Unable to finance a mortgage when it became due, Mrs. James Garbutt it tasting of the cup of sorrow which the lack of money occasions in this work. The farm on which she and her family have long been resident, has as a consequence been sold over her head, and she and her fatherless children must find elsewhere to lay their heads. As they have no visible means of support, their lot is anything but a happy one, and their departure from their old home in Brant is likely to go down as one of the saddest of modern pilgrimages.

A fine of one hundred dollars and costs was levied against a young man of Walkerton by Magistrate Telton here on Wednesday last for selling a flask of whiskey without a license, to James Thomas Vollett of Durham, the previous Sunday. On being arrested and fined for carrying a revolver in Walkerton, the Durham man in the course of this evidence stated that he had purchased a flask of whiskey in town and revealed to the court the name of the man who sold him the booze. The offender proved to be a young factory hand who was in no wise legitimately connected with the liquor trade, and on his pleading guilty to the charge, the court gave him a lesson in high finance by assessing him $100 and costs or a totaldey of $115.35, which the accused immediately paid and obtained his release.—Bruce Times.

We exceedingly regret to observe that the hostile Priceville Cor., (Reciprocity booster,) takes such a profound interest in Riverdale happenings. Inferring from the quixotic animadversion of our obsolete politican, he is evidently nursing a big, juicy grouch towards a certain Conservative party in this vicinity, and we suggest on the side that he order another yard of Boyd's celebrated grouch remedy, at the earliest possible occasion.

Still After Local Option

A despatch from Owen Sound to the Mail-Empire says:

Barrister W. H. Wright, acting on instructions from J. D. Stoddart, has served notice on the town council that action will be instituted at once to have the local option bylaw declared null and void. The action is based on irregularities said to have taken place at the polling last January when local option was sustained by a majority of 126. It was upon these same irregularities that five local option councillors were unseated a few weeks ago. As the Council is now constituted the majority of the members are antis, so that it is unlikely that they will sanction any defence of the bylaw, in which case it will perforce go to the court undefended. If the antis press their action it is not improbable that a similar action will be begun against the industrial and civic bylaws passed at the same time as local option was sustained.

A couple of young men, residents of Sunnidale township, had a trying experience last Saturday night. They drove into town to make a call, tying their horse in the Methodist church shed. During the evening the animal managed to slip its halter, slip out without damaging the buggy and ran up the street, coming to grief while running into the Coughlin hotel yard. One of the shafts was broken and the horse bruised but no more damage done. The horse was tied up by someone and it remained there until morning, Mr. Coughlin kindly giving it a good feed in the morning. The young men thought the horse had gone home so they tramped the seven or eight miles, arriving at 3 o'clock in the morning only to discover that their steed was somewhere else. Both are doing as well as could be expected.
