Eugenia Paragraphs

Mesdames Walton Williams and Robert Purvis of Toronto are visiting friends in this vicinity for a few weeks and also attended the wedding of their niece, Miss Cora Williams.

The Orangemen of Eugenia, with their friends, assembled in their hall here on Friday evening to enjoy themselves together, and they were certainly not disappointed, as it was an entertainment in which not a few took part, and one and all merrily danced the light fantastic to music given by the Eugenia orchestra. A choice lunch was served by the ladies and all report a good time.

We are sorry to hear that Mrs Jacob Williams' mother, Mrs. Stuart of Flesherton, is very low at present.

Mr. Harry Stewart of St. Pauls called on friends here the past week.

RUSSELL—WILLIAMS

A pretty wedding was solemnized at the home of Mr. and Mrs. John E. Williams, Eugenia, on Wednesday, Feb. 19, at 5 o'clock p.m., when their eldest daughter, Cora, was joined in holy wedlock with Mr. James Russell of Idaho. As Mrs. Jacob Williams, aunt of the bride, played the wedding march, the young couple took their places under the arch in the parlor. The bride was given away by her father and looked charming in the soft candlelight. The ceremony was performed by Rev. Mr. Phalen of Markdale in the presence of about eighty guests. After the congratulations all repaired to the dining room, which was beautifully decorated for the wedding breakfast. The bride, who was unattended, was gowned in white bridal satin and carried a bouquet of white carnations, lily of the valley and maidenhair fern. The groom's gift to the bride was a beautiful gold bracelet. The many beautiful and costly presents showed the esteem in which the young couple are held. The happy couple leave this week for their home in Idaho, and will carry with them the best wishes of a large circle of friends.

A Brave Recue

One of the bravest deeds that has ever been recorded in Parry Sound and one which has thrilled the denizens of that district, took place there recently when Mr. Arkle Farr, nephew of Mrs. Fred Perks, 305 Seventh Street East, Owen Sound, rescued a young lady from drowning twice within the space of a few minutes. The cicumstances under which the double rescue took place were exceptionally hazardous and it is altogether likely that the young man's heroism will be fittingly recognized.

While crossing the bay with a Miss Meehan of Parry Sound both broke through the ice in a place made soft by the presence of a log. Mr. Farr put the lady on the log and while he was trying to get out the log rolled throwing Miss Meehan under the ice and Mr. Farr was compelled to dive under and bring the the lady out. It was with difficulty that he succeeded and both had a narrow escape. Some Indians took them to King's house who gave them dry clothing and drove them to the Kipling hotel. Mr. Farr is a son of Capt Farr and a grandson of the late Wm. Farr. An effort will be made to secure both the Royal Canadian and Carnegie medals.

Up To Owen Sound

In the course of an interview with the Owen Sound Times E. F. Espenchied engineer of the Hydro-Electric Commission, said:

"We have put a clean cut proposition up to the town, and if they are going to do business with the hydro-electric commission we will require to have a reply to our offer at an early date for the reason that the commission desires to get busy on the develepement of the Eugenia Falls at as early a date as possible." So declared Mr. F. F. Espenchied, the engineer of the commission last evening in the course of an interview with The Times. The times has come when the town of Owen Sound will be required to give a definite answer the proposals of the Ontario hydro electric-commission. When seen by The Times man after his arrival in Owen Sound the engineer that he desired to have the situation set before the people of the town as accurately as possible. Being asked to outline the situation in a brief way. Mr. Espenchied said:—"You know that the commission has taken an option on the Eugenia Falls, and that the taking of that option was the result of the desire of the commission to serve the the town of Owen Sound and the adjacent part of the country with the hydro power. You know further that the plan contemplates the future linking up of the Owen Sound line with the great central lines running from Niagara, the heart of the hydro system. Also the Maitland river lines and possibly the Severn lines would all be joined in one great continuous band of enery to supply all the western part of the province. The development of the Eugenia proposition depends altogether on what is done by Owen Sound. If they do not wish to have power at cost there is not enough other points take power to make it worth while to develop the falls. and in this case the option that has been taken would probably be allowed to lapse. And if Owen Sound does want the hydro power the time for them to say so has come. Let the commission kyow that they mean business. If they do the commission is prepared to begin the work of developing the required power at once."

The failure to carry Local Option in Lindsay was to a larffe extent due to the placing on the lists of a number of recent arrivals in the townr on the strenth of their "incomes." Their taxes were paid by a single cheque from Montreal. A Lindsay deputation last week drew the attention of the Hon. W. J. Hanna to the occurrence, and asked that the law be amended so as to prevent its repetition.

The horse belonged to Wm. Rowan of the Hannah House, Paisley.
