Say, why is it that a community always delights in scandal? Why, the woman in her simple white uniform is a credit to her sex, but behind the noble profession she adopted lies a broken heart wrapped in a life's tragedy. Even so, every dark cloud has its silver lining, and may joy and good luck attend her in her future career.

Roy Van Horne has laid an information against two farmer boys residing east of Walkerton, charging them with the theft of seven of his mink traps. A search warrant was sworn out and Chief Ferguson went to the boys' home on Friday and discovered the missing traps.

Of the five cases on the docket at the general session, which are being held before Judge Barrett here this week, that of McArthur vs. McArthur has been settled. This was an action brought by Mrs. Duncan McArthur of Lovat, against her neighbor and nephew, John McArthur, who she alleges, assaulted her on the highway near her home on Oct. 8th, and for which she asked $500.00 damages. The case was settled here out of court by the accused paying her $275 damages and signing papers not to molest her again.

Not since the pardoned thief went to Paradise has a robber been living in greater bliss than the culprit who broke into the hen-roost of Mrs. Thos. Coats of Brant and annexed one hundred and twenty-five of her spring chickens. For a one-night haul and a successful get-away this probably takes the cake even in in these days of big things. Chicken dinners and foul suppers on such a scale, especially in this period of hard times and tight money, is enough to tempt the honesty of the travelling public who drive by and smell the broth, and who have themselves probably dined on nothing healthier than fried crumbs and liver. The party who "lifted" her chickens wanted also to sample her turkeys, as two young gobblers mysteriously disappeared a night or two later, and the fact that one of them has since come back leads her to believe that the thief doesn't live over a thousand miles away.—Herald and Times.

Wm. Dwinnell, of the Penetang Road, two miles from Dalston, was convicted of stealing turkeys from Lashman Currie of Oro. He is said to have sold some of the turkeys to Rosenfeldt, the junk dealer, and in the meantime Dwinnell will be given a chance to repay the $9.52 he received for them and return four now under his barn. The case attracted considerable attention from residents of the district.

This malicious report is entirely fictitious and the disgruntled hoodlum who originated it is requested to apologize immediately or he will be obliged to appear before a tribunal not wholly crmposed of the long suffering citizens of Riverdale.

A Big Cheque

The Provincial Treasury is something over two million dollars richer to-day than it was at the beginning of last week. The cheering difference is due to the receipt by Hon. I. B. Lucas of a cheque for $2,134,080 from the Federal Government, representing the Timiskaming and Northern Ontario Railway, endorsed by the Dominion Parliament last session.

The money will become a part of the consolidated revenue fund, and will, of course, be applicable to anything for which the Ontario Government may desire to use it. The receipt of the cheque, however, opens the way for the reconstruction of the southern portion of the T. & N. O. to reduce the grades nearer to those obtaining on the northern section, and along the Transcontinental The surveys and estimates for the work have all been ready for some time, and all that is needed is the decision of the Government to go ahead.

Consul Wesley Frost, stationed at Charlottetown, Prince Edward Island, reports that a small flock of karakul sheep is to be imported into that province from Texas. These are the sheep from which Persian lamb is made Prince Edward Island has recently achieved considerable notoriety through its remarkable lucrative fox-breeding industry, and leading raisers of foxes are backing the new enterprise. It is proposed to cross the karakul sheep with the long-wool sheep of the Island, which are celebrated for the fine luster and strong fiber of their wool, in the expectation that a strain of hybrids will result having the tight curls of the karakul at birth together with the gloss and strength of the local breeds.
