A Catholic Organ on Protection.

The *Evening Post*, of Montreal, a pretty hot Catholic paper, independent in politics, deals at some length with the trade question, and unequivocally condemns the policy which is so pertinaciously adhered to by the present Government. We quote the concluding paragraphs of the article:—

"Thus, it will be seen that Canada is ruined by importation; because she consumes it all, and converts none of it into really wealth, because she has neither foreign nor home investments made, from which interest might come to meet the amount, or part of the amount of her imports, and because, instead, she is largely indebted to foreign nations for money borrowed. Canada must; therefore stop importation and produce for her own consumption, and if, as is claimed by the Protectionists, a readjustment of the tariff is essential to this, the sooner we have it the better.

Among other things, at present the *Globe* discusses the balance of trade, and the tariff, as affecting the interests of Canada. But our contemporary is greatly in error; and of this, the gross inconsistency of its own arguments should thoroughly convince it, unless, indeed, it is already convinced.

It advocates that the balance of trade against us, which has averaged some $25-500,000 annually for the past eleven years or aggregated $212,294,000 in that time, is in no way injurious to our national interests and growth, notwithstanding our backward condition in industry, and that as we have already shown, we consume all our imports. The reader who accepts such a theory from the *Globe*, or from any other journal or theorists, is, indeed a queer sort of a patriot. And we fear there are many such patriots in our midst—especially in election times."

The Marquis of Lorne.

The appointment of the Marquis of Lorne to the Governor-Generalship of Canada appears to be regarded with general approval, and has every prospect of success. The Marquis is one of the few promising heirs to great houses, more than one of which, such as those of Russell and Fitzwilliam, have lost by death eldest sons who held out hope of future distinction. It is not expected of him that he will ever do great things, but he is very clever and accomplished, is said to be of most amiable and engaging manners, and the line he has taken on the Eastern Question, so utterly opposed as it is to that adopted by his father, the Duke of Argyll, shows that he knows how to think for himself. Personally, I should think, his removal to a scene where he will have a semi-regal position will be peculiarly acceptable to the noble lord, whose status, as a member of the Royal Family by marriage only, has sooth to say, been a somewhat invidious one. It is a notorious fact that his connection with the reigning house has not been regarded with entire cordality by every branch of the court, however heartily it may have been approved by the Queen herself. There are high personages who have on more than one occasion shown a disposition to give their noble relative what is commonly called "the cold shoulder," and it is probable that the change from his position at the English court to that which he will enjoy in Canada will be for him a decided change for the better. The advantage which Canadian society will gain in having the Princess Louise at its head will, of course, be immense, and the prospect of it is, no doubt, enthusiastically welcomed. With the exception of the Americans, perhaps, there is no community who so thoroughly enjoy contact with royalty as our colonists. They may speak slightingly of the institution itself, but they have the profoundest personal regard for its representatives, and it is believed that the residence of the Princess Louise in Canada will have the happiest possible effect.—*Liverpool Mail.*

Electors of Kingston.

Where manufactures flourish land and its products are most valuable.

Vote for Sir John Macdonald and the encouragement of home industries.

The nation which persists in exporting its raw material, will end by exporting its men.

Every dollar sent to pay for foreign manufactures is so much taken from the country's working capital.

The farmer near the market is alway enriching, while the farmer far from a market is always impoverishing his land.

The nearer the producer to the consumer the more profitable to both, hence the plough and the loom should be neighbours.

A tariff is only a tax when levied on goods we cannot produce. Home competition converts it into a tax on our foreign rivals.

Canada needs encouragement to home products, employment to labour at living wages and developement of her natural resources.

If the United States is allowed to monopolize the trade of each of the separate provinces of the Dominion, political annexation is only a question of time.

MrCartwright in his circular to the capitalists of England had to acknowledge that notwithstanding the expenditures of the late Government on public works, it had annual surpluses in the Treasury. *The present Government has increased the taxation three millions and has annual deficits.*

Remember that the Mackenzie Government has declared against encouraging home industries. You know the benefit of having manufactures in the city. By its policy the Government has closed several establishments in Montreal and elsewhere. Vote against the candidate of the men who have declared war against Canadian industries.

Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime is prepared with the finest *Cod Liver Oil*,—one of the most esteemed remedies in the catalogue of the "Materia Medica,"—*Lacto-Phosphate of Lime*, which enters so largely into the formation of bone material and other important tissues of the body,—*Phosphorus*, the great nerve and brain tonic and invigorator, in a form and combination most desirable to obtain its fullest effects, together with *other valuable remedial agents*, not the least of which is iron, the great blood-producing element. These are all intimately combined in one demulcent fluid of homogeneous appearance and delicate flavour, possessing remarkable power in arresting the decay and supplying the waste constantly going on in those abnormal conditions of the system affected by such diseases as pervert and impair nutrition, vitiate the blood, and *sap the vital forces*. It is highly recommended for Consumption, Chronic Bronchitis, Coughs, Scrofula, Scrofulous and Syphilitic Ulcers, Tumours, Diseases of the Bones, Joints and Spine, General Debility, Emaciation, and all Impurities of the Blood. It is particularly adapted to Delicate Females in those low states of the system that manifest themselves in so many of the ailments peculiar to their *sex*? To the *aged and infirm* its nourishing and invigorating properties will give renewed strength and buoyancy of spirit; and to *very young children* its continued use will be found of incalculable benefit, as its tonic and nutritive properties supply the blood with strength-giving materials for bone and muscle structure, and thus furnish the foundation for *strong and healthy constitutions*. It is very pleasant to the taste.

Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B., and for sale by Druggists and General Dealers. Price $1.00 per bottle; six bottles for $5.000.

CARD.

To the Electors of the County of Frontenac.

GENTLEMEN,—

I intend submitting my name to the next general convention of the Conservative Association of the County of Frontenac as a candidate for re-election to the Local Legislature of the Province of Ontario.

D. D. CALVIN.

Kingston, Aug. 19.

THE STANLEY "ETHIOPIC ELIXIR"

IS THE LATEST INTRODUCED AND

BEST OF MEDICINES

For aiding Digestion, arousing Torpid Livers to a healthy action, curing Jaundice, regulating the Bowels, purifying the Blood, banishing Dyspeptic symptoms, Loss of Appetite, Sick Headache, Languor or Depression, and in their stead gives Life and renewed ENERGY and VITALITY to the whole system.

For Sale at King's Drug Store at 50c and $1 per Bottle.

Professor Dupuis' opinion of the above-named Medicine as a CHEMICAL COMPOUND is as follows:

"I have carefully examined the composition of a Tonic Compound known as the STANLEY ETHIOPIC ELIXIR, and have found its ingredients to be wholly vegetable, and of reputed medicinal value. It contains no incompatibles, no mineral or other poisons and it might be taken in even abnormal doses without producing serious consequences. I believe it to be thoroughly safe, and reliable, as far as it is a Chemical Compound."

(Signed) N. F. DUPUIS,
Professor of Chemistry, Queen's College, Kingston, Ontario.

We, the undersigned, certify to whom it may concern, that having personally or in our families, used the STANLEY ETHIOPIC ELIXIR referred to by Professor Dupuis in his certificate, cheerfully commend it to the public as being in our judgment an excellent Family Medicine:

R. J. Kilbeck, Telegraph Operator.
M. W. Strange, P.M.
