Flesherton Advance.

"TRUTH BEFORE FAVOR."—"PRINCIPLES NOT MEN.'

VOL 31, NO 46 Flesherton, Ont., Thursday, May 23, 1912 W. H. THURSTON EDITOR and PROPRIETO

Kimberley Budget

Plenty of rain these days.

Miss Della Abercrombie of Heathcote spent Saturday and Sunday last at her parental home.

Mr. Amos McClung and Miss Myers of Markdale, spent Sunday last at the former's parental home here.

Mr. Richard Burrell of Rocklyn, one Euphrasia's most progressive farmers, was a welcome caller in our burg on Thursday last.

Our local fruit expert, Mr. John Plewes, is of the opinion that the heavy frost on Tuesday night of last week has done much more damage to the prospective fruit crop than people are aware of. It was certainly a scorcher.

Mrs. M. R. Hammond and Mrs. Riddell visited friends at Beaverdale during the past week the guests of the former's sister, Mrs. John Manarey.

Mr. John McGee had one of his legs badly sprained recently by a land roller passing over it. It appears that the tongue ran through the ring in the neck-yoke, thus causing the horses to run away with the above result. We are pleased to report that the injured member is healing nicely, and in a week or so John will be himself again. Can't keep a good man down, eh, John ?

Before The Advance reaches its numerous readers this week one of our progressive young farmers will have joined the benedicts. Put on your think cap.

Married--At the Methodist parsonage, Markdale, on Tuesday, May 14, by the Rev. Mr. Young, assisted by the Rev. J. R. Wilkinson of Holland Centre, Mr. Charles Graham to Miss Sadie Plewes, all of Kimberley. We offer congratulations and join with their many friends in wishing them a long and prosperous voyage through life.

Mr. Saul Fawcett has purchased Mr. R. D. Carruthers' property here containing some 75 acres. This property is especially adapted to fruit growing and poultry raising. Saul intends planting most of it out in fruit trees and to eventually go extensively into poultry raising. Mr. and Mrs. Carruthers intend to go west next spring.

Mr. Ashley Fawcett, the barber, who some weeks ago accepted a lucrative position in North Bay, has recently opened up a barber shop of his own at Callander. Success, Ashley.

The sinking of the mammoth ocean liner, Titanic, which resulted in the loss of some 1600 lives, cast a gloom over the entire civilized world. At once every precaution imaginable was and is being taken by all steamship companies to insure the safety of human life while crossing large bodies of water. But, dear reader, did you ever realize that right here in our own country, Canada, we license men to deal out poison to our fellow men that annually, directly, causes the death of thousands. The sinking of the Titanic, though the greatest marine disaster of modern times, is but a trivial affair compared to the awful misery caused by the liquor traffic in Canada. Yet practically little or nothing is being done by our governments, federal or local, regardless of their political stripe. When will we as Canadians wake up to a sense of our duty ?

Mr. Stanley Walter, who has spent the past year in Toronto, returned home last week.

Mr. Walter Elliott of Markdale spent Sunday last the guest of Mr. and Mrs. Neil boyle.

Victoria Corners

Rev. Mr. Wellwood of Flesherton, preached a very inspiring sermon in Inistioge church last Sunday. He and Rev. Campbell exchanged pulpits for the day.

Master Robert Ludlow, Mr. Geo. Ludlow's baby, has been quite ill but is improving.

Maxwell

The W. I. Concert held last week was well attended and passed off very well considering it was held in the middle of the rainy season. The ladies should be thankful, however, as they were favored with the only fine evening for some time.

Born—To Mr. and Mrs. Norman Hindle, on May 11, a daughter.

Much sympathy is felt here for Mr. Edwin Linley, who received the sad news of the death of his only brother, Mr. Samuel Linley, who has been in the west for some years.

Priceville Jottings

The snowstorm and accompanying frost on the 13th nipped the meadows badly. Timothy and alfalfa seemed to suffer most.

Hay and oats are becoming scarce articles here. Wheat chop is used extensively, especially in feeding pigs.

A thunder storm passed over here about 4 o'clock Monday morning last, and then it rained all the afternoon, all night and half of Tuesday, leaving the unseeded fields in an unworkable condition.

Now, dear reader, many of you are always looking for fun. Some find amusement in the repetitions of a parrot, and some look for sterner scenes, like a boar or bear hunt. Well, some have smiled during the past few weeks and others have not, while we ruffled the feathers of Dickie and he repeated the vile slang that he learned while possibly in touch wtih the gutter. We led you to the thicket and roused the wild boar with formidable tusks and bristles erect. Some of you were thrilled by his furious charges and some were awed at the gnashing of his foam-covered jaws, and no doubt some hoped that the bear at bay would squeeze or cuff us with his mighty paws, but after all, an occasional scratch or tussle in the dust only adds a little excitement to the chase ; and now we have hung our bow and spear on the wall for a few months, because " all sport and no work might leave Jack without a shirt."

We read with much interest Arnold Thurston's experience in London, Eng.

Archie McLean, Collingwood st., went to the Michigan Soo a short time ago and will likely remain for the season.

Stanley Ferguson, who has been attending the Faculty of Education, Toronto university, came home last week at the close of the term, and will likely return in a few days to teach in one of the city schools.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Downey, of Newberg Junction, N. B, writes, "My wife has been using Chamberlain's Tabletsand finds them very effectual and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by all dealers.

Durham

David Hopkins of Bentinck fell out of a wagon, cutting himself about the face and head and sustaining serious bruises.

Goldwin Buckingham, aged 4, fell off a dray, one wheel of which passed over his ankle, but by some miracle the bone was not broken.

A new foot bridge has been erected over the river where the bridge was washed away by spring freshets.

While a couple of town boys were driving a cow to the slaughter house on Saturday last there was a dispute between the cow and the boys. The boys thought they were " boss " and the cow laid claim to the title, and herein lay the trouble, which was followed by a physical argument. There was soon a general mixup. The boys and cow got so tangled that they were at last unable to say which was the boy and which was the cow. Subsequently they got on forbidden ground and mixed up with Ye Editor's clothes reel. They struck a snag and her bovine ladyship and the boys found themselves tangled up in the wires. After some deliberation they decided which was which and began to unravel themselves. The Irishman who put his trousers on wrong side foremost and jumped from the fourth story of a burning building, decided, on viewing himself, that he " wasn't kilt entirely, but he was fatally twisted," so the boys decided the clothes reel was considerably disarranged and would need to go to the hospital for repairs. It was " fatally twisted."—Durham Chronicle.

The Reid Wrecking Company has succeeded in raising the Turret Cape sunk last fall near Cove Island and towing her to Collingwood.

A. D. LEAROYD, BUSINESS BROKER

Selling McKechnie's Big Stock, Durham.

Carney Mills Burned

Owen Sound, May 18.—The great lumber mill of the Carney Lumber Company was completely destroyed by fire at an early hour this morning. The mill was one of the largest and most modern of its kind in Canada, and is a complete wreck. The warf and lumber piles in the adjacent yard were saved through the splendid work of the local fire department, and a favorable wind from the north-east.

The loss is estimated at upwards of $100,000, which is partially covered by insurance. A staff of about 125 men will be thrown out of work until the mill is rebuilt. The stock of lumber which is owned by the Hines Lumber Company of Chicogo, which took the output of the mill, was entirely saved.

The Carney Lumber Mills were erected in 1905 by Messrs. Fred and Frank Carney of Marinette, Wis. The site of eleven acres was granted by the town for a consideration of $1,500, and the firm was given exemption from all taxation but school taxes for ten years. The plant was probably the most modern and thoroughly equipped on the Georgian Bay, and special attention had been paid to fire protection, two hydrants and several stands of hose being installed in the building besides a complete sprinkler system.

In the absence of the owners, both of whom are in the United States, it is impossible to say whether the plant will be rebuilt. The company's timber limits are on the north shore. The blow to the town, industrially speaking, will be felt. The company employed over one hundred and twenty-five men, and their wage roll ran up to about $75,000 annually. Their annual cut ran to upwards of twenty million feet each season.

The origin of the fire remains a complete mystery. The night watchman had been around the mill at 2 o'clock, and had gone out on the tramways, where his last register shows 2.13 o'clock. It was immediately after this that he saw the smoke rolling up from the mill and rang in the alarm. The insurance will cover part of the loss.

A Tale of Hardship

A tale of terrible privation and grim endurance on the inland seas is told in a despatch from Wiarton which says :—For sixty-eight hours practically without food, drifting about in a launch on the roughest sea ever known on the Georgian Bay, Philip Clark, Jack Pyett, Thomas Ellis, and Ronald McIntyre, all natives of the Manitoulin island, were picked up by the barge Tempest of Toledo, thirty-nine miles from Cove Island and brought to this port safely. It was a sight to make strong men weep to see them being carried on the arms of others to the shore. Their story is as follows : At 8.30 Saturday evening they left Providence Bay for their homes at Michael's Bay, a distance of ten miles, in a gasoline launch. After they had gone about five miles their engine played out—the gasoline was done. They had a 5-gallon can full on board but to their dismay they found that the rocking of the launch had knocked the spout off and that the water which had come into the boat had got into the can and consequently they were without any power. A strong north-east wind blew them directly into the lake. All that night, all day Sunday and Sunday night, in the rain and snow, with the wind blowing a gale of 60 miles per hour, with the worst sea ever known on lake Huron, they were tossed about and exposed to the weather. All the food they had was some raw potatoes and some raw prunes. Still they never lost hope. Once they thought they saw land, but afterwards it proved to be only a cloud. At last, on Tuesday afternoon, about 4 o'clock, they were sighted by the barge Tempest, Capt. Johnston, from Toledo, and brought to this port. Their hands and feet were badly frozen, and in some cases probably amputation will be necessary. The fact that they are alive is proof of their strong physique and their courageous spirit. Ronald McIntyre suffered the least. The men are receiving medical attention and every possible kindness is being shown them. It is not thought that any of them will die.

Fred Lunow of Underwood township, Bruce county, was thrown violently against a barbed wire fence by a runaway team and injured so badly that he only lived a short time.

Lame back is usualy caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by all dealers.

Feversham Items

Our constable, Mr. I. H. Perigoe, had a quick call over to the 12th line on Friday evening last to arrest a tramp for setting fire to a vacant house on a farm rented by Mr. Charles Weldrick. The tramp was sent to Owen Sound by J. A. Kernahan, J.P. Constable Perigoe took him there on Saturday morning. As luck would have it, the fire was noticed in time to extinguish it before it had gained much headway.

Mr. John Stoutenburg of Collingwood was a visitor in our burg on Sunday, coming over from the former town in his auto.

Mr. Chester Long of Collingwood spent Sunday at Mr. Geo. Whiteoak's.

Born—On Thursday, May 9, to Mr. and Mrs. Ern. Hawton, a daughter.

Mr. and Mrs. H. Alexander spent Sunday with the former's mother on the 10th line.

Mr. Stiver of Dundalk spent Sunday with his uncle, Geo. Whiteoak, in this village.

Poor appetite is a sure sign of impaired digestion. A few doses of Chamberlain's Stomach and Liver Tablets will strengthen your digestion and improve appetite. Thousands have been benefited by taking these Tablets. Sold by all dealers.

Sir Charles Tupper, who is coming back to Canada with the body of Lady Tupper, will probably spend the rest of his days in the Dominion. The veteran statesman is now over 90 years of age and only recently passed through a somewhat serious illness. The Dominion Government is providing a car in which the remains of Lady Tupper will be taken to Halifax for interment. Sir Charles will afterwards go through in this car to British Columbia, probably visiting Ottawa on the way. It is thought that he will make his home in British Columbia.

A Grateful Mother

Tells of Her Daughter's Recovery.

A mother will always be worried and anxious if one of her daughters should be affected; that from any cause the natural functions of the body become retarded or suppressed. Any irregularity, especially in a growing girl, is apt to be the forerunner of a long chain of sickness, not unfrequently followed by pernicious anaemia or consumption.

"My daughter had just passed her sixteenth year when, owing to an exposure at an inopportune time, an important action of the system ceased." So writes Mrs. Thomas E. St. Nicholas, of Manchester South. "Stella was subject to violent nose bleed—was hysterical and borne down by fits of mental depression. She grew listless and debilitated, and her progress at school was prevented by frequent small ailments which kept her at home. After using Ferrozone six or seven weeks, some signs of improvement came, but not sufficient to show that she would grow natural again. It was fully three months after she had been using Ferrozone before my worry was over. After that her system became natural and regular. I cheerfully recommend Ferrozone for all troubles incident to girlhood and womanhood."

Ferrozone Builds Up Weak Girls

Ferrozone is a womanly tonic that supplies to the blood and nerves the qualities that are lacking when health is poor. No medicine is so nourishing—so full of life and vigor-making properties. Try one or two Ferrozone Tablets with your meals—watch the result. Fifty cents a box, six for $2.50, all dealers, or The Catarrhozone Co., Kingston, Canada.
