The new Government Recognized—Restitution.

Madrid, Oct. 12.

The United States is the first nation to recognize the new provisional government of Spain. The Madrid Gazette publishes an official recognition made through Mr. Hall, the American minister.

The Junta has declared in favor of additional reforms, among which are the abolition of the death penalty and the security of private letters and domicile.

The Junta has ordered the restoration of the bark Tornado to England, and payment of damages for her wonderful detention, and the imprisonment of the Spanish officer who ordered her seizure.

Lersundi, the Captain-General of Cuba, has given in his adhesion to the revolution. The Cubans in Spain will be permitted to choose two members of the junta.

London, Oct. 12.

The cable known as the 1866 cable, between Ireland and Newfoundland, was repaired on Sunday afternoon and is now in perfect working order.

At Blackburn, a market town in Lancaster, and 22 miles from Manchester, a Liberal procession was attacked on Saturday by a mob of Tories. Several fights occurred, in which one man was killed and several severely injured.

Paris, Oct. 12.

A letter from Gen. Prim, earnestly favors the calling together of the Cortes and the formation of a kingdom at once. It is said that Prim himself aspires to be King.

London, Oct. 12.

Favorable reports have been received of the progress of the expedition against the tribes in the North-western districts of India. The troops have so far met with slight opposition.

The Fenian prisoners at Dartmore are to be released.

Prague, Oct. 12.

Political tumults which had broken out in the city have been suppressed by the Austrian troops who dispersed the various assemblages of the people.

General Dulce has been appointed Captain-General of the Island of Cuba.

THE SILVER MOVEMENT IN MONTREAL.—The two million of dollars in silver advertised for by Mr. Weir, is said to be coming in rapidly, and the movement promises to be successful. To make it so, Mr. Weir has pledged his good faith and the means at his command. The price of silver at Montreal has already declined to 3 and 3¼ per cent. through this project.

☞ The New York Evening Post (a trustworthy newspaper) in its Saturday's financial report, give currency to the statement that the Canadian Banks have six millions invested in the New York market. If this statement is true, it certainly must invite some comment. For such a sum, on Bank account, to seek foreign investment at the season when producers, millers, commission merchants, forwarders, shippers, &c., are expected to get the most liberal advances, is surely singular. But comment is out of place, till we are assured as to the facts.—Toronto Telegraph.

NEWS OF THE DAY.

WEDNESDAY MORNING, OCT. 14, 1868.

CORONER'S INQUEST.—Dr. Barker held an Inquest yesterday morning at the Police Station, on the body of a female child, 12 months old, which was found dead in her mother's arms the day before, after wandering about all night in the streets. From the evidence it appeared that the mother was a soldier's wife, turned out of Barracks for drunkenness, and having no fixed home for several days previous to her apprehension, the child, a healthy child when in Barracks took cold, followed by inflammation of the lungs, and so died. From Dr. O. Yates' testimony, the child had been dangerously ill, and would probably have died had it been treated, but its death was hastened by neglect and cold. Some other testimony was adduced shewing neglect on the part of the mother in not procuring aid, and the Jury returned a Verdict of Natural Death, hastened by Neglect.

COUNTY COUNCIL.—This body met yesterday afternoon, pursuant to its adjournment in June last. Preliminary business of the session was finished, and the body adjourned till this morning at ten o'clock.

FIRE ALARM.—Yesterday morning about a quarter to twelve o'clock, a fire broke out in the upper part of the building occupied by Mr. J. Brokenshire, situated at Messrs. J. H. Henderson & Co.'s wharf, and immediately in rear of the Kingston Foundry (Messrs. Davidson & Doran). The extended fire alarm brought crowds to the spot. The fire engines, dilatory enough in arriving, were very slow in getting to work (we should be ashamed to mention the time), notwithstanding the house stood less than twenty yards from the water of the lake, but were successful in extinguishing the flames, which had not been at all brisk, in a few minutes. A better lesson regarding the inefficiency, want of organization and indolent spirit of the City Fire Brigade was never afforded than yesterday, and we hope that some of the City Fathers were present to profit by it. One of the engines was brought to the ground at a walking pace, by a crowd of boys who grabbed the ropes, and was minus, it was said, a material portion of the apparatus, left behind in the engine house. How true this is we can't say, but so far it sounds bad. At the fire there was the customary confusion. Mr. Brokenshire occupied the lower portion of the building as a work shop, for the manufacture of his pumps, and the upper portion was used as a dwelling place. He saved all of his furniture and stock, so that the loss is mainly on the building. He holds an insurance policy in the Ætna Company for $600.

DR. FRANKLIN AND THE GOUT.—In Dr. Franklin's imaginary dialogue with the Gout, the Gout has the best of it. The reverse would have occurred had Radway's Ready Relief then been extant. The Doctor would soon have put the enemy to flight with that invincible Pain-killer and counter-irritant. A single application of R. R. R. will often postpone a fit of the Gout for months.

Price 50 cents per bottle. Sold by Druggists. 241

A CARD.

A CLERGYMAN, while residing in South America as a Missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, FREE OF CHARGE. Address

SCIENCE VS. IGNORANCE AND HOTTENTOTS.

Intelligent agents under pay from Dr. Radway are sent to the following countries to engage the most competent natives to gather and select the vegetable substances used in DR. RADWAY'S SARSAPARILLIAN RESOLVENT. To wit:

Brazil, S. A.
Jamaica, W. I.
British India,
Persia and
Japan.

(By correspondence.)

Some years since it was deemed necessary for the protection of the public against the importation of spurious roots and drugs, for Congress to pass a law establishing an Inspector of Drugs in every port of entry in the United States. But this wise precaution does not prevent the importation of spurious roots, and medical herbs. Nearly one half of the Sarsaparillas, Pereira Brava, Peruvian Bark, etc., brought into this country and Europe are spurious, and when prepared for medicinal purposes are, in fact, useless, and all to produce the beneficial results that the chemist and physician expect to real se. That no such objection may exist, and the public may depend on securing the true roots in the Sarsaparillian Resolvent, Dr. Radway has adopted the plan of gathering the several roots, etc., used in his medicines, under the direct supervision of trusty and intelligent agents.

This is an enterprise never before attempted, and it is one long needed. The loose manner in which vegetable barks, roots, leaves, gums, and other medical substances are gathered by ignorant natives, half savages, Hottentots, &c., and the cupidity of these rascals of substituting spurious for the true, in selling these roots, &c., to traders, causes many mistakes, and often disappoints physicians in prescribing a root possessing known properties in not fulfilling their expectations.

Hence the wisdom and liberality of Dr. Radway in adopting a plan that will secure the true and genuine vegetable substances, and from their native soil, cultivated in gardens and attended with care.

In Brazil he obtains pareira brava; Jamaica, W. I., sarsaparillian; India, E. I, hemedesmus indicus; Persia the Persian oil is expressed from the amygdale nut; Japan, three newly discovered roots are grown under contract by a distinguished horticulturist, and the only country where these roots are grown. These Japanese are held in high estimation by the Nobles, Kaimos and distinguished savans, are purifying agents, also in the cure of dyspepsia, indigestion, jaundice, and liver complaints, and are used as tea, after dinner beverages, and as tonic drinks, diet, mixed wine, &c.; also, possess the most astonishing virtues over skin diseases and impurities of the blood. RADWAY'S SARSAPARILLIAN RESOLVENT is therefore, the most perfect remedy in the world. No wonder the sarsaparillas of the shops are such poor, weak washes compared with Dr. RADWAY'S SARSAPARILLIAN. THE ROOT ITSELF differs from all sarsaparilla roots ever seen in this country. Those seeking a pure, perfect remedy to cleanse the blood and system from all impurities, try DR. RADWAY'S SARSAPARILLIAN RESOLVENT.

Sold at 439 St. Paul Street, Montreal. Six bottles for $5 will be sent by express.

HYPOCHONDRIASIS

Is one of the most difficult to treat successfully of all nervous diseases. Reasoning with nervous or hypochondriacal and insane persons rarely proves serviceable. The mind cannot be overcome while the nervous system is weak. In many instances the deriding laugh at the unfortunate or the more temperate appeal to the reason is absolutely injurious, by exciting irritation in the mind of the sufferer, who thinks his advisers either unfeeling or incredulous toward his complaint. There is, however, no longer necessity of resorting to such treatment. Both the feeling and the reasoning faculties are now successfully treated by

FELLOWS' COMPOUND SYRUP,

through its direct and potent action on the nervous centres.

Sold by Apothecaries. Price $1.50 per bottle, or 6for $7.50.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

THE AMERICAN

Lightning Apple Parer,

Manufactured by the Patentee in New York.

GREATLY IMPROVED IN WEIGHT AND STRENGTH.

BEING now made much heavier and stronger than formerly, it is the most Perfect Machine made, and greatly superior to the imitations of the same.

A very little comparison between this make of the Lightning Parer and its imitations will show its superiority.

A thorough trial of this machine last season established the fact that it is the best Parer in the Market. It will pare either smooth or uneven apples better easier, and three times quicker than any other machine ever produced. The parings are carried entirely clear of the machine, so that there is no gumming, sticking nor clogging, as in other parers, and the parts are always clean and in good order. The turning of a crank, so tiresome to the wrist and arm, is avoided. The only motion required to pare an apple is to push the handle once the length of the semi-circle. Cheap at

RUTTAN'S

Ventilating Stoves!

FOR

HEALTH & ECONOMY.

[From the Building Committee.]

These may certify that the Board of School Trustees for the City of Toronto put up (December, 1867) in their new School-house, on Elizabeth Street, four of Ruttan's Air-Warming or Ventilating Stoves, say one in each School-room. These Stoves were in regular use during School hours until fires were discontinued, about the beginning of the month of May, and they have given full satisfaction in every respect. Although the weather was severe and prolonged, the "Ruttan" Stoves kept the School-rooms comfortably warm, without overheating them, while the ventilation was at the same time thoroughly good. These Stoves are also very economical in fuel, as is proved by the fact that the fuel in question consumed only two and a half cords of wood each during the period of time above mentioned.
