"THE LAST MAN."—The following case of extraordinary longevity is reported by the Portage Register (Wisconsin): Joseph Crele, born near Detroit, Michigan, 1726 died about the close of the last year, and had therefore attained the almost antediluvian age of One Hundred and Forty Years. He was born five years before George Washington, and was nearly fifty years old at the outbreak of the American Revolution; so that he might, even then, have claimed exemption from military service. He was 42 years old at the birth of Napoleon I. He was 60 years old when the Federal Constitution was formed, and 84 when Abraham Lincoln was born. Modern time affords but a longer life than his, that of Parr, the Englishman, who is recorded to have been born in 1483 and to have died in 1635 at the ripe age of 152. Crele's baptism, is said to be on record in the French Catholic Church in Detroit, so that his age would seem to be duly attenticated. Crele is called by a contemporary, "the Last Man." He certainly must have been for many years before his death the last man of his generation. Standing alone consciously the sole survivor of every living being who started life with him, his position was a very peculiar one.

SPOTS ON THE SUN.—The remarkable spots of the sun, during this summer of extraordinary heat, have been described in part. A Mr. Gillman sends to the Evening Post a lithographic sketch of the large 'spot,' as it appeared to him at New Haven through a nine-inch glass, having a magnifying power of 290. The spot was the most extraordinary this observer ever saw. Its length was 55,000 miles, the black portion extending for 24,000 miles; or, to give a more familiar idea of its magnitude, two planets, each as large as our earth, could have been engulfed within this chasm without squeezing. The periphery of the central spot was mottled with black and grey dots. The lithograph has a very curious appearance, somewhat resembling a capital Q, or a comet with a curled tail, surrounded by an infinite number of small specks of a greyish tint. The greater diameter of this sun-spot extending nearly due east and west, that portion spoken of above as the tail curving round to the north. Altogether it presented a remarkable and unusual appearance.

Rev. Edward E. Fuller, says, I have witnessed the beneficial effects of Perry Davis. Pain Killer in case of dysentery and cholera morbus, within a few months past and would cheerfully recommend its use to such as may be suffering from similar diseases, as a safe and effectual remedy. 205

A Dreadful Tragedy.

TWO KILLS DESTROYED AND A FAMILY BURNT TO DEATH—FOUL PLAY SUSPECTED.

Windsor, Aug. 31.

On Sunday morning about half-past twelve o'clock a horrible tragedy was enacted at Belle River, about eighteen miles from Windsor. Van Orden's mill was set on fire by the torch of an incendiary. This fact is easily shown by the subsequent discovery of an oil can and other combustibles, near the place where the buildings were fired. Soon it communicated with the main portion and sooner than it takes to write, the whole fabric was in the embrace of the devouring element. The village was hushed in quiet slumber, but the stillness was awakened by the alarming reports of pistol shots, and the few who heard them were aroused to a sense of the situation by the glaring lights which shone from the burning pile. Hardly had the half awakened sleepers discovered the fire before another burst over their gaze, and it was found that the mill of Van Allan, situated about two hundred yards distant, was also in flames. A prompt effort was made to suppress both, but they were soon buried to the ground. The building adjoining, wherein were Mr. Van Orden, his wife and grandson, were next enveloped, and, horrible to say, they perished in the general disaster. Yesterday morning their blackened and charred remains were taken from the smouldering pile, and placed in a box for interment. They were barely distinghishable, so complete had the fire done its work. The body of Mrs. Van Orden could only be distinguished from the rest, from the fact that fire had exhausted its fury before she was entirely consumed.

Sickening as may be the details of this terrible affair, the facts must be stated. All that is left of Mr. Van Orden's body is a portion of the trunk burned to cinder, the head and legs are gone, and scarcely the semblance of humanity left. His wife's only recognised from the appearance of the hair on the back of her head, which is almost consumed; the balance of the body, the extremities and top of the head were destroyed. The body of the grandson, who was a smart young man of 17 years, is only recognisable from the facts given above.

The mill of Mr. Van Orden was totally destroyed. What the motive for firing these premises could be, will only be determined on a future investigation. It may have been to distract attention, or there may have some personal reasons for it. In either case no excuse can be offered. There is a surmise, and probably revelation may establish the truth of it, that the Van Orden family were first murdered and that then the premises were fired to cover up their discovery. Some of the citizens state that pistol shots were heard at the time of the alarm, and it is probable that the unfortunate family were murdered in their sleep.

It is alleged that Mr. Van Orden drew from his bankers, Messrs Noble & Strong, at Windsor, $500 on Saturday, and there may have been a motive for this horrible proceeding, if at he was dogged to his home, and with his family, brutally assassinated, none being left to tell the horrible tale.

Mr. Van Allen's mill was insured for one thousand dollars in the Commercial, and one thousand in the Queen's.

Capt. Roberah was arrested yesterday evening on suspicion.

Mr. G. McMicken, stipendiary magistrate, Dr. Donnelly, coroner, and S. S. McDonell, crown attorney, and Mr. John O'Connor, M. P., counsel for the criminal, all left here.—Leader.

One of the silliest of many silly associations has just been discovered at the west. The head of it calls herself 'Princess of Jerusalem,' and the object is to form a new Gov-

A singular procession was noticed the other day passing through the Mercadi-street, in St. Petersburg. Twenty Jews, with a white cross chalked on their backs, were carried along under strong military escort. It appears that these wretched beings had been condemned to deportation in Siberia, but had prayed to be converted to the Orthodox Church in order that the usual pardon might be granted them. Instead of being obliged to work in the mines they are allowed to 'settle' in Siberia as a reward for embracing the faith.

RUINS OF AN ANCIENT CITY DISCOVERED.—A wonderful tale is being told to the effect that the party of surveyors in Arizona, engaged in exploring the country for railroad routes, lately came upon the very extensive ruins on the banks of the Little Colorado river. They extend along the river for many miles. Some of the walls of buildings are yet in their places, and stand from six to eight feet high. The streets may be traced for miles, and the old irrigating canals and ditchesare yet in a fair state of preservation, and may be traced for miles also; the ground is strewn with broken crockery ware; the party found some nearly whole vessels of curious form; the ware seems to be of a different quality, and finer than that found at most of the ruins in Arizona. Many of the walls of the buildings were built of brown stone, and put up a workmanlike manner. To all appearance, there once stood a city of many thousand inhabitants. Who they were or to what tribes they belong there is no record left to show. On the east book are the ruins of a large structure or castle, covering several acres of land; some of the walls are yet standing to the height of twenty or thirty feet.

NEWS OF THE DAY.

THURSDAY MORNING, SEPT. 3, 1868

SAD ACCIDENT.—On Sunday evening, as a young man named Alport, a son of Mr. Thos. Alport, aged about 22 years, was returning from Camp Meeting in the Township of Portland, in a Sulky, his horse took to running, and in the endeavor to stop him, Mr. Alport's foot got entangled and caught in the Sulky, and he fell down, and was dragged by the horse a sufficient distance to kill him, for when the horse stopped at his home, only a quarter of a mile off, the poor young man was dead. Mr Cowdy held an Inquest and these facts were elucidated. Verdict, Accidental Death.

VOLUNTEER CAMP.—The camp of the 48th Lennox and Addington Volunteer Infantry will be formed to-day at the Crystal Palace. The different companies will arrive this morning, and report in camp at eleven o'clock.

ANSWER TO MEDICAL INQUIRIES.

MEDICAL DEPARTMENT, R. R. R. OFFICE,
No. 87 Maiden Lane, New York.

DEAR DOCTOR:

We are compelled to answer your inquiries relative to the curative properties of SARSAPARILLIAN and its associates as constituents in your RENOVATING RESOLVENT in Lung affections, and its wonderful power in arresting waste and decay of the Lungs, healing Ulcers, loosening the phlegm, and enabling the patient to expectorate freely the thick sloughing matter deposited in the air passages and cells of the Lungs and Bronchi and at the same time keeping up the general strength of the patient, repairing the waste with good sound and healthy material, imparting nourishment as well as purification of the blood,—through the medium of the press;—that hundreds of others daily writing us information may know that we have a remedy in the RESOLVENT that will arrest the progression of Consumption, either of the Lungs, Liver, Kidney's or Bowels.

The RESOLVENT is a compensating remedy, it communicates its curative powers through the blood, sweat, and urine; it restores functional harmony and enables each secreting organ to secrete its proper constituents. Direct remedies, as Lung Healms, Cough Syrups, Pectorals given to act directly on the Lungs, as a regular remedy, are hurtful, as they augment the functions of the Lungs at the expense of suspending or interrupting the functions of the Liver, Kidneys, and Skin. If a patient suffering with a severe cough, with a sense of suffocation or weight in the chest, irritation or soreness in the throat, pain in the shoulders, difficulty of raising or expectorating phlegm, dryness of the skin, or if there is constipation of the bowels, unnatural appetite, great thirst, or if the water discharged, deposits substances like the white of an egg, or brick dust, or thread like skeins, or if there is pain in the small of the back, hips, stomach or bowels, chest, etc., from a dessert to a table spoonful of RESOLVENT, half an hour after each meal, and if the cough is troublesome one tea spoonful at night, and will afford immediate ease, and will soon remove all unpleasant symptoms.

As aids to the Resolvent, if pain is present, the spine should be rubbed with the Ready Relief, and one to four of Radway's Pills (coated) to insure perfect digestion and regular evacuations from the bowels. The nourishing properties of RADWAY'S RENOVATING RESOLVENT increase the strength and flesh of the patient. We do not claim that this remedy will make new lungs, new kidneys, or other wasted organs, but it will arrest decay, heal ulcers, and supply the waste that is daily passing off, with new sound and healthy material.

The public have but a faint idea of the great importance of RADWAY'S RESOLVENT, in the treatment of chronic disease and disease of the Kidneys and urinary organs. Sarsaparillian and Pareira Brava, two of its ingredients as prepared by Dr. Radway's process, supplies a want that has ever existed, in repairing the waste of the body with pure and healthy material out of new rich blood, of arresting dissolution and decay, of restoring functional harmony, of securing strength, of dissolving calculous concretions, of curing every form of Kidney, Bladder, and Uterine disease; of stopping all kinds of weakening, purulent, and irritating discharges; of restoring the vigor of life to all, whether induced by self-abuse, impure association, bad habit of system, exposure or accident.

As the RENOVATING RESOLVENT SARSAPARILLIAN enters immediately into the circulation, it commences its work of purification and expulsion of acrimonious humors from the blood at once. Skin Eruptions, Blotches, Pustules, Tetters, Worms and Insects, Black Spots, etc., are removed by a few doses, and the skin changed to a clear and beautiful appearance.

This remedy is superior to all preparations of Buchu, Cubebs Juniper etc., in Diabetes, Catarrh of the Bladder, Gravel, Brick Dusts, and other morbid state of the Urine. The RENOVATING RESOLVENT does not augment the functional secretions of others.

Ask always for Dr. RADWAY'S RESOLVENT, or SARSAPARILLIAN RESOLVENT. Price: $1 per bottle; or, 6 bottles for $5.

In the Spring time most persons are troubled with costiveness, or they are emerging from a low state of the blood. The manner are various, but it is only necessary to know that in order to the prompt purification of that fluid the patient should use

FELLOWS' COMPOUND SYRUP,

with full assurance of obtaining the desired result. This syrup will also strengthen the organs of digestion, promote healthy assimilation, nourish the tissues, and renovate the nervous system.

We are enabled to speak with as much confidence in the cure of cases of this character, uncomplicated with organic disease, as of the Spring rains promote vegetation, or of the sun's rays being followed by light and heat. Persons then who wilfully avoid the use of this remedy, and perish from debility, may be chargeable with felo de se.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.
