The ratepayers of Walkerton will be getting round shouldered this year carrying money to the town hall, the Council having met on Tuesday night and fixed the tax-rate for Walkerton at 30 mills on the dollar. This is a raise of 2 mills over last year's rate.

Mr. Wm. Morgan's horse ran away with a load of grain on his farm in Brant on Wednesday morning last and crashing into its breast, making a wound from which it eventually bled to death. The horse was a splendid 5-year-old roadster and valued at about $175.

The Saugeen river which is ignored altogether on the greater maps of the world and depicted but dimly on even the minor ones, is nevertheless the most expensive luxury that the ratepayers of Bruce have to put up for and with today. Of the total sum expended for county purposes in Bruce, it is estimated that within the past few years nearly one-half has been spent in bridging the Saugeen river alone.—Herald and Times.

In an effort to stop trespassing on its tracks, the C. P. R. had twenty-six brickmakers at Milton fined a nominal sum for going by the tracks, as has been done for twenty years, on their way to and from work.

Priceville Jottings

Held over last week

The temperature is rather too high lately to suit the average citizen. Numbers of people sleep at night out on the lawns or in hammocks under the trees.

Fall wheat is a fine crop, though not extensively sown in this locality. Oats, barley and peas are fairly good. We understand that George and E. B. Ostrander sowed one bushel and three pecks of wheat last fall and threshed a few days ago 94 bushels besides what fell on the floor. Who next!

There has been considerable discussion about here over commercial fertilizers as a manure. Some farmers say that they "are afraid that the said fertilizer would only act as a stimulant and then leave the land poorer than before." Well, if a man does not know what his poor field requires in order to raise a profitable crop he can get a report from the government or experimental farms regarding fertilizers for certain crops. There have been a few small tests made in this locality with some of these fertilizers, and we will soon know what the result will be.

Mrs. White, who has been residing with her daughter, Mrs. B. Meddaugh, for some time, was seriously ill last week but seemed to improve considerably the beginning of this week.

Mrs. Robertson returned home a few days ago, accompanied by her daughter, Mrs. Chapman and children, of Toronto, also Miss Ruby Robertson is at home with her mother for a few weeks.

G. McTaggart is ill at present with pneumonia and typhoid fever.

Mr. Walker, who got badly injured in the ball game on our civic holiday, is improving at present.

Miss McQuarrie, north line, who was ill for several months with lung trouble, passed away on Aug. 15. Interment took place in the cemetery one mile west of the village.

The Orangeville Sun says:—Frank Harrison, one of the veteran conductors of the C.P.R., has been transferred to the Teeswater run in the place of Conductor Robert Osbourne, who along with Baggageman Robert Bradley, has been superannuated. Frank commenced his railroad career on the old Toronto, Grey and Bruce away back in the seventies and has been on the job ever since. Mr. Harrison has many friends up this way and they all wish him every success. There has been a big improvement on the Teeswater branch and with Joe. Walker and Frank Harrison on the job it should get more like a railway every day.

Wodehouse Doings

An electric storm, accompanied by a heavy rain, passed over this vicinity on Friday morning last. Though many would have finished harvesting, everyone was thankful to see the long-looked-for rain. During the storm Mr. Jacob Lougheed's barn was struck by lightning, and though not fired, was somewhat damaged.
