Weed Out Careless Drivers

The Department of Highways has inaugurated a campaign to weed out reckless drivers and as a result numerous drivers' permits have been suspended even though the driver has never been charged or convicted of a traffic offence . If complaints are received by the department about any driver a follow up is made and if they are convinced that he is a reckless driver or one that is drinking too much his license s suspended immediately rather than wait until such time as an accident results through his carelessness.

Those who are proudest of their own bluntness of speech never seem to appreciate it in others.

Husband: "I suppose you haven't got a frock decent enough to go to the theatre in?"

Wife (hopefully): "No, darling, I haven't, really."

Husband: "Right, I'll only book one seat."

GRAND RELIEF

A sergeant was making his way about his platoon one dark night. He heard th roar of a "flying pig" overhead and dived into a shell hole. It was already occupied by a private, who was hit full in the stomach by the sergeant's head. There was a tense moment of silence, except for some long deep breathing. Finally the private asked:

"Is that you, sarge?"

"It's me all right."

"Gosh- I was just waiting for you to explode. "

LARNT NOT SMELT

This was sent to a teacher after she had sent a message by a boy to his mother that he must be sent to school cleaner:

"Dere techer—Our Johnny ain't no rose—he comes to school to be larnt, not smelt.— Mother."

EXAMPLE

Wife (with magazine)—"This writer says that an artistic cook can express emotion in the dishes she prepares."

Husband—"Has Bridget suffered any bereavement lately? The toast she serves is always in deep mourning."

An East York man has paid back $167 worth of relief he had obtained from the municipality and we hear the relief authorities are slowly recovering from the shock.

ANOTHER REDUCTION IN LONG DISTANCE RATES

On calls to points over 130 miles

Once again we have cut the cost of Long Distance. On September 1st, a new schedule of rates became effective on calls (both person-to-person and station-to-station) to points over 130 miles distant. This reduction will mean an annual saving of over $200,000 to telephone users in Ontario and Quebec alone.

This is the second time this year that Long Distance costs have been reduced. In the past seven years, we have made six substantial rate revisions. At the same time we have constantly improved service, as evidenced by the fact that, while in 1929 it took an average of 3.4 minutes to complete a Long Distance call, today the average is only 78 seconds.

Today, your telephone is within easy reach of any one of 33,000,000 telephones scattered throughout the world.

Low night rates from 7 every evening and all day Sunday!
