VICINITY CHIPS

W. A. Armstrong is at work on his new bungalow opposite the Park House.

Rev. and Mrs H. E. Kemp of Heathcote called on old friends here one day last week.

Mrs. Ed. Thompson and family of Collingwood are spending a week in town.

Artemesia township Council met on Saturday. The minutes will appear next week.

Dr. E. K. Richardson of Toronto was among the visitors from Toronto over Sunday.

Hugh McLean of Osprey had five head of cattle killed during an electric storm on Saturday.

Rev. Mr. Milligan of the Presbyterian Church has tendered his resignation, to take effect forthwith.

Mrs. Alfred Carter and two children of Toronto were visitors over the holiday at Mr. W. Moore's.

Mr. and Mrs. George Watson attended the funeral on Monday of their sister-in-law, Mrs. Hargrave, of Egremont.

Mr. Will Bentham, wife and babe of West Toronto, are holidaying here this week. Mrs. Bentham will remain for some time.

Miss Florence Thurston left on Monday for an extended visit with friends in Chicago. She may also visit in winnipeg before returning home.

Reeve Boyd started a gang of men laying the new cement walks on Monday. This is being done by day labor in order that the town may save contractor's profit.

Amon the Grey Old Boys visitors from Toronto we noticed: Mrs. LeGard, sr., Mrs. Shaw, Oshwell Whitten, Celia VanDusen.

Owen Sound Orangemen are having a big demonstration on the 12th. For rates and time table see advertisement elsewhere in this issue.

Mr. James Milne, Rock Mills, has erected a fine bank barn, roofed with Brantford Crystal Roofing. John McDonald, contractor and agent.

Rev. Dr. Caldwell of Owen Sound preached to the Orangemen at Ceylon on Sunday afternoon and in the evening assisted at the service in the Methodist church here.

Mr. Armstrong expects to complete the horseshoe culvert fill this week, weather permitting. Teams crossed most of last week, with and without loads. Mr. Armstrong has not let any grass grow on his job.

Wm. Dunn, a young man working in the vicinity of Cedarville, committed suicide by strangulation with a plaited clothes line. The young man was suffering from dementia.

The Grey Old Boys' excursion from Toronto did not quite measure up to the standard this year, there being but nine coaches on the train, whereas formerly there have been twelve and thirteen. This point was well represented, however, some fifty excursionists disembarking at Flesherton station.

Another was added to the long list of wrecks on this line of railway Thursday last when a freight train was derailed. Two cars and contents were badly damaged. The noon express was delayed for a couple of hours. A defective rail is supposed to have been the cause.

Markdale suffered a very unpleasant half hour on Monday about noon, when a fierce electrical storm passed over the village. The furniture factory was struck and set on fire but was extinguished before much damage was done. Haskett's and Watson's residences were struck but not ignited. A telephone pole standing in front of Mr. Duff's residence was shattered and his telephone destroyed. It was the wickedest storm Dalians have ever experienced.

W. W. Trimble spent Sunday in Owen Sound.

Miss Gertrude Perdue of Toronto spent the week end with Mrs. Swanton.

Mr. Gordon Laird of Milverton is holidaying for a fortnight with friends here.

Miss Mabel Scott of Owen Sound is visiting relatives in and around Flesherton.

Three hundred and seventeen people were burned to death in Canada last year. For the first four months in 1912, seventy-seven people lost their lives in this way.

The Orange demonstration at Eugenia on Friday, 12th, will take the form of a picnic. Everybody is expected to bring their own baskets. There will be a refreshment tent on the ground.

Flesherton appears to be in the centre of a dry belt. For a breadth of some four miles through the centre of Artemesia township scarcely sufficient rain has fallen during the past five weeks to lay the dust. Outside of this belt running east and west the whole county has been treated to copious showers during the past week. Thunder storms have passed on either side of us or broke after they had passed, but we have yet to be served. The good book says that rain falls both on the just and unjust. If that is so to what species do the residents of this dry belt belong.

A gentleman whose name must not be divulged considers that he got even with a motoring party the other evening and squared certain accounts of long standing. It occurred while coming from the station when a car overtook him about half a mile from town. As the road was narrow the car could not pass without the gentleman turning out. The horn was loudly tooted to make Mr. Blank get out of the way, but both he and his horse refused to scare. Instead, he touched up the animal and trotted along at a lively pace while the motor crept along behind in a cloud of dust raised by the horse and buggy. At intervals the horn was tooted but Mr. Blank was a little hard of hearing and the flying buggy made such a noise! Also, he was ahead of the dust cloud. At the outskirts of the village Mr. Blank drew the horse to the windward side and allowed the dust-covered mowbilly travellers to proceed, but not before they had fired a few vengeful glances at the man who had the temerity to hold up an auto on the king's highway.

Morrison—Robertson

On Wednesday evening, June 26, at 6.30 o'clock, a happy event took place at the home of Mr. and Mrs. John A. Robertson's, Maxwell, when their eldest daughter, Elsie Pearl, was united in marriage to Mr. Harry Alexander Morrison of Maxwell. At the hour appointed the bride and her father, preceded by the groom, entered the parlor, after which they took their places out on the lawn with background of ferns and geraniums, while Miss Ida Osborne played the wedding march. The ceremony was performed by Rev. Mr. Phimister and Rev. Mr. Sifton of Maxwell. The bride looked charming in a beautiful dress of white mulle, daintily trimmed with insertion and blue ribbon, and neck chain, the gift of the groom, and carried a beautiful bouquet of snowballs. Little Miss Edith Robertson, sister of the bride, acted as flower girl and carried a basket of snowballs, red and white carnations. The bride and groom were unattended. After the ceremony and congratulations about sixty guests partook of a dainty wedding tea. Amid showers of confetti Dr. Ryckman took the bride and groom for an automobile drive. After their return the Misses Betts sang "Perfect Love," then a few quadrilles were indulged in for a few hours, with the violin played by the Misses Ida Osborne and Allie McDowell. Ice cream refreshments were served to all the guests. The young couple will reside near Maxwell. The bride received many useful presents. The party dispersed about 12 o'clock, wishing the young couple a long and happy life together.

William Yandt, an employee of the Hanover Portland Cement Company at Hanover was electrocuted while at his work on Thursday morning last. It appears that while attending to his duties he thoughtlessly took hold of an electric wire with his right hand while holding a piece of steel with his left hand with the result that he was instantly killed. He was a man of 45 years of age and leaves a widow and seven children.—Telescope.

Mrs. George Stewart and children are visiting relatives at Fordwich.

A gang of men are now busy moving the old C. P. R. station at Shelburne in order to start the work of building the new one.

A Portugese woman employed in a Welland factory gave birth to four children.

Chicken thieves have been at work in the neighborhood of Kenilworth. Barns and hen houses have been robbed for the past four or five weeks. One night last week the barn of Mrs. Thos. Goodyear was completely cleaned out of fowl.

Odds and Ends

You Need Not Fear Lightning

Nothing to fear if your buildings are properly rodded. The reports of the mutual fire insurance companies prove that fire loss is next to nothing where a pure copper cable is used, while the loss on unrodded buildings on account of lightning is very great.

Where losses have occurred on rodded buildings, its cause has always been traced to unscientific methods of installation.

You ought to protect yourself now before it is too late. Do it by installing an absolutely reliable lightning conductor. Have your buildings equipped with

National Flat Cable

(Patent Pending)

—then you will have a *guaranteed* rod and it will be *properly installed*—a vital matter, as statistics show that lightning never damages a building properly rodded with National Pure Copper Cable. National Cable is in use on many thousands of buildings, from New England to Old Mexico—not one of which has ever been lost by lightning or set a-fire.

Come in and let us show you, and tell you why you cannot afford to *have* any other. We will also estimate the cost of rodding your property. It won't cost you a cent to talk this matter over and it's important. See us today. *The Little Brass Tag, bearing the word National, assures safety and reliability.*

Melotte Cream Separators

Why do You still loose money and cause yourself so much unnecessary work by not having us place a Melotte Cream Separator in your home. We would be glad to have you call and to point out to you their many points of superiority. Do not delay.
