THE STANDARD BANK OF CANADA

ESTABLISHED 1873

HEAD OFFICE TORONTO

It is an advantage sometimes to keep a bank account in the names of two persons, so that either one may make withdrawals. Such an account is called a "joint account." We shall be pleased to furnish particulars.

236

FLESHERTON BRANCH

GEO. MITCHELL, Manager.

Branches also at Durham and Harriston.

VICINITY CHIPS

Miss Hilda Goldhawk is spending the holidays in Woodbridge.

Miss Ada Thompson is spending her holidays at Owen Sound.

Miss Zella Bentham is visiting Mrs. R. W. Shaw in Lions Head.

Mr. Everett Bunt of Toronto is spending a fortnight with friends here.

Miss Josephine Ferris visited the past week with her cousin, Ada Thompson.

Miss Ethel Trimble is home from Owen Sound for holidays.

Mrs. A. Sinclair and babe of Teeswater are holidaying at her parental home.

Mrs. Wm. Moore and daughter, Toronto, are the guests of Mrs. Ellen Parker.

Born—To Mr. and Mrs. James Bowler, Flesherton, on Thursday, July 11, a daughter.

Mrs. Wm. Breese and Mrs. Crowther of Chatsworth were guests at the parsonage.

Born—In Toronto, on Sunday, July 7, to Mr. and Mrs. A. D. Thurston, a son, Arthur Monroe.

Miss Lilian Bunt was successful in her recent departmental examination, passing the entrance to normal.

We notice that Miss Leone Thompson was successful in passing the entrance examination at Collingwood.

Mrs. J. W. White and Miss Leone Thompson, her granddaughter, are visiting Mr. Isaac Norris in Wiarton.

Little Irene Stewart of the west Back Line spent the past two weeks with Miss Ida Wyatt, Durham Road.

Mrs. Scott of Owen Sound and daughter, Miss Mabel, visited the past week with Mr. and Mrs. W. Buskin.

Mr. Boddington, of the Toronto Star Weekly staff, wife and little son, holidayed here for a couple of days this week.

Architect Forster of Owen Sound was in town last week. He is getting out plans for the remodelling of No. 9 public school on the 8th line.

Miss Ettie Thompson has returned home from a prolonged visit with friends in Owen Sound, much improved in health. Her many friends are glad to see her home.

The services in the Baptist chapel will be withdrawn for the next two Sabbaths. Rev. Mr. McLaren and family are holidaying with friends up the Bruce peninsula.

The I. O. F. will attend the Methodist church in a body on Sunday morning next, when Rev. H. E. Wellwood will preach an appropriate sermon for the occasion.

Word has been received recently that Lolita Beattie took honors, although her name did not appear with the successful pupils of the high school on account of there being a few subjects she did not study during the term.

Mr. Will Campbell of Durham spent Sunday with Rev. and Mrs. Wellwood. He was on his way to the Lake of Bays per motorcycle, for holidays, where he will join his parents, Inspector and Mrs. Campbell, at their cottage at Norway Point.

Mr. R. Shaw, Lions Head, spent Sunday and Monday in town. Mrs. Shaw and babe, who have been here for a fortnight, returned home with him on Tuesday. While here Rev. H. E. Wellwood christened Master Willard Dana Shaw.

The long drouth was broken here on Saturday when a half-hours' rain came along and freshened things up a bit. Monday morning a general thunder storm over the country dranched things thoroughly. These storms have proved the salvation of crops, which were suffering very much.

A gent who called himself a Chilean and said he had been 45 years with a circus, gave a nice little open air show at the Park House one evening last week. Silver collection. The show was worth the money, but it was quite amusing to see the audience fade away as the collection plate approached. They evidently were shy of the price.

Mr. Kendall Mitchell and his sister, Miss Aleda, visited their grandmother in Alliston over Sunday. Aleda will remain for some weeks.

Rev. H. E. Wellwod will address the members of I. O. F., Flesherton Court No. 995 on Sunday next, July 21, in the Methodist church at 11 o'clock a. m. Members will please meet at Court chambers at 10 30 o'clock, where they will march to the church. Visiting brethren are cordially invited. Those missing this address will miss a treat, as Rev. Wellwood is a Bro. Forester himself. All members are urged to be present. By Order. Geo. Cairns, Rec. Secretary.

The 12th passed off very quietly in Flesherton. Those who celebrated went to various points of the compass, but we believe the majority took the special train for Owen Sound at 9 a.m., returning about 9 p.m. Some went to Dundalk and a few to Eugenia. Owen Sound had about twenty lodges present and a big crowd of visitors. The day there was uneventful, although everybody appeared to thoroughly enjoy themselves. The 4th line lodge went to the county capital. Eugenia picnicked at home. Proton district was split, as was Artemesia, some attending the celebration at Dundalk and others going to Owen Sound.

Liberal Convention

The Liberal convention for Centre Grey was held in the town hall, Flesherton, on July 9, when a fairly representative number were present. The following officers were elected for the ensuing year: Dr. Ryckman, Maxwell, President; W. McLoughry, Vice-President; H. Guy, Maxwell, Sec.-Treas.; also the officers for the different divisions were elected as follows: Artemesia, Wm. Henry; Dundalk, John Sinclair; Osprey Wm. Norman; Euphrasia, Wm. Wiley; Flesherton, F. G. Karstedt; Markdale, P. Thompson; Collingwood, Wm. McCallum; Thornbury, Mr. Boon; Holland, Mr. McLean; Clarksburg, Dr. Moore; Proton, James McLean; Sullivan, James Dobie; Chatsworth, Hugh McCullough; Priceville, D. McLean.

The speakers were Messrs. Hartman, P. McCullough, John Boland, J. Parks, and Professor McGowan of Toronto. The meeting passed resolutions endorsing N. W. Rowell, K. C.; also Sir Wilfrid Laurier's policy. Professor McGowan, during the course of his speech, stated that Sir Wilfrid Laurier's life and works would be remembered in the annals of history.

Experimental Plots

The following article was sent us too late to appear in last week's Advance. We would again remind our correspondents that all matter intended for publication in the current issue must reach this office not later than noon on Tuesdays—Ed. Advance.

The Department of Agriculture at Markdale in an endeavor to ascertain the best varieties of roots and grain and the best fertilizers to use with the various crops, has established about sixty experimental plots on the house of refuge farm near there. A cordial invitation is extended by them to all citizens and farmers to pay these plots a visit. Some of these experiments are just now at their best and we would urge upon you the advisability of making a careful examination of what we have here. Drop in any time when you happen to be passing.

An experiment where different fertilizers are being tested with O.A.C. No. 21 barley is especially well worth seeing, ten fertilizers in all being tested and there is a marked difference in the growth of the grain on each plot.

Complete Fertilizer—a mixture of superphosphate, muriate of potash and nitrate of soda—is showing up best, the length of straw and healthy appearance being almost double that where no fertilizer whatever has been used. A mixture of superphosphate and muriate of potash ranks second, and superphosphate used alone stands third, thus showing that superphosphate as a fertilizer for barley gives the best results on our soil. Muriate of Potash also gives very good results, but the nitrate of soda has but very little effect.

On another plot lime has been used, and, if anything, it seems to have had a detrimental effect, as it is the poorest plot of all. Evidently there is not sufficient acid in the soil of this particular section to demand the application of lime.

Another good experiment is the testing of three varieties of oats. Siberian, Lincoln and Regenerated Abundance are the three varieties being tested, and so far the latter seems to be doing the best, although it is not likely to give the highest yield when harvested.

An experiment with alfalfa is also being conducted. Two varieties, viz. Grimm's and Ontario Variegated, both show a strong, vigorous growth. These were both treated with the nitro culture prepared by the bacteriological department of the O.A.C., Guelph, and just alongside is a plot of another variety that was not treated. Already a slight difference is noticeable, the variety not treated having a slight yellow cast over it and lacking somewhat in vigor as compared with the other two.

Lightning Pranks

Lightning played "high jinks" at Mt. Forest a week ago Saturday. The Confederate thus describes some of its stunts:

Mr. John J. McLellan's vacant house near Farewell, was struck, but not set on fire. Mr. John Kirkpatrick's barn, O. S. R. south was struck and a sow and a dozen young pigs killed. In town there was a regular cannonade. Mr. R. A. Fraser's back veranda was struck and damaged. Mrs. J. McLeod, an aged lady, James street, had a narrow escape. The chimney of her house was struck and demolished, broken bricks being scattered for rods around and forced down on the stove. The stove-pipes were ripped open and twisted, a couple of holes made in the bottom of the oven and a hole torn or burnt in a corner of the mat beside the stove. Mrs. McLeod had been sitting beside the stove, as usual, reading her Gaelic books. She rose, she knows not why, and looked out of the window. In a moment the bolt struck. Mr. Geo. L. Ernest was working in a separator, repairing it when a neighbouring shed was struck. He had a wrench in his hand and received a shock so severe in his arm that it was benumbed for some time. Two of Mr. A. Robertson's employees, John Armstrong and Russel Beley, while washing bottles at the pop works, felt a decided shock. Mr. Arch. McCaw, Egremont, while driving into town in a top buggy, had one of his arms benumbed for a time.

Fort William is to have a car and foundry plant to cost a million dollars.

Odds and Ends

Wanted—Young lady to learn the tailoring. Apply to C. Blakeley, Flesherton p. o.

Auto Turns Turtle

The 12th of July will not soon be forgotten by a large number of Guelphites, who came up to Mount Forest to celebrate the day. Among those who came was an automobile party. They were travelling at a good rate of speed, when, just about a mile from the village of Holstein, one of the front wheels of the auto went wrong, and the machine turned turtle. The whole party were thrown out. Mr. Hesson clung to the steering wheel and was pinned beneath car. He was released after considerable difficulty and was taken to Mount Forest. A Guelph physician was sent for, who went up in an auto. He found no bones broken, but some internal injuries may be quite serious. Of the other members of the party, Bert Greenway was hurt the worst. He landed some distance from the auto on both knees, which were badly hurt. Noble Greenway received a few scratches on the arms and face, but was otherwise uninjured, while Mr. Foster's injuries were also slight. Erdon Hesson escaped unhurt.

Heifer Strayed

Heifer Strayed—From my premises, lot 36, con. 10, Artemesia, on or about May 24. It had a white star on forehead, white on legs and flank. Anybody knowing anything of its whereabouts, please communicate with Solomon Turner, Eugenia p. o.

The above farm is only 2 miles from the village of Markdale. Apply to John White or Thomas Taylor, Portlaw p. o.

A Good Time Piece is a Faithful Servant.

We make a Specialty of Reforming the "won't-go" kind. When we repair a watch or a clock we guarantee it to go accurately, and guarantee it to keep a-going accurately.

W. A. Armstrong.

You Need Not Fear Lightning

Nothing to fear if your buildings are properly rodded. The reports of the mutual fire insurance companies prove that fire loss is next to nothing where a pure copper cable is used, while the loss on unrodded buildings on account of lightning is very great.

Where losses have occurred on rodded buildings, its cause has always been traced to unscientific methods of installation.

You ought to protect yourself now before it is too late. Do it by installing an absolutely reliable lightning conductor. Have your buildings equipped with

National Flat Cable

(Patent Pending)

—then you will have a *guaranteed* rod and it will be *properly installed*—a vital matter, as statistics show that lightning never damages a building properly rodded with National Pure Copper Cable. National Cable is in use on many thousands of buildings, from New England to Old Mexico—not one of which has ever been lost by lightning or set a-fire.

Come in and let us show you, and tell you why you cannot afford to *have* any other. We will also estimate the cost of rodding your property. It won't cost you a cent to talk this matter over and it's important. See us today. *The Little Brass Tag, bearing the word National, assures safety and reliability.*

Melotte Cream Separators

Why do You still loose money and cause yourself so much unnecessary work by not having us place a Melotte Cream Separator in your home. We would be glad to have you call and to point out to you their many points of superiority. Do not delay.

We are agents for the Frost & Wood and Cockshutt Farm Implements. We also keep on hand repairs for the McCormick and Massey Harris Machinery.

Horse Shoeing and General Blacksmithing a specialty.

D. McTavish - Prop.

Farmer Killed Near Durham

Durham, July 12.—Samuel Ritchie, a Glenelg township farmer, living a mile from Durham, was instantly killed yesterday by heavy ties falling on him from his wagon when the team he was driving ran away. He was alone when the accident happened and neighbors seeing the team running hurried to the scene and found the lifeless body. He was 54 years of age and leaves a widow and three grown-up children.

Our Bob Sued

Half a million dollars is the amount claimed in action launched at Osgoode Hall against R. J. Henderson by M. J. Stewart. Both parties belong to Toronto. The half million claimed represents a 10 per cent. commission on the sale of process for the manufacture of tool steel for Canada and the world. Stewart says Sir Donnald Mann bought the process for ten millions.—Globe.
