Rev. James Dudgeon preached a most inspiring sermon to young women in the Methodist church Sunday evening from the 144th Psalm, twelfth verse: "That our daughters may be as corner stones, polished after the similitude of a palace." The congregation was a large one, notwithstanding the severity of the weather.

The Flesherton hockey boys went to Dundalk Friday night to play a friendly game but as the result proved it was anything but a friendly game or a game of any kind. The Flesherton boys refused to finish the game, paid their own expenses and came home. They say the Dundalk men refused to obey the referee.

Some of our exchanges noticed blackbirds as having been seen in various localities during January. The editor of this paper saw one near the town the first week of last month. But it took Mr. Geo. Watson to bring physical proof that some at least of the blackbirds have remained with us all winter. On Monday he found one in his stable, where the stormy weather had driven it. He captured Mr. Blackbird and brought it to The Advance office as a curiosity. The bird is of male persuasion, a splendid, glossy fellow in good condition, and exceedingly pugnacious. He is at the present flying around this office and appears quite at home. He makes a handsome mascott.

Quite frequently farmers from far north of Markdale sell on this market, but of course the Standard would'nt give it away for the world.

Village Council

The village council met on Monday evening with Reeve McTavish and Councillors Wilson, Fisher and Blakeley present. The The clerk was instructed to write the commission for information re the requirements for an inspector. F. H. W. Hickling presented an account of $11.38 for supplies furnished W. Fields while in quarantine. This was ordered to be paid.

Surveyors Heard From

The hydro surveyors are not making as fast time as was anticipated, but are moving north from Fergus. A despatch from that town dated Monday of this week says:

Eight surveyors started north from Guelph over the proposed hydro-electric railway line in the cold and storm, but, in spite of this, the men arrived here, having completed their work this far. They came up from Guelph here as direct as possible, paralleling the road in places, but always through the farms which will be purchased for a right of way. They did not go to Elora at all, as the Elora Council did not make application for a survey.

An action for damages in connection with the sale of timber in the township of Euphrasia came up before His Honor Judge Widdifield at the County Court last week. The judge reserved judgment. The action was brought by the plaintiff, Clark, against Neely for $700 damages for timber sold and the defendant laid a counter claim against Clark for $1200 which he said he had sustained by the plaintiff not properly sawing his timber. Altogether about twenty witnesses were called to give evidence regarding the effect of bad sawing on timber.

Cistern Filters.

Cisterns that are properly constructed and receive rain water from roofs generally afford water of good sanitary quality, but if water of doubtful quality is stored in cisterns the supply is of course not safe for domestic use. Filters used in connection with cisterns are of value in making the water clear, but are generally of no value in removing disease germs. Many cisterns are divided into two parts by a brick wall, the water being admitted into one compartment and drawn from the other. In such cisterns the water passes through the brick and in that way is improved in clearness and color, but not generally in sanitary quality.

Misplaced Kindness.

"Isn't Bugsby the kind-hearted chap who built the luxurious patent kennel for stray dogs?"

"Yes."

"How did it work?"

"After he was bitten seven times while trying to coax the dogs to enter it the Humane society locked him up for cruelty to animals."

Easily Seen.
