeding of young cattle and lambs in those districts of Canada where feed is plentiful, the Hon. Robert Weir, Dominion Minister of Agiculture, has announced the renewal of the feeder policy which was in effect in 1934. The policy is effective from August 1 to December 31, 1935, and under its terms one-way transportation and reasonable travelling expenses will be allowed to a farmer in any part of Canada purchasing one or more carload of young feeder cattle or feeder lambs according to the conditions as laid down by the Live Stock Branch, Dominion Department of Agriculture.

In Eastern Canada, information, expense forms and so on, may be obtained from the nearest Dominion Live Stock Branch representative at the stockyard visited, or from R. S. Hamer Assistant Commissioner, Dominion Live Stock Branch, Ottawa.

It is very important that those who desire to take advantage of this policy should familiarize themselves with the terms because the policy does not apply to shipments purchased for speculative purposes and all stockyard purchases must pass inspection as to type and quality by the Stock Yards agent of the Dominion Live Stock Branch in order to qualify for the expense payments under the terms of the policy. Attention is also directed to the necessity of applicants interviewing the Branch agent at the Stock Yards in advance of purchasing.
