The Rochefort Affair in Paris.

The affaire Rochefort has been seized upon by the malcontent portion of the population of Paris as a pretext for a public demonstration against the police, and through them the Government. A few nights ago there was an occurrence of the sort in the Quartier Latin, when, parodying a cry often heard during the first French revolution, the mob raised a shout of "Vive Rochefort, les mouchards à la Lanterne!" A few arrests having been made however, the crowd at length dispersed. On Monday the scene was re-enacted by a number of students, who had assembled in the neighbourhood of the Sorbonne on the occasion of the annual distribution of prizes, and who availed themselves of the visit of the Prince Imperial to display their sympathy with M. Rochefort. Of course this led to more arrests. But matters did not stop here; for inside the building an incident occurred which produced an immense sensation. A pupil named Cavaignac, son of the general of that name, President of the Republic of 1848, was amongst the prize men, but upon being called he refused to go up to receive the prize, and his doing so excited great cheering. One young gentleman making himself conspicuous by the vehemence of his acclamations, was removed from the hall, and then and there expelled from the college to which he belonged. This fact becoming known out-of-doors, large numbers of students paraded the streets shouting for Cavaignac. More arrests followed, and a cafe, presumed to be the headquarters of the disaffected, had to be closed. It is said that on young Cavaignac hearing of the expulsion of his enthusiastic friend, he at once took his own name off the books of the college.

A Fenian Demonstration.—A remarkable Fenian demonstration took place in Cork (Ireland) two or three weeks ago. A son of Capt. Mackay, a Fenian, died when only two days old, and the funeral was held on the next day. As if by magic, the members of the brotherhood assembled to show their sympathy with the parents and perhaps also to show the Government a sample of their organization. They came in such numbers as to block up the streets with carriages and crowds of people. The tiny coffin was placed on a bier, which had been converted into a forest of evergreen boughs, and was followed immediately by fifty well-dressed young men, with crape bands knotted with green silk, who kept a uniform tread four deep. After these, walked some eight hundred of the respectable artisan class, who likewise marshalled four deep. Then came a long line of cars, and hundreds of people who closed in an extraordinary long procession. Beside these, the footpaths were crammed with people who held aloft a forest of green boughs in gloomy silence. The procession maintained a quiet and orderly demeanour, which, with the silent raising of the boughs, was looked upon as very remarkable. No sooner was the coffin placed in the grave than it was covered and heaped up with the branches of laurels which the men who stood round laid on it. Numbers of police and detectives watched the affair, but did not interfere.

Diamond cut Diamond.—It will be remembered that a man by the name of Montague was arrested here on Thursday last by the detective for stealing $150 from his brother at Adams, N. Y., and was sent back to that place. It transpired upon the prisoner's arrival home that after he had secured his booty, and when at Henderson's N. Y., another thief by the name of H. P. Taylor managed to appropriate the plunder to himself, and make off with it to this side of the Lake. The telegram received by the police authorities here from Henderson's arrived just to late to allow of the thief's capture, who had, it is ascertained, proceeded west on the cars.—News.

Barley Shipments from Toronto.—The Telegraph says:—The seeming chronic dullness in the produce trade during the last two months is now at an end. Barley is coming forward freely, not less than 40,000 bushels having been bought on the street during the week. To-day the first cargo of the season left the port. It was shipped by one of our most enterprising dealers, Mr. W. H. Taylor, in the schooner "H. P. Murray," and consists of 10,000 bus. Mr. Taylor is also loading the 'Annie Falconer,' capacity 12,000 bushels of wheat and will have her ready to leave on Monday. Both of these vessels go to Oswego. Freight 3½c. American currency. Another cargo is being got ready, and considerable shipments will be forward early in the week.

Wife Murder.—Two men have been before the police courts in London charged with throwing their wives out of the window. In one instance the result was not fatal, though the woman was shockingly injured. Some of the circumstances of the other case were peculiarly atrocious. About one o'clock on Sunday morning the wife of a saddler named Neave was observed hanging by her hands from the window-sill of an upper storey. At length she fell, and two men who attempted to catch her were knocked down and much hurt. She was killed by the fall. A woman named Sharp informed the police that she saw the prisoner strike the hands of the deceased and force them open so that she might fall.

Meteors.—The frequency of shooting stars and meteoric lights which appear almost nightly in the heavens, is somewhat remarkable. Last night about 11 o'clock, a most brilliant meteor shot upward and along the dome of the sky with a grandeur that was sublime. It left a broad line of light behind which dimmed the brightness of the stars for upwards of thirty seconds. The trail of the meteor seemed to be about three hundred feet long.—Hamilton Times.

The Rifle Meeting at Laprairie.

The following regulations for the Dominion of Canada rifle association at Laprairie, near Montreal, on the 15th September, are published in the Official Gazette:—

In order to avoid irregularities which may possibly occur from Volunteers in large numbers assembling at one spot with arms, and not as an organized military body:—

1st—Every Volunteer militia man, or militia attending as a competitor at the rifle meeting, is to come in proper dress, or undress, uniform with accoutrements, great coat, knapsack and mess tin, complete when furnished.

2nd—On arrival at camp, every Volunteer militia man, or militia man, is at once to proceed to the camp brigade office, where his name will be enrolled, and quarters told off for him under such regulations as may be prescribed by the officer commanding the camp. Each officer and man thus enrolled will have the use of a straw stuffed palliase and pair of blankets during his stay in camp, for the safe keeping of which, and return to the proper officer, he will be responsible.

3rd—No rations will be provided, but cooked or uncooked rations can be purchased, as may be wished, at varied rates, from the lowest upwards.

4th—Volunteers and militia will be subject to such regulations as may be prescribed for the proper maintenance of order and discipline under the penalties of military law. No drill will be required and no duty expected from competitors beyond that of internal economy for the carrying out of the orders of the camp, except in case of emergency for the maintenance of order.

5th—Where practicable the men of each corps competing should arrive and report together, under the command of an officer who should be furnished with a nominal roll of the men arriving, specifying opposite each man's name, the period which he wishes to remain in camp.

6th—So far as applicable, both officers and men are to be amenable to the above regulations.

The Case of Lord Cecil.—Some excitement has been caused in religious and in military circles by an order from the Horse Guards to prevent Lord Cecil, an officer of the Rifle Brigade, at present in Ottawa, from continuing his religious meetings. Lord Cecil has determined to sell his commission in a service where he is not allowed to devote his leisure time to improving the minds and elevating the souls of his fellow-mortals. It is not pretended that he has tampered in any way with soldiers of a different creed, or that his duties as an officer have been neglected or improperly performed. Under these circumstances, the interference of the home authorities seems wholly unwarranted and without even the shadow of an excuse. As a contemporary says, the Horse Guards have not a word of censure for the officer of the 23rd Fusiliers, who, assuming to be the friend of his Colonel, betrayed his confidence, ruined his wife, and basely deserted her. Such offences as these do not come under the ban of the military authorities, who by their silence in the one case and the stern displeasure evinced in the other, appear to insinuate that an officer in Her Majesty's service may be a liar and a scoundrel,—everything that is bad, in fact, so that he does not venture to take any interest in the spiritual and eternal welfare of the men under his command, over whom he must necessarily exercise so potent an influence. It was Henley Vicars and men of stamp who adorned the annals of the Crimean war; it was Havelock, the 'the praying Col.' who led the Highlanders to Lucknow, and afterwards, defended that historic town against a host of foes. And in the future we may rely upon upon it at the bravest and truest warriors will be found among those who are also soldiers of the cross and of the Christian faith.—London Advertiser.

Confidence Operation at Boston.—A Boston paper says: "A few days since a well dressed young man entered a broker's office in this city, and said he desired to buy some bonds. He gave the kind and amount, and said he would call again the next day. He did so, and then requested the broker to send him $6,000 worth to his place of business, naming a store in a good business locality. The broker was suspicious, and instructed the messenger, his clerk, not to let the bonds go out of his sight until he had received the money therefor. At the store the young gentleman appeared, took the bonds, and, opening a desk, placed them in a pigeon hole, and then locked them up. Recalled the clerks, attention to the operation, and told him to sit down and wait while he stepped out and cashed a check. The clerk waited until it was apparent that the young trader had disappeared, and he then investigated the matter, and found that there was a 'back entrance' to the desk, through which the bonds had been taken and carried off. The name of the business man is not known, his whereabouts is also involved in mystery, and a Boston broker is $6,000 out."

The Governor General of India.—The Times has a leader on a rumor that Lord Mayo is to be the next Governor General of India, and asserts that had any dozen well informed persons been asked to guess a dozen times, every one of them would have exhausted his chances without coming to the name of Lord Mayo.

The Express says:—According to the latest rumor, Lord Mayo will not go to India after all. Sir Stafford Northcote is again first favorite for the appointment. It is said that Lord Mayo himself never wished for the appointment, but that it was in a manner forced on his acceptance.

Poor Train.—Although Mt. G. F. Train languishes in an Irish prison, his gaolers appear to allow him a considerable degree of liberty, together with the luxury of pens and ink. He has just issued to the world from his cell a journal of four pages, called a "Train Extra," in which he describes himself as an American citizen in a British bastile, and the victim of a foul conspiracy. The debt for which he has been "bastiled" was paid, he says, many years ago, and all his sorrows have been the fruit of his virtues.

Her Majesty's Health.—The Lancet thus refers to the continental tour of Queen Victoria; Her Majesty has undertaken her visit to Switzerland, where she intends to stay for about a month, on the recommendation of Sir W. Jenner. We stated some months since that the Queen had been subject to fainting fits, accompanied by distressing attacks of sickness. Though these to a great extent have abated, she has felt very much the hot weather of late prevalent, and this, with the unusual fatigue she has recently undergone, have produced a degree of weakness which the proposed change, it is expected, will remove. On the return from Switzerland the Queen will spend some time at Balmoral.

Generosity of Creditors.—The committee appointed to effect a settlement of the debts of the late Mr. McGee are meeting with great liberality on the part of his creditors. Dr. O. C. Wood, of Ottawa, has sent in Mr. McGee's account for professional services, amounting to $40, receipted, and Dr. C. W. Webb, of Montreal, has done the same with a similar account for an equal amount. It is to be regretted that the public subscriptions already received are not sufficient to cover the amount of Mr. McGee's debts, and we trust that they will be further enlarged.

Rangoon Oil for Fire Arms.—The Militia General orders state that in consequence of favorable results of experiments by departmental chemists and trial by the superintendent of small arm factories of the Imperial government, Rangoon oil has been introduced into the service for the preservation of small arms and articles made of metal from oxidation, and in order that the valuable arms now in the hands of the volunteers may not deteriorate, a supply of this oil has been obtained for issue by Provincial store-keepers to officers of the force on repayment at the several district headquarters — the price being £2 25 per gallon, or 60c per quart. Officers claiming annual allowance for the care of arms will hereafter be required to certify that rangoon oil is used in oiling the arms, for care of which such allowance is claimed.

The Broken Atlantic Cable.—On the 3rd instant Mr. Willoughby Smith, the eminent electrician, started for Valentia, county Kerry, in pursuance of instructions from the joint commitee of the Atlantic and Anglo-American Telegraph Companies. He was followed on the 4th, by Mr. Latimer Clark, who will verify his tests, which at present show that the fault lies about eighty miles from Newfoundland, in water not exceeding, if it reaches, 100 fathoms in depth, and that the interruption of communication is so complete as to put it almost beyond doubt that the injury has been caused by the grounding of an iceberg. Communication will, it is expected, be restored in less than a month; but meanwhile the other cable is fully equal to the work required of it.

Clerical Titles.—By the District Church Titles Amendment Act, every beneficed clergyman, not a rector, obtains the style and designation of vicar. The anomalous title of perpetual curate, which has attached to the incumbencies of district churches, and of the greater part of the appropriate and inappropriate rectories, has ceased to exist, and the spiritual inferiority implied by its use has been removed. All beneficed clergy of the Church of England are now either rectors or vicars.

New Insolvents.—The following insolvents are gazetted:—John Ryan, Three Rivers; John Adam, Hamilton; Henry Mignit, Picsseville; James Lindsay, Kingston; Roger Renwick, Cobourg; Chester & Orlando Hall, Toronto; Finny Frost, Cowansville; James Coody, Goderich; Henry Blake, North Augusta; Edward Armstrong, Napanee; Louis D. Emery, Montreal; L. W. Watson, Goderich.

NEWS OF THE DAY.

WEDNESDAY MORNING, AUG. 26, 1868.

Whalen's Trial.—A telegram from Ottawa says:—John O'Farrell, from Quebec, has been here since Friday wanting to see Whalen, but would not be admitted. He leaves for Toronto on Monday to endeavor to get the Judges to pass him, so as to defend Whalen and the Fenian prisoners at the coming trial. It is reported he gets $10,000 for the defence if he can pass.

☞ The Band of the R. C. Rifles will play in the Cricket Field on Friday afternoon, instead of this evening in the Park.

Accidents.—On Saturday afternoon a woman by the name of Catherine Burns, while attempting to draw water from a well in a yard in Little's Lane, fell in from the giving way of the box round the curb. She was taken out in an injured condition, having received severe cuts on the head and broken several of her ribs. On the same afternoon about 6 o'clock a young lad named O'Reilly, while driving some cows to the pasture, was thrown from his horse and severly injured, the animal having fallen on him.

The woman Burns has since died from the effects of her injuries.

Police Court, Tuesday.—Joseph Padden was charged with being disorderly. He was allowed to depart. Two drunks, one of whom, a Montreal tramp, was fined $2.50, having to be brought to the Police Station in a cab; the other was fined the usual $2. The adjourned case of Enwright, for selling liquor without license, was dismissed. These were the only cases.

Arrivals at the Burnett House.

Aug. 25.

A R Morrison, Montreal; W Doran, Doran; J C Harding, London, Eng; C B Fraser, Toronto; Miss Armstrong, Mrs Dennee, Miss Dennee, New Orleans; A B Whittier, Conseccon; J B Dewey, Colborne; J Boyer, Brighton; D T Hawley, Taunton, Mass; Judge V H Higgins, Chicago; H E Parsons, Toronto; L W Sperry, Mrs Sperry, Miss Sperry, Connecticut; A Hodgetts, Prescott; E Mason, J B Stevenson, E S Thayer, Montreal; Rev J S O'Connor, Alexandria, Ont; J McLeod, Glengarry; Mr and Mrs W L Cass, Albany; Miss Rennick, London; F B Hart and wife, Utica; W R Mann and wife, New York.

Arrivals at the British American Hotel.

BATCHELOR'S HAIR DYE

This splendid Hair Dye is the best in the world. The only true and perfect Dye—Harmless, Reliable, Instantaneous, No disappointment. No ridiculous tints. Remedies the ill effects of Bad Dyes. Invigorates and leaves the hair soft and beautiful, Brown or Black. Sold by all Druggists and Perfumers, and properly applied at Batchelor's Wig Factory, No. 1, Fond du Lac, N. York. 1y11

In the Spring time most persons are more or less the subjects of disease arising from impure state of the blood. The causes are various, but it is only necessary to know that in order for the prompt purification of that fluid the patient should use

FELLOWS' COMPOUND SYRUP,

with full assurance of obtaining the desired results. This Syrup will also restore the organs of digestion, promote healthy assimilation, nourish the muscles, and renovate the nervous system.

We are enabled to speak with as much confidence in the cure of cases of this character, uncomplicated with organic disease, as of the spring rains promoting vegetation, or of the sun's rays being followed by light and heat. Persons then who wilfully avoid the use of this remedy, and perish from debility, may be chargeable with felo de se.

Sold by Apothecaries. Price $1.50 per bottle, or six for $7.50.

JAMES I. FELLOWS, Chemist,
St. John, N.B.
FRANCIS CUNDILL & CO.,
Wholesale Agents,
199 Montreal.

DR. RICORD'S ESSENCE OF LIFE, the only unquestionable and absolute remedy for Nervousness, Debility and Restoration to Manhood. The medicine, taken for four weeks, cures as certain as water quenches thirst. Sold in Bottles at $7 (in gold), or four times the quantity for $5. To be had from the Agent.

A CARD.

A CLERGYMAN, while residing in South America as a Missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, FREE OF CHARGE. Address

BEFORE USING AFTER USING

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

SARSAPARILLIAN.

Hidden Virtues Brought to Light.

For 300 years the curative properties of Sarsaparilla have lain in dormant in a part of the root, that have escaped the notice of chemists. By the new process recently discovered by Dr. Radway, in extracting the medical properties from vegetable substances that enter into the composition of RADWAY'S RENOVATING RESOLVENT, SARSAPARILLIAN, the crystalline principle of Sarsaparilla, was found to possess the true virtues ascribed to this root, obtained as it now is under DR. RADWAY'S new process, rescues by its wonderful curative power over all forms of Chronic, Skin, Scrofulous, and uncured secondary diseases, the reputation of Sarsaparilla from the unfavourable opinion of the medical faculty.

Sarsaparilla, Sarsaparillian,

associated with other ingredients of extraordinary curative properties, enters in the composition of

RADWAY'S RENOVATING RESOLVENT,

and this remedy may now be considered as the most effectual and quick curative remedy in all Curonic, Glandular, Skin, Kidney, Bladder and Urinary diseases. In diseases of the Lungs, Bronchi, Throat and Liver, it affords immediate assistance. It communicates its curative powers through the blood, sweat, and urine. The moment it is swallowed it commences its work of purification and the expulsion of corrupt humors from the blood. It repairs the waste of the body with sound and healthy material, and secures functional harmony of each depraved organ in the natural secretion of its proper constituents. In cases where there is difficulty in the Kidneys and Diabetes, Gravel, Catarrh, or Irritation of the Bladder, Bright's Disease, etc., etc., is present, this remedy will give immediate relief, and insure a cure.

Question.—Dr. A——t asks: "Will your SARSAPARILLIAN RESOLVENT make a permanent cure of uncured secondary disease, and restore the vigor of life to those unfortunates who by self-abuse or otherwise are suffering a waste of the life fluid?

Answer.—The purifying, strengthening, and reparative properties of this remedy is truly wonderful. In 1849-50, when this remedy was first introduced, it made extraordinary cures of persons who were treated unsuccessfully on the Parisian plan, both in Europe and in this country, by vapor baths of Mercury, Arsenic, Sulphur, and Iodine, Potash, Mercury, in several forms, and by inunctions, which only suppressed or stuffed the disease, and persons cured by the Resolvent made under the old process, afflicted with Spermatorrhœa, Weakening Discharges, etc., threatening impotency, have since married and have children of from 5 to 15 years now living, without a sign of inherited disease. This we consider good evidence of its THOROUGH CURATIVE AND FRUITFUL EFFICACY!! —(See page 14 of False & True, Dr. Radway's new medical book, article headed, "Ricord vs. Radway.")

If this remedy, prepared under the old process, possessed such powerful curative properties, its failure now is improbable and almost impossible.

In all cases of Skin Diseases, Pimples, Blotches, Worms or Insects, Black Spots in the Flesh, Sores, Eruptions, etc., a few doses will remove and restore the Skin to a clear and beautiful appearance.

In Chronic diseases, Ulcers, Tumors, Fever, Sores, etc., a cure is sure to follow its use. In all diseases of the Kidneys Bladder, Urethra, and where the Urine deposits sediments either of a brick dust color, gravel or Albumen, white shreds of stringy matter; a few doses will change these signs of terror to its natural condition. SARSAPARILLIAN RESOLVENT is a far better remedy for Kidney difficulties than Buchu. See that each bottle of Radway's Resolvent has the word "Sarsapaillian" on the label.

Price: $1 per bottle; or, 6 bottles for $5.

DAILY LINE OF

EXPRESS STEMERS

THIS Company will, during the Season of Pleasure Travel, commencing June 22nd, run a Daily Line of Steamers for Pleasure and Business Travel between Montreal, Ogdensburg, Kingston, Charlotte and Lewiston.

The Line is composed of the large, staunch, and commodious side-wheel Lake Steamers

ATHENIAN, Capt. J. J. Morley. | COLUMBIAN, Capt. J. B. Estes.

One of the above Steamers will leave Kingston for Alexandria Bay, Brockville and Ogdensburg, at 3:00 a.m. daily (Mondays excepted), connecting at Ogdensburg with the elegant River Steamers CHAMPION, Capt. Carmichael, and BANSHEE, Capt. Bailey.

Leaving Kingston for Charlotte at 8:00 p.m. daily (Sundays excepted), arriving at Lewiston the following morning at 9:30, connecting at Charlotte and Lewiston with the New York Central Railroad for Niagara Falls and Buffalo—thereby forming a close connection with the Railroads West and South.

For Passage Tickets, apply at the office of Folger & Bro., Ontario Street, or at the Lake and River Steamboat Office, St. Lawrence Wharf, foot of Johnson Street.

A comfortable and convenient Waiting-Room for Ladies and Gentlemen on the Wharf.

HAMS

That are Hams!

I HAVE RECEIVED THIS DAY 52 SUGAR CURED HAMS direct from Dr. Brown, the renowned Curer, of Cincinnati. Each one has been microscopically examined by myself, so that the public may buy and use them with perfect safety. They are really the finest lot of Sugar Cured Hams I ever saw.

TRUTH!

WHEN I say to the public that I can serve them with

CHEESE

Better and Cheaper than can be procured elsewhere in Kingston, I believe I am telling the TRUTH.

I have as usual a large Stock of

WOLFE ISLAND CHEESE

in prime order, for Cutting and Retailing, and am prepared to serve the trade or families taking a whole CHEESE or over at the lowest rate per pound.

I understand the business practically. I will guarantee satisfaction at all times as to quality, and I sincerely thank the public for past patronage and a continuance of the same.

A. W. CRAIG,
Baker and Confectioner,
Market Square,
Next to Linton's Auction Rooms.

Fellows' Compound Syrup of Hypophosphites.

THE power of arresting disease displayed by this Preparation is honorably acknowledged by the Medical Faculty in every section where it has been introduced; and the rapidly increasing sale is the best guarantee of the estimation in which it is held by the public.

This Syrup will cure Pulmonary Consumption in the first and second stages, will give great relief and prolong life in the third. It will cure Asthma, Bronchitis, Laryngitis, Cough and Colds. It will cure all diseases originating from want of Muscular Action and Nervous Force, such as Enlargement of the Liver, Enlargement of the Spleen, Dyspepsia, Rickets, Feeble and Irregular Action of the Heart, Local and General Paralysis, Non-retention of the Urine, Prolapsus Uteri, Prolapsus Ani, Aphonia or Loss of Voice.

It will cure Female Irregularities, Leucorrhœa, Weakness and Debility, Chlorosis, Anæmia, and restore the blood to purity and health.

It will return the vigorous v
