Mr. P. Munshaw offers the Eugenia House for sale in our columns, as he wishes to go West. This is a good paying property and we understand is offered at a low price for quick sale.

The following visitors registered at the Eugenia House last week: George Wegenest, Manager Waterloo Mutual, John B. Smith, manufacturer, and N. Goode, Waterloo; Mr. Blackburn of the London Free Press, and wife, and Mrs. Galbraith of Toronto.

An Owen Sound skunk created some excitement one midnight last week. A citizen fired six shots at it and never touched a hair of it. The skunk in return only fired one shot, but achew! achew!—every citizen who put his head out the window to see what the row was about was struck hard. That's the advantage a skunk has—he can hit all round without aiming.

A telegram arrived at Dundalk Monday evening from the West stating that Hodder McWilliams, son of Dr. McWilliams, had been accidentally killed that morning. There were no particulars. The young man was farming and leaves a young wife.

Mrs. Cham Whitby of the Sault, who has been visiting at Mr. Andrew Beattie's, Toronto Line, suffered a painful accident one afternoon last week. She slipped and fell on the floor, breaking a wrist. Dr. Carter was called, and reduced the fracture.

Mr. Hartley of the Postoffice Department was in town on Friday and drove out to examine the proposed rural mail delivery route between Flesherton and Vandeleur. The proposition is to run from Vandeleur to Flesherton by way of the east back line, returning via the Meaford Road.

Mr. John Stewart of the west back line was placing a stone foundation under an annex to his frame barn last week, and had the building jacked up about eight feet and resting on piers built up of railway ties. While working under the building Saturday the two workmen heard a cracking sound and barely got out from under when the structure came crashing to the ground. The building was about 26x36 feet and was badly wrecked. It was a very close call for Mr. Stewart and Henry Howard, who was working with him.

The dropping of a word last week in the sidewalk item made it appear that the gang on the job were not lightning operators, whereas the contrary is the fact. Of course it was an average of fourteen hundred square feet per day that we meant, as everybody would understand. On Friday afternoon last eleven hundred feet were laid, which, we believe, was a record breaker for a half day's work. The job will be completed this week and next week we will probably have some figures to give as to amount laid and cost of same.

Kimberley baseball club came over Monday evening and played a game with the Flesherton club. We would like to let the announcement go at that, but where duty calls we cannot but obey. The score was 18 to 13 in favor of Kimberley, with a five-innings game! The game was scarcely worth analyzing. As an exhibition of baseball it was on a par with the old-time logging-bee affairs in which the scores ran up to 50 or 60 and good running wind was the prime essential. Neither club had any advantage in this respect. A large number of spectators was present, and a fine thing about it was the large number of Kimberley ladies who came up to support their club. We would like to see a nine-inning game between these two clubs. After the third inning Monday both clubs appeared to be getting down to better work. Kimberley went first to bat and before retiring scored six runs which lead they held to the end.

A few weeks ago farmers were bewailing the fact that the crops were going to be a comparative failure again this year. The other day we met one of these gentlemen looking for help in the harvest field because the sheaves were so heavy that a man could hardly shock them.—Creemore Star.

Alfred Piper, Sunnidale, the lad who shot young Alfred Rogers in the eye a few weeks ago, was taken to New Lowell by Detective Beardsley and tried before P. M. Young, Stayner. Crown Attorney Young prosecuted. After hearing the evidence the magistrate committed Piper to stand his trial at the fall assizes. Bail was accepted.—Star.

While Mr. Berry, of Mitchell, was tying a stallion in the stall the brute bit the first finger on his right hand nearly off at the first joint. Mr. Berry had been caring for the animal all summer and knowing him to be vicious, he was always very cautious when around him. Dr. Armstrong, who dressed the injured member, thinks that it will grow together again. Twenty-three years ago Mr. Berry had all his fingers and thumb on his left hand taken off in a threshing engine. About six weeks ago, his son Herbert, putting up some eave-troughing the scaffold gave away and he fell to the ground and broke his arm. On Saturday last, another son, Wilbur, an auto expert, who work sin Stratford, had his leg broken while cranking an auto.

Killed at Horning's Mills

Owen Sound, Aug, 4.—The remains were brought here to-day of William Breen, who died last evening as a result of an accident at the construction work of the Dufferin Power & Light Company on the Pine River, near Horning's Mills. Breen was employed by Cole & Bryson, contractors, of this town, who have a contract on the extensive works. He was an experienced man with explosives and had set off a charge in a hardpan embankment, and was in the act of picking down some loose material when a heavy piece fell upon him, crushing him so seriously that his ribs penetrated his lungs, death followed at 5 o'clock. The body was brought home this morning for interment, after the Coroner's jury had viewed the remains. Breen was sixty years of age and has a large family of grown-up children residing in this vicinity.

A Costly Snooze

The Tara Leader dilates upon the results of a peaceful morning snooze in this manner: One of our local bank clerks has come to the conclusion that sleeping in in the morning is an expensive pleasure. On Saturday he went to Owen Sound to his home and intended returning on the early morning express on Monday, but failed to waken from his peaceful slumbers until long after train time. He having part of the combination of the safe here it was necessary for him to be in Tara in half an hour and consequently an auto was hired, instructing the chauffeur to make the distance of sixteen miles in half an hour if possible. The trip was commenced and they drove through the country at a merry clip and when they arrived at their destination it was found the trip was made in twenty-five minutes or about a mile in every minute and a half. Constable Briggs happened to be on the street when the auto came down Yonge street at about a forty mile an hour clip and when the machine stopped he quietly went over to the driver and took his name and asked him to appear before the magistrate for overstepping the speed limit. The magistrate imposed a fine of five dollars and costs, the costs being $2. The aforesaid bank clerk paid the $5 fine besides $6 for the hire of the auto.

Fred Banks, a son of Otto Banks near Laurel, came near losing his life last week by being bunted around by an enraged bull. The animal charged him while crossing a field and Fred becoming tired out dodging the beast at last was knocked down. For ten minutes or more the bull bunted and shoved him around the ground till the poor fellow's body was a complete mass of cuts and bruises. Fortunately the beast had been dehorned or more serious results would have happened. Help came and drove the animal off and a doctor was summoned, who dressed his injuries.—Grand Valley Star.

You better be careful in the selection of your twine this year. Be sure you get the best. Beware of mixed twines, which are really composed of low grade manila. They are unsatisfactory at the best, and they will annoy you to death straightening out tangles and picking up loose bundles. Buy good sisal, standard sisal, or high-grade manila binder twine and save yourself annoyance.

When you consider the satisfaction that sisal, standard sisal and high-grade manila binder twine will give and the amount of extra labor good twine will save, you will more fully understand the value of McCormick twines. McCormick binder twine is made in four brands—sisal, standard, manila, pure manila. Every brand is up to the McCormick quality. You will get perfect satisfaction if you use McCormick twine.

Don't be misled, come direct to us and we will explain the twine proposition.

S. Hemphill, Agent, Ceylon, Ontario.
