## Town and Country

THE city buildings are undergoing repairs.

GRAIN buyers are busy, and white barley and pease are beginning to come in.

THE schooner Dominion, of Wellington, loaded with barley, ran into South Bay yesterday, with a broken mast.

EMIGRATION.—It is said Mr. Buchanan is about to have another conference on the question of immigration. Mr. Dixon, immigrant agent in London, is on his way out. Mr. Connolly, who has been appointed agent to England, is still at Ottawa. Lieut. Col. Shaw, agent to Scotland, is also there. Mr. Moylan agent to Ireland, is expected.

SALE ON THURSDAY NEXT. Our Pittsburg readers already know that the Rev. Mr. Bower, the clergyman of St. Mark's Church, Barrie field, has obtained leave of absence for a year, with the intention of going to England. As he may not return to his incumbency at Barrie field, he has called an auction of his Household Furniture and other effects and the sale is on Thursday next. In order that his Parishioners may have due notice of this sale, and for those who wish to attend, we have written this Reminder and we heartily hope it will have the effect of procuring a large audience.

THE following does not speak very well for the charity of the people of Picton.—A poor, hard-working widow, with four children, named McArthur, was yesterday turned on the street, through the heartlessness of her landlord. She is honest and industrious, but has four little to feed and look after. It is true that the Council of that place has for some time rendered assistance to the amount of four loaves of bread per week. But the difficulty is in getting a little place to live in. It is to be hoped that something will be done, *immediately*, whereby the children may be protected from the inclemency of the weather.

A DEAD BEAT.—A tall, thin looking individual walked into the Police Court this morning, and informed His Worship that one of the policemen had told him that he, the Police Magistrate, wished to see him. It appears that this man has for some days been staying at the House of Providence against the wishes of the inmates of that institution, who it seems do not consider him accountable for his actions. He says that he came from the United States some weeks ago on account of bad health, and that he never was informed by any one that his stay at the House of Providence was a nuisance, but would leave at once, and give them no further trouble. He predicts the burning of Kingston next month, and warns the inhabitants to be prepared. It would be well to watch Mr. Stranger.

POLICE COURT, Wednesday.—Police news scarce this morning, Thomas Greig and the rats being the only occupants of the cells last night. Thomas, who appeared at the bar in a rather shaky condition, was charged with being drunk and breaking the windows of the dwelling house of Captain Crowley. Of course he was quite unconscious of this, and assured the Magistrate that when sober, which by the way appears to be very seldom, he was as harmless as a kitten. But as he did not appear much like a kitten last night, the Magistrate fined him $2 this morning, or 15 days in gaol, which no doubt, poor Tom thought very hard, and he left, evidently not at all pleased with the termination of the business at the court this morning.

THE WEATHER.—The hazy weather of the past few days with all the pleasant features of the Indian summer, has given place to the real, sharp, clear cold October weather. The varied tints which a while ago adorned the trees with all the gorgeous splendors of Autumn have nearly all departed, and the naked trees shake their skeleton arms mournfully in the blast. The evenings are chill and raw, and the angry north east wind, as it remorselessly rattles the bare branches of the trees and spitefully chases the poor faded leaves which lie helplessly at their feet, triumphantly announces that grim Winter is approaching with all its boreal rigors. Sharp frosts too begin to be present and helps the spiteful wind to spoil the last glories of the gardens, and make them appear the very wrecks of what they were a few weeks since—these poor gardens how wretched they now appear, with their withered, draggled flower stems and faded leaves, and their damp walks! And as their owners slowly inspect their altered appearance they sorrowfully recollect their past splendor, and shivering hurry from their presence to the cheerful fire side. But there is heart for these gardeners yet, and among all the Pandora's box of evils there is still Hope at the bottom, for Spring will again return, and again deal out her bounties with a lavish hand.

The ex-Emperor Napoleon has declared that the recent reports from France of a Bonapartist conspiracy, and an intended descent upon the coast of France, are entirely without foundation.

## CHICAGO ITEMS.

J. H. McVicker announces that he will rebuild his theatre in a style equal to the one destroyed.

The railroads are busy, and it is astonishing to see the quantities of freight handled in and out.

The Insurance Companies of the city are in a better condition than was at first supposed, and thus many of them will be able to pay in full.

Immediately after the fire the daily applications for relief numbered about 45,000. This number has gradually diminished, until there are only about 25,000 applications.

At the Lumber Exchange great activity prevails; and at the live stock yards the aisles are seldom idle from early morning to late in the evening.

The Health Committee reports the health of the city as fair, though there has been some increase in diarrhœa and dysentery within the past few days.

Vessels are arriving and departing as in Chicago's busiest days, taking out grain, flour and provisions, and bringing in all kinds of merchandise—coal, wood, lumber, etc.

At the relief meeting in Detroit a ragged and dirty boy gave ten cents, which was all he had, amid the vehement cheers of the audience. Who has matched him in the giving of his all?

The South Division is dotted with temporary buildings for business, and in a number of places the foundations are laid for magnificent and stately blocks, and the owners and builders are using every means to guard against fire.

AN INCIDENT OF THE GREAT FIRE.—The following is one of the thrilling incidents of the great fire, as it occurred in Washington street tunnel. During the fierce heat of the fire, when thousands upon thousands were rushing through the tunnel, which is over one thousand feet in length, the gas suddenly gave out, and all were left in total darkness. A terrible panic, a collision, and the trampling to death of the sufferer by the strangers seemed inevitable. But strange as it may seem, everybody in the dark recess assumed at once to comprehend the necessity for coolness and courage. Not a man lost his presence of mind, but all with one accord bore to the right, each calmly enjoining upon the others to be cool and steady, and to march steadily on till the light should be reached. Rapidly, but without confusion, the two columns moved on through the thick darkness with almost military precision, the silence being broken only by the frequent shouts of "Right," "Right." There was no difficulty, and no one was harmed, but all rejoiced the cool of the tunnel instantly, and then, for the first time in almost ten minutes, breathed freely.

SNOW.—Out of the bosom of the air,
Out of the cloud folds of her garments shaken;
Over the woodlands brown and bare,
Over the harvest fields forsaken,
Silent and soft and slow descends the snow.

So longfellow sings, and we cannot describe things any better. Snow began to fall yesterday afternoon, and by midnight fully four inches lay on the ground. The slushiness of the streets to-day will be agonizing, but the Indian Summer is to come, so let there be no growling. *Quebec Chronicle.*

A COMMON cough or should never be trifled with, often when neglected it is converted into a serious and general fatal pulmonary disease. The more prudent aware of this promptly use "Bryan's Pulmonic Wafers," a curative which has sustained its reputation for over twenty years.—They are always efficacious and exert a most beneficial influence on all the Bronchial and pulmonary organs. Sold by all Druggists and country dealers. Price 25 cts. per box.

THE TRAVELLER'S FRIEND.—A gentleman who left this city the other day en route for Red River, remarked in the course of conversation that nothing gave more security to the traveller, and contributed more to his comfort than the possession of a small convenient Medicine Chest. This, he said, I carry in a most portable form, a single bottle is enough for my wants. If I have a nervous headache, a pain in my stomach or bowels, an incipient attack of Cholera, or any other internal disorder, half a teaspoonful sets me right again; while, if having caught cold, I suffer from Neuralgia or Rheumatism or Toothache, by using my bottle I am speedily well. As for mosquitoes and other insects, their bites or stings are so easily cured that I pay no attention to them. On being asked the name of this wonderful bottle, he replied,—Why! don't you know? the three A's, Anodyne Anodyne Anodyne.

Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is the best time for use, because it is the most physiological, being composed of ingredients also intimately essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and hearty nutrition. All cases of debility arising from wasting diseases, such as Consumption and Scrofula, and diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, or overwork, will obtain immediate relief, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period without becoming disagreeable to the patient. Evans, Mercer & Co., Wholesale Agents, Montreal, and sold by all Druggists.

AFRICAN WINES.—It is not generally known that Cape Colony produces the most delicious wines grown on the face of the earth. A cargo received as a remittance by our neighbors, Dr. J. C. Ayer & Co., contains several varieties raised there, among which the Constancia commands the highest price of any wine in the world. Almost the entire crop of it is consumed in the palaces of Europe, this rare exception being sent to them in exchange for their medicines, which have been the staple commodities of South Africa. [Boston Journal.

*Fevers* seldom make an attack without warning, and many often be thrown off by soaking the feet in warm water, wrapping up warm in bed, and taking two or three of Parsons' Purgative Pills.

A Missionary, just returned, says he regards Johnson's Anodyne Liniment as beyond all price, and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and is the best pain killer in the world.

PALPITATION OF THE HEART.—Freeport, Digby County, N.S., 12th February, 1869, James I. Fellows, Esq.—Dear Sir: I have during several years been troubled with a Nervous Complaint and Palpitation of the Heart, so much so that at times I became unconscious of everything around me; in fact, my pulse stopped sometimes altogether. Hearing of the good it afforded to others I was induced to try your Compound Syrup of Hypophosphites, and have derived great benefit from its use, and whenever I am troubled again with the old complaint I shall always have resource to your Syrup, feeling sure of obtaining relief from its use. I am, sir, respectfully yours,—FANNY HAINES.

*The most unhappy person in the world is the Dyspeptic.* Everything looks dark and gloomy; he feels "out of sorts" with himself and everybody else. Life is a burden to him. This can all be changed by taking Peruvian Syrup (a protoxide of Iron). Cases of 27 years' standing have been cured by it.

MARAVILLA COCOA. *As a breakfast table is complete without this delicious beverage.*—The Globe says:—Various millioners and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopathic and invalids we could not recommend a more agreeable or valuable beverage. Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate Seam, Mills—Brick Lane, London, Exports; Chicory Mills, Bruges, Belgium.

## NATURAL Wines of France.

QUETTON ST. GEORGE & CO., OF TORONTO

ARE importing into this country the Natural Wines of France without admixture, a fact which may be considered a boon to the public, and especially to invalids. These Wines are selected in France by Mr. St George himself, an hereditary proprietor of extensive vineyards in that country. The high character of this firm is a sufficient guarantee that these are not only bought, but sold in their native purity, whilst they may be purchased at prices within reach of all. The celebrated Chemist, Professor Croft, has further settled this question of purity, by his Analyses of them, a report of which has been published.
