A congregational social evening was held in the Methodist church on Thursday last, the object being to make the people acquainted with the success achieved in the various branches of church work. Incidentally, luncheon was served by the ladies and a profitable evening was spent.

Rev. James Buchanan of Dundalk preached in the Presbyterian church on Sunday and his able sermon was very appropriate to Easter day. The music was also appropriate to the occasion and the pulpit platform was prettily decorated with Easter Lilies and flowering plants. Rev. Mr. Buchanan will supply the pulpit the next two Sabbaths.

Dr. Ottewell had a rather hair-raising experience during the big wind on Friday. He was crossing the Beaver river below Kimberley when his buggy and himself were nearly blown into the swollen river. He felt the wheels rise but throwing himself to the windward side managed to keep the buggy right side up, but for a moment he felt sure he was going

Mrs. Minnie McNea of Vancouver, B. C., who was returning from a European trip, died on Friday last on the liner Baltic, which arrived in New York on Saturday. Deceased was a daughter of Mr. and Mrs. Jake Holley of this place. Her brother, Will, left on Tuesday for New York, and will bring the body of his sister to Markdale for interment.—Standard.

The wildest wind storm that ever passed over this country was experienced on Good Friday, when numberless barns were unroofed and hundreds of thousands of dollars worth of damage done throughout the province. In this immediate vicinity many barns were unroofed, trees blown down, fences levelled and thrown across the road, etc. In the village, however, little serious damage was done beyond the levelling of fences and some small buildings. The weather vane on the Methodist church was blown down. A chimney on Dr. Murray's woodshed was blown over and fell through the roof, dropping within two feet of a young woman who happened to be in the woodshed at the time. Among those who had barns unroofed in the surrounding country were: W. Sharp, W. Simmons, Jas. Stafford, Mark Stewart, Archie Stewart, Alex. McRae, John Muir, John McMillan, Mrs. T. McArthur, Frank Moore, John Wright and T. Bannon. Several driving sheds were also destroyed, and in some instances farm implements that were stored in the buildings were destroyed. Among these Mr. John Pedlar will be a heavy loser. Altogether in this immediate vicinity the damage will mount well up into the thousands.

A telegram was received here Monday announcing the death of Mrs. George Best at the home of her daughter, Mrs. W. M. Currie, Toledo, Ohio. Mrs. Best left here a couple of months ago to visit her daughter. The remains were brought to Flesherton and interment takes place to-day (Thursday) from the Methodist church at 2 o'clock p.m. Mrs. Best was 76 years of age. She was born at Streetsville, Ont., and was originally married to Thomas Blakeley. For years they lived on the east back line, Artemesia, near Mount Zion. Mr. Blakeley died 36 years ago, and nearly twenty years ago his widow married the late George Best. She was the mother of a large family by her first husband, the following members of whom are still living: Joseph of Flesherton; George, of Proton Station; Mary Jane (Mrs. Johnston Little, Owen Sound); Guy of Winnipeg, Thomas of Flesherton, John of Corbetton, Margaret (Mrs. Allen) and Cassie (Mrs. Currie) of Toledo, Ohio; Walter R. and Andrew, North Dakota. The deceased lady was a model mother and kind neighbor, who will be held in loving remembrance by all who knew her. She was for many years a member of the Methodist church.

Dairying for Profit

Everyone dairying for profit will find that a cream separator is indispensable. It is, therefore, simply a question of which separator will best meet his requirements.

The Dairymaid cream harvester has been designed to meet all demands. It is built of the best material by experienced workmen.

The essential points of the Dairymaid cream harvester are:

Simple construction, Durable construction, Close skimming, Large capacity, Easy cleaning, Light running.

These, and many others, are valuable features which make a Dairymaid cream harvester best suited to those dairying for profit.

For every up-to-date, well regulated farm, a Dairymaid cream harvester is a necessity. It will save you the inconvenience of hauling your milk to the creamery, and bringing back cold and tainted or sour skim milk.

Use a Dairymaid cream harvester and separate your milk while it is still warm and secure all the butter fat.

Call and examine a Dairymaid cream harvester and secure one of the handsome little booklets telling you more about this separator.
