Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing **Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints,** ***and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.***

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has **PERUVIAN SYRUP** ***blown in the glass.***

The Royal Canadian Insurance Co

AUTHORIZED CAPITAL $5,000.000.

THE present rates for Fire Insurance throughout the Dominion (the result of combination among the various Insurance Companies) are, it is believed, not only excessive, but unnecessary; and however severe the losses to those Companies may have been in the late calamitous fires in Chicago, Boston and other cities in the United States, the losses in the business of Insurance throughout the Dominion do not warrant the great increase which has lately taken place in the rates.

Such being the case, this Company represented by the wealthiest merchants of the Dominion obtained a charter during last session of Parliament, and are now prepared to do business at moderate rates. The promoters can with full confidence rely on the citizens of Kingston giving this Company a liberal support; the Directors pledge themselves that in the event of loss claims will be settled in the most liberal manner, and risks will be taken on their merits irrespective of any Company.

CAUTION.

GENUINE PANCREATINE! AND PANCEATIC EMULSION.

The efficacy of these Medicines in the treatment of Indigestion, Bronchitis or Pulmonary Catarrh, Consumption, Wasting, &c., depending entirely upon their purity and strength, Messrs SAVORY & MOORE caution the public against imitations of them which are set forth as possessing the remedial properties of the true preparations, but which are in reality either saponaceous compounds, ointments or pomades without a trace of the Pancreatic principle and entirely unfit and useless as medicines. These imitations are calculated to produce serious disappointment and to injuriously affect the reputation which the Genuine Pancreatine and Pancreatic Emulsion have acquired. It is therefore highly important that purchasers examine the labels on the bottles for the names and Trade Mark of

"SAVORY & MOORE,"

The Original and only Manufacturers, Chemists to the Queen, H.R.H. The Prince of Wales, H.I.M. Napoleon the Third, His Highness the Khedive of Egypt, &c.,

143, New Bond Street, London.

Extract from an Analytical Report upon a foreign specimen of a so-called Preparation of Pancreatine.

"This compound resembled an Ointment or Pomade in appearance and consistency, and was flavoured with Essence of Almonds or Prussic Acid. It was strongly alkaline, indicating free alkali, which acting upon the fat, produced the usual saponifying result; the whole forming a granular moist mass of fat, soap, glycerine and water. This ointment was physically and chemically different from the true Pancreatic Emulsion which I have also examined and which, besides being rich in Pancreatic juice, has the delicate smooth appearance and consistency of fresh cream; is palatable and readily taken."
