Miss Lillian Rutledge of Orangeville and Mr. Sturdy of Meaford spent the holiday with the former's mother.

No country mails arrived in town on Tuesday, consequently several budgets of news are missing from this issue.

Miss Hattie Nixon of Meno Road visited her grandparents, Mr. and Mrs. Alex. Stewart, during the past week.

Mrs. W. H. Bunt, accompanied by Misses Lillian and Florence, visited Woodbridge friends during the holiday.

A special meeting of the Township Council is called for to-day (Thursday) to consider repairs of damages caused by the spring freshet last week.

Saturday evening a Toronto young lady informed The Advance that she had attempted to buy a certain grade and number of rubbers at Eaton's, Simpson's and in two Toronto wholesale houses, but could not get them. After coming to Flesherton she got them at F. H. W. Hickling's store and was so happy that she thought it worth mentioning to The Advance.

Mrs. Marcellus is visiting this week in Toronto.

Loucks' dam was injured by ice during the thaw last week and the mill was put out of business for a few days, but will be ready for renewed operations to-day (Thursday).

Four of the councillors came out on foot Saturday and one on horseback. Reeve McKenzie had a six-mile walk, Mr. A. D. McLeod and Mr. Meldrum each five miles and five back. They all earned more than their salary on this occasion.

Sermons appropriate to the Easter season were preached in all the churches here on Sunday. Rev. Mr. Milligan preached in the Methodist church in the evening. The choir of this church rendered excellent Easter music at both morning and evening services.

Two Flesherton young ladies, Misses Gertrude Bellamy and Pearl Radley, were quite successful in the Easter examination at the Northern Business College, Owen Sound. Miss Radley came second in best writing, 4th in spelling, and 3rd in speedy typewriting. Miss Bellamy came second in greatest improvement in writing, just missing the silver medal; 2nd in best spelling weekly record for three months, and first in spelling test of 100 words. Both young ladies will return to the college to complete their course.

Last week The Advance gave a record of egg laying by Mr. Jos. Clinton's hens for February and March, showing an average of a fraction over 29 eggs per hen for the two months. Mr. Fred Hickling of the village also kept a record for the same period and his average totes up 31 per hen, therefore he claims the right to crow. But wait. Mr. Hickling had only eight hens, of Rhode Island and Leghorn breeds. In February they laid 97 eggs and in March 151. He had only about one quarter the number of hens that Mr. Clinton had. Therefore it is a matter of doubt with us who should be considered the more successful, and we would like a pronouncement from competent judges.

Mr. Dave Weber, the Kimberley mail carrier, deserves the Victoria Cross for bravery. The roads were impassable for the team, but nothing daunted, Dave shouldered the mail bag Monday morning and walked out here with it, making the return trip in the afternoon—twenty miles of the hardest kind of travelling! We hope the good people of Eugenia and Kimberley fully appreciate the blessings they enjoy in having such a Gritty servant of the king to wait upon them. Almost as remarkable a feat, and perhaps quite, when age is taken into consideration, was that of Mr. John Weber, father of the above gentleman, who made the double trip of twelve miles from Vandeleur the same day. Both were feats of heroism.

A Costly Washout

One of the costliest washouts that has occurred in this township for many years occurred a mile and a quarter east of this village early Sunday morning, when the culvert and twenty-foot embankment went out at what is known as the horseshoe hill. The embankment was cut out for a distance of over fifty feet and all traffic from the east brought to a complete standstill until a temporary bridge or deviation could be made, as there was no way of getting around the obstruction.

The culvert was put in something like 25 years ago and a twenty-foot filling made over it twelve or fifteen years ago. There appears to have been a weakness in the culvert when erected in that a proper foundation was not made. It was an arch culvert of 3½ feet diameter. Owing to the very sudden thaw the water could not be carried off. Saturday evening it was about sixteen inches higher than the opening and about 5 a.m. Sunday it carried the whole immense body of earth and logs away, until a hole 20 feet deep and fifty feet across was cut through the roadway. Large numbers of villagers went out on Sunday to view the ruins.

As it chanced, Reeve McKenzie was in town over Sunday and early Monday morning he and Councillor D. McLeod went out and viewed the ruins with a view to making arrangements for the erection of a temporary bridge or deviation to let traffic across, until such time as a suitable repair can be made.

SUFFERED FROM VIOLENT CATHARTICS

The Warning of Mr. Geo. C. Fox Is One That Should Be Heeded by All.

Few men on the road are better known than genial George Fox, whose friends throughout the West are legion. In the following letter he expresses gratitude for signal services rendered by Dr. Hamilton's Pills. He goes on to say: "Until I used Dr. Hamilton's Pills and experienced their wonderful mildness and curative power, I estimated the value of every pill by its activity. Talking about this to a well-known physician I met on the train the other day, he explained there are different kinds of drugs that act upon the bowels, the most active being known as drastic. Except in extreme cases where the life of the patient depends upon speedy evacuation of the bowels, pills should never be drastic. Purgatives cause catarrh of the bowels and inflammation; their dose must be increased, causing even more harm. With such a clear explanation I could see why Dr. Hamilton's Pills are curative and not irritating, why they are mild, yet most searching.

"From my experience I recommend everyone that takes pills to give up the old-fashioned harsh, purging pill, and, instead, to use Dr. Hamilton's. They cure headache, biliousness, constipation, bad stomach, and keep the system in perfect condition."
