International Stock Food

DON'T let your horses run down during the winter and get so soft that they will lose flesh badly when you start your spring plowing. If horses are not worked regularly during the winter, they need the splendid tonic effects of INTERNATIONAL STOCK FOOD, to tone up the digestive organs, enable them to get all the good out of their feed, prevent the blood from becoming overheated, and thus ward off disease.

79

LANGHAM, SASK., Jan. 26th. 1912.
"I have fed INTERNATIONAL STOCK FOOD for many years. I always have a 25 pound pail standing in my barn. I bought a pair of three year old colts and they were so worked down that my neighbors said I had been beat. When I bought the colts, they weighed 2400 lbs. I ploughed 25 acres and they weighed 2650—then I harvested 163 acres and threshed and hauled one carload to town, 6 miles, I weighed them again and they weighed 2850, and I said "They shall weigh 3000 before spring". Now, the Neighbors want to buy them but there's no chance". J. G. REMPEL.
For sale by dealers everywhere. Our $3,000.00 Stock Book—sent free when we receive your name and address. INTERNATIONAL STOCK FOOD CO. LIMITED, TORONTO.

TO ABOLISH NOISE.

Hiram Percy Maxim Looks Forward To a Silent City.

Tense and enthusiastic over the magnitude and the well-nigh incomprehensible results and evolutions of his recent remarkable discoveries, Hiram Percy Maxim, British inventor of the noiseless gun and most famous of a famous family of inventors, told how the noiseless city may become a fact in the not distant future.

Strewn about on his desk and table in the inventor's office were the little devices to be attached to all sizes of firearms which eliminate practically the sound of powder explosion. Outside the little office is the wonderful workshop of the Maxim silent firearms company.

In this appropriate atmosphere Mr. Maxim explained as much as his patent applications would permit the details of the coming silent town, only a generation or less away, saying:

"The one great silencer I hope for and one that the world will see invented and established within five years, is a general silencer for noises, a device for sick rooms, hospitals, hotels, offices, factories and a hundred other places, which will shed silence in the same way that a lamp sheds light.

"This is no idle prediction and I have progressed so far towards the solution of the problem that I have patent applications, the pendency of which prevents me from talking as much as I would like to.

"The noise made by an engine exhaust and a gun report is caused by the sudden liberation of the gases and by one thing which I at first did not dream of. This noise advances through the air and while its velocity of advance is always practically the same, its suddenness determines its noise value. It is like a boat breaking through the water and causing a wave. If the wave is sudden it breaks and causes a noise, but if it is gradual it glides away noiselessly. Our ears are built to detect vibrations of a certain suddenness and of a certain frequency. Any noise outside of our limit of suddenness passes unheard.

"It is too early to go into details, as I have much to do yet before it is perfect. I can say, however, that there is no doubt that the noiseless city is close at hand.

"You know a boiler shop is as quiet as a tomb to a deaf man. If there are non-responsive ear drums, there is silence. It is like light. Our eyes detect certain kinds of light only. Many kinds of light are absolute darkness to us. For example, an X-ray in a dark room is invisible. And yet, it will photograph your bones on a plate. It gives enough of a certain kind of light to pass through a man's body.

"With sound it is the same thing. Our ears are built to detect certain kinds of sounds, air vibrations. If these vibrations are outside of a certain limit of suddenness our ears cannot detect them. Again, if they are beyond a certain limit of frequency they are silent to us, though they may be so intense as to be agony to a cat or a bird.

"This is all coming just as sure as fate. With general noises which make life in our cities almost unbearable it will be the same except perhaps, for those noises which pass through the floor and up into our brain through the bones of our body. This will always prevent absolute silence, which I can imagine may be a very good thing.

"There will be a sinister side to general silencers just as there is to automobiles, railroads and new things in general. The lawbreaker will avail himself of them just as he does every new thing, if he can. While a general silencer will quiet a sick room so that the ill may have the blessings of quiet, and while it will make livable places which are now so noisy as to breed insanity, yet it will also make possible the silencing of cries for help from the distressed if the latter has no means of controlling the silencer.

"When every noisy thing has a silencing device attached to it, or when we provide ourselves with a silencer which will prevent objectionable sounds from reaching us, our world will be more comfortable to live in. This is what is coming."

A Queer Find.

A gold chain and locket, which were lost in Buckingham, Eng., were recovered in a singular manner. A gentleman and his wife, to whom the articles belonged, lost them during a walk. Several days after, what seemed to be the chain and locket were seen hanging upon a telephone wire. A ladder was obtained, and, as there was nothing to rest it against, some men held it in a perpendicular position while the lady's husband ascended and unwound the chain from the wire. The "find" proved to be the lost treasure. The theory is that the articles were picked up by a jackdaw which alighted on the telephone wire, and that the wind caused the chain to swing until it became wound round the wire.

To Keep Awake In Church.

A minister once told a good way to keep awake in church when inclined to be drowsy. The way was this: Lift one foot a little way from the floor and hold it there. It is impossible to go to sleep when your foot is poised in the air. This remedy, though simple, is very effectual and never fails to keep a person awake.

Attractive!

"Our Cemetery—Reasons why you should give it a trial," is the alluring heading of an article in The Wood Green Sentinel, which begins: "Are you a Wood Green ratepayer, and do you want to be buried? If so, try our own fine cemetery, greatly improved of recent years."

Art Prize Found.

Among a number of pictures purchased by a gentleman in the North of England for a few pounds was one which, on being cleaned, was found to bear the signature of Van de Velde. It was forwarded to a London firm, who immediately sold it for some hundreds of pounds more than their client gave for it.

Annual Presentation

The annual presentation of medals and prizes for the winter term at the Northern Business College took place recently. The school has had the largest attendance in the past term since its establisment in 1881. The contestants were numerous and the contests very keen. The work was examined by the City Treasurer Mr. A. F. Armstrong, and Mr. W. P. Telford ex-M. P. and the Principal and staff made the following awards.

Best specimen of writing,—1 Miss Valentine Picotte, 2 Miss Winnifred Lovatt, 3 Miss Marion Currie, 4 Miss Nettie Lennox.

Greatest improvement in writing;—1 Mr. Albert Golden, 2 Mr. George Given, 3 Miss Bertha Jones, 4 Mr. Roy Hooey.

Rapid business writing,—1 Miss Agnes Almos, 2 Miss Dora McPherson, 3 Mr. R. A. Vincer, 4 Mr. H. E. Doubt.

Best kept set of books,—1 Miss Jessie Cotton, 2 Miss Valentine Picotte, 3 Mr. T. A. Golden, 4 Mr. J. H. VanOverbeck.

Rapid calculation,—1 Miss Ruth Bellamy, 2 Mr. H. E. Doubt, 3 Mr. Albert Golden, 4 Mr. George Given.

Spelling,—1 Miss Ruth Bellamy, Mr. H. R. Hopkins, 2 Mr. George Given, Miss Flora McDonald, 3 Mr. Albert Golden, Mr. S H. Buchanan, Mr. George Halcrow, Mr. Lawrence R. Schell, 4 Mr. J. J. Brown, Miss Irene Latimer.

Best weekly record in spelling for term:—1 Mr. H. E. Doubt, 2 Miss Ruth Bellamy, 3 Mr. Thomas Dunn, Mr. Albert Golden, Mr. George Halcrow, 4 Miss Nettie Lennox.

Killed on Railway

As the result of injuries received by falling between two cars on a C.P.R. way-frieght near Carley Junction, Joshua F. Reid, of Shelburne, who boarded at 49 Hook avenue, West Toronto, was so badly injured that he died on a train that was bringing him to Toronto.

As the train pulled out of Carley for Craighurst, Reid left the van and started forward to the engine across the top of the cars. This was the last seen of him. The brakeman, who was in the van protecting the rear of the train, missed Reid when signal was not answered. The train pulled into Craighurst, and the engine went back, but in the meantime a work train found Reid alongside the tracks 1,200 yards this side of Carley, unconscious, with his right leg and right forearm completely severed.

With a chance still for his life, Reid was rushed to Coldwater, where Dr. Harvey administered temporary aid Accompanied by Dr. Harvey, Reid was brought to Toronto, but died at Woodbridge.

Rev. W. L. Newton Dead.

On Monday last in Goderich, the death took place of Rev. W. L. Newton, former Baptist pastor, after some months of prolonged illness from a cancerous affection. At his last visit to Durham, he was then a sufferer, and shortly after sought the advice of a specialist, who held out little or no hope of recovery. The remains are being interred in Goderich to-day, Wednesday, and in attendance at the last functions, in heartfelt representative sorrow are Mr. Arch. Beaton representing his old Glenelg Centre congregation and Messrs. Allan Bell and F. Search from Durham.

Those who knew Mr. Newton best loved him most. For about nine years of a faithful ministry here he was a power for good, and we think he would reckon them the happiest years of his maturer life. The lamented death of his brilliant wife a few years ago in painful circumstances, weighed heavily upon him, and he cherished as a sweet memory his Durham days.

In him every moral movement found a champion. He ever had the courage of his convictions and it was in no small measure due to his advocacy that Local Option was first carried in Durham. His personality and example will not soon be forgotten by Durham friends.

He leaves as chief mourners two sons, Karl, a photographer, in Texas, and Keith, at student at School of Practical Science in Toronto, and the boys have the warm sympathy of Durham friends. —Review.

Mr. and Mrs. Con Schaaf and daughter of town had a narrow escape from being asphyxiated with coal gas last Friday morning. When the new chimney had been built to replace the one blown down on Good Friday, it is thought that a certain amount of material had fallen down and clogged up the passage, with the result that the coal gas escaped. Mrs. Schaaf complained of a pain in her head shortly before six o'clock, and he got up to get some medicine. He felt dizzy when he commenced to walk, and suspecting what was wrong hastened up stairs where his daughter slept. Miss Vera was unconscious. Mr. Schaaf went for a doctor and when he was gone Mrs. Schaaf became unconscious. However they were brought around all right, and by this time are all pretty well again.—Hanover Post.

Cecil Charters, son of Mr. and Mrs. W. C. Charters, 4th line, St. Vincent, met with a serious accident on Friday last at the gynasium of the Meaford High School. The young man, in company with several other students of the school, was practising on the trapeze during the noon hour, when the rope broke and dropped him to the floor, and rendering him unconscious. It appears that George Carefoot, another student, was on the trapeze at the time but escaped unhurt. Just what caused the rope to break we are unable to say as we understand it was a new one and had been it use only a short time. When picked up, Dr. Jordan was summoned and rendered first aid. After he was removed to his home he was found to be suffering from a comminuted fracture of the collar bone and injuries to his head which caused concussion of of the brain. At present writing the patient is progressing as well as could be expected.—Express.

When Mr. Weppler of Hanover, learned last week that Geo. Shires had purchased some skunk skins, he identified them as some that were stolen from him last winter, and on enquiry, found Mr. Shires had purchased them in good faith from John ("Sore") Vollet, a local boy. Vollet was arrested for the theft Thursday, and brought before Magistrate Telford Friday morning, who sentenced him to two months in gaol with hard labor. He was taken to Owen Sound that afternoon by Constable Whelon. The lad does not bear any too good a character, having previously been in trouble over liquor cases. It is alleged others were implicated in the theft, and if so, this example should serve as a warning.—Durham Review

A serious accident happened to Mr. Reginald Crawford, of the 9th Con. Arran, on Wednesday of last week. He was in the act of repairing the roof of his barn and was working on the inside of the building, when his foot slipped and he fell to the floor a distance of eighteen feet, breaking his collar bone and sustaining other injuries. The unfortunate accident will confine Mr. Crawford to the house for sometime.

The Dominion Alliance, it is said is preparing to submit the Canada Temperance Act to a general vote in Bruce County, and as only a bare majority is needed to carry the measure, they anticipate by this means to make the entire county dry. The places that are now under Local Option are said to be pushing strenuously for a general county referendum and it looks from this distance as though all Bruce will be balloting on the measure before the year is out.

The charge against Frank Rumig of Carrick of seducing a girl under 16 years of age has been dropped, and Rumig, through his solicitor, Mr. O. E. Klein, has commenced an action for damages for alleged malicious prosecution.

A man near Paisley is reported to have tapped over two hundred trees on Holy Thursday and all but seven of them were blown down by Good Friday's windstorm.

Harold Boding, a boy who works for Elijah Hamilton, clerk of Amaranth township, met with a serious accident on Tuesday afternoon of last week. He was in the act of throwing over the lever to start the power mill when his clothing caught in the shafting breaking his arm and causing a compound fracture of both bones of the forearm. The accident occurred while Mr. Hamilton was in Orangeville. A doctor was summoned and tended to the lad's injuries. He is getting alongas well as can be expected.—Banner.

A sad drowning accident took place in the deepest part of the river at Chesley on Sunday morning week when three young men were thrown out of a canoe, and George Llewellyn Phillips, aged 23, drowned. Deceased acted as stenographer for Mr. R. J. Lilico, real estate broker, and was a native of Monmouthshire, Wales.

A little four-year old boy, George Warren, at Brockville, while climbing a fence was knocked down by lumber he dislodged and smothered to death in the soggy ground.

East Mountain

The roads are in a bad condition. Oh, where is our councillor?

Miss Cora Martin left Saturday to visit friends in Owen Sound.

Mr. Farrell of Ventry spent a few days at Mr. W. Humberstone's.

Mr. and Mrs. R. McMullen and little son, Gordon, visited with Mr. and Mrs. James Chard, Flesherton, Saturday.

Miss Nettie Martin of Markdale spent a few days at her parental home, returning Monday.

Mr. Wm. Harbottle visited friends in Keady and returned home last week.

Mr. W. G. Pickell of Markdale was a caller in this locality last week.

Mr. Wm. Harbottle, accompanied by Miss Sadie Bravender, visited at Lady Bank on Sunday.

Miss E. M. Lever, teacher, spent the week end at Mr. Alex. Carruthers, Mountain View Farm.

Miss Lizzie Welsh has returned home after spending a couple of weeks at Duncan.

Mr. Charles Martin took a business trip to Thornbury recently.

Miss Thompson of Erin is visiting at Mr. H. Thompson's.

Sugar making is the order of the day.

Rev. Irl. R. Hicks, the celebrated weather prophet, has been hitting the weather forecast very correctly. The violent storm periods we have just recently passed through were all set down in his almanac in a surprisingly detailed manner.
