UNITED STATES MAILS.

Through Mails for New York, Boston, Oswego and Cape Vincent will be closed at 10.30 a.m. and 5.30 p.m. daily, Sundays excepted.

ORDERS IN COUNCIL.—LIST OF THE RAILWAYS TO RECEIVE AID.

Orders in Council approved by His Excellency the Lieutenant-Governor:—

February 28, 1872.

The Committee of the Council have had under consideration the application of the Toronto and Nipissing Railway Co., for aid under the Act in aid of Railways, and they advise that, subject to the ratification of this order in council by resolution of the Legislative Assembly, payment be authorised to be made out of the Railway Fund to the said Company, on fulfilment of the conditions of the said Act, of a sum equal to two thousand dollars per mile, of that portion of the said railway between the village of Uxbridge and the point of intersection of the portage road in the township of Eldon, and of a sum equal to three thousand dollars per mile of that portion of the railway between the last mentioned point and Coboconk.

The committee further advise that payment be authorised in respect of any portion of the said Railway, not less than 20 miles in length on the fulfilment of the conditions of the said Act, as to such portion, and on proof to the satisfaction of the Lieutenant-Governor, in Council of the existence of a *bona fide* and sufficient contract for the completion of the works on the remainder of the line between Uxbridge and Coboconk.

Certified.

J. G. SCOTT.

Executive Council Chamber,
28th Feb., 1872.

No. 2. Recommends payment to the Montreal and City of Ottawa Junction the sum of $2,000 per mile between intersection of the Province Line and the City of Ottawa.

No. 3. Recommends payment to the Wellington, Grey and Bruce Railroad of $2,000 per mile between Harriston and the southern boundary of Carrick, and 2,000 between the last point and Southampton.

No. 4. Recommends payment to the Hamilton and Lake Erie Railroad of $2,000 per mile between Hamilton and Jarvis.

No. 5. Recommends payment to the Kingston and Pembroke Railroad of $2,000 per mile between Kingston and a point 20 miles North of Kingston, $2,650 per mile between the last point and a point 15 miles further north, $3,250 per mile between the last point and a point 23 miles south of Pembroke, $2,650 per mile between the last point and a point 16 miles south of Pembroke.

No. 6. Recommends payment to the Canada Central Railroad of $2,650 per mile between Sand Point and Pembroke, on certain conditions.

No. 7. Recommends payment to the Toronto, Grey and Bruce Railroad of $2,000 per mile from Orangeville to Harriston, and $2,000 between Orangeville and Owen Sound.

No. 8. Recommends payment to the Midland Railroad of $2,000 per mile between Beaverton and Orillia, not including the branch to St. John Lake, on condition that running powers be granted to the Grand Junction Railroad between Beaverton and Orillia.

No. 9. Recommends payment to the Toronto, Simcoe and Muskoka Railway of $4,000 per mile between Orillia Village and Washago.

No. 10. Recommends payment to the Grand Junction Railroad of $2,000 per mile between Belleville and Lindsay.

THE RAILWAY FUND APPROPRIATION.

The amounts of the several grants and their aggregate totals are as follows:

	Miles.	Mileage.	Total.
Toronto & Nipissing Road — Uxbridge to Portage Road	33½	$2000	$67000
Portage Road to Coboconk	12½	3000	37500
Montreal & Ottawa City — Province Line to Ottawa	66	2000	132000
Wellington, Grey & Bruce — Harriston to Southampton	53½	2000	107000
Hamilton and Lake Erie—Hamilton to Jarvis	32	2000	64000
Kingston and Pembroke—20 miles north of Kingston	20	2000	40000
Next 15 miles	15	2650	39750

Toronto, Simcoe & Muskoka	22	2000	44000

Dominion of Canada.

The erection of Christ Church Cathedral is to be commenced at Victoria, B. C., in the spring. It is to be a magnificent edifice. An organ to cost $2,000, has been ordered from England.

A serious charge is pending against a member of the Police Force, Ottawa, for concealing the birth of a very handsome little boy, which happy event occurred in the seventh year of connubial bliss.

The Ottawa *Citizen* regrets to learn that Mr Thomas Clark, who was injured by a smash up on the Grand Trunk, while on his way to Ottawa, with the horse "A One," has been taken seriously ill from the effects of the injuries he received, and is now in a precarious condition.

Mr Austin and seven of his staff left Ottawa on Monday, *en route* for Montreal River, to continue the survey of that portion of the Canadian Pacific Railway. In the party is an old soldier who, in the Crimea, was one of the gallant "six hundred who rode through the Valley of Death with Lord Cardigan.

The Bank of British North America is issuing $4 notes from a new plate. The note has a neat appearance. The Royal Arms are at the head; on the right is Justice seated, with scales and sword, and so on; on the left is "Ceres," also seated, with sickle, wheat sheaf, &c. The word four is printed in green ink.

The medical men of St. Catharines, of all schools, are fearfully excited over an innovation of one of their number. This gentleman proposes taking care of the people's health on the Chinese plan, viz: To be paid $5 a year by each head of a family, so long as the members thereof are in good health, and receive nothing when any one of them is sick.

The Ottawa *Citizen* says a movement for the establishment of a Normal School at Ottawa city has been set on foot and will be vigorously prosecuted. There are many reasons why such an institution should be established at the capital, and we hope to see the idea carried to a successful issue by those who have taken it in hand.

The Victoria (B.C.) *Standard* says:—We were reminded yesterday of the fact that our Ministry is a Masonic one—that all of the members are Masons. Again, the four city members are Masons; that the member who expects to be Speaker is also a Mason, and how many more in the House we are unable to enumerate.

We regret to learn that Joseph Canniff, Esq., formerly of Canifton, but for a considerable number of years a resident of Limerick township, died a few days since after a very short illness. Mr Canniff occupied a prominent place, politically and otherwise, for a long time in Thurlow. He was one of our oldest inhabitants, and was much respected.—*Intelligencer.*

"THE MAIL."—We shall expect to see the prospectus of the new Conservative paper to be started in Toronto soon. Mr J. Blackburn of the London *Free Press*, is said to have gone to New York to purchase the plant, and Mr E. Farrar, formerly of the *Telegraph*, has gone to London to take Mr Blackburn's place.

The Ontario *Gazette* announces that the following gentlemen have been elected Members of the Council of the Agricultural and Arts Association of Ontario for the ensuing year, viz:—District No. 1, Archibald McNab; 2, Hon. James Skead; 3 Andrew Wilson; 4, Irvine Drummond; 5, Nathan Choate; 6, George Graham; 7, George Murton; 8, J. C. Rykert, M.P.P.; 9, Hon. David Christie; 10, Hon. Robert Gibbons, M.P.P.; 11, L. E. Shipley; 12, Stephen White. As we announced last week, the last named gentleman has been elected President of the new Council.

The Toronto *Globe* cannot help having an occasional slap at the Roman Catholics. Strive as it will to be civil to them, our contemporary finds how difficult it is to rid itself of long-cherished habits. A few days since the *Globe* stated that the Bishop of Rimouski had "excommunicated a resident of the County of Bonaventure, who, in disobedience to a pastoral letter of his Lordship voted for Mr Hamilton, Protestant candidate, at the last local election." This statement was false from first to last, and the *Globe* has been compelled to acknowledge that the Bishop of Rimouski has never pronounced sentence of excommunication against a resident of that county for any purpose whatever.

"Clear Grits" seems now to be the established name of the anti-Union party in Nova Scotia. A British Columbia paper dubs its local opponents "Me-ites" on account of their (alleged) excessive devotion to personal interests. There is room in this wide Dominion for a considerable variety of political phraseology, and probable, before long, we shall see some original and striking terms brought into use. Let us trust, however, that our people will never descend to such inventions as they delight in on the other side of the line, scallawag, carpet-bagger, copperhead and the rest. "Clear Grit" does not in itself signify anything very bad—only a certain narrow hard-headedness, and inflexibility, an unimaginative, unemotional, and *therefore* uncompromising kind of temperament. "Me-ite" is too barbarous a term to survive. Our friend of the Victoria *Colonist* must invent something better than that if he wants to give his enemies a name that will stick.

The Nonconformists of England, embracing the various Protestant denominations outside of the Established Church, have lately held a conference at Manchester to devise measures for securing modifications of the Education bill of 1870. This bill allowed the endowment of denominational schools; and as the Episcopalians and the Roman Catholics had for a long time been very active in organizing such institutions, while the Dissenters had very few, the effect of the law was to extend national support to a great number of schools under the control of these two churches, while the Dissenters received very little benefit from the education fund. This condition of affairs is not pleasing to the Nonconformists of Great Britain, who form a large, wealthy, and influential party, and they now insist that education in the national schools shall be not merely unsectarian, but wholly secular. The position taken at the Manchester Conference was that the state should furnish schools, and that education should be compulsory; but that no state aid should be afforded to any school in which religious instruction is given. The Nonconformists of England formerly insisted as strenuously upon the reading of the Bible in all schools as the members of the same denominations in this country now urge the same policy; but since they find that unless national education is completely secularized the Episcopalians and the Catholics will have an advantage over them, they have abandoned their position on the Bible question, and now are fighting for a school system in which religious instruction of any kind shall be strictly prohibited.—*N. Y. Sun.*

Fellows' Compound Syrup of Hypophosphites not only supplies the waste going on in the brain, but will enable the mind to endure a greater tax than before. It will impart vigor and promote clear conception to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.—*Adv.*

COUGHS.—A medicinal preparation in the form of a lozenge is the most convenient. Brown's Bronchial Troches allay irritation which induces coughing, giving relief in bronchitis, hoarseness, influenza, consumptive and asthmatic complaints.—*Adv.*

There are probably a hundred or more persons in this and neighbouring towns who daily suffer from the distressing effects of kidney troubles, who do not know that Johnson's Anodyne Liniment is almost a certain cure. In severe cases great relief may be obtained, if not a perfect cure.—*Adv.*

We notice that the Agricultural papers all over the country recommend the use of Sheridan's Cavalry Condition Powders.—*Exchange.*

Farmers and others in this section have long known and appreciated the advantage of these powders over all others.—*Adv.*

SPECIAL NOTICE.

BATCHELOR'S HAIR DYE.

This splendid Hair Dye is the best in the world. The only True and Perfect Dye. Harmless, Reliable, and Instantaneous; no disappointment; no ridiculous tints, or unpleasant odour. The Great English Quarterlies

—AND—

Blackwood's Edinburgh Magazine.

Reprinted

BY THE LEONARD SCOTT PUBLISHING COMPANY,

140 FULTON STREET, NEW YORK,

At about one-third the price of the originals.

The Edinburgh Review,
Westminster Review,
London Quarterly Review,
British Quarterly Review.

Published Quarterly—January, April, July, October—and

Blackwood's Edinburgh Magazine.

(A facsimile of the original.) Published Monthly.

TERMS OF SUBSCRIPTION.

For any one of the Reviews	$4.00	per annum
For any two of the Reviews	7.00	"
For any three of the Reviews	10.00	"
For all four of the Reviews	12.00	"
For Blackwood's Magazine	4.00	"
For Blackwood and one Review	7.00	"
For Blackwood and any two of the Reviews	10.00	"
For Blackwood and three of the Reviews	13.00	"
For Blackwood and the four Reviews	15.00	"

Postage two cents a number, to be prepaid by the quarter at the office of delivery.

CLUBS.

A discount of twenty per cent will be allowed to clubs of four or more persons. Thus: four copies of Blackwood or of one Review will be sent to one address for $12.80; four copies of the four Reviews and Blackwood for $48, and so on.

To clubs of ten or more, in addition to the above discount, a copy gratis will be allowed to the getter up of the club.

PREMIUMS.

New subscribers for the year 1872 may have, without charge, the numbers for the last quarter of 1871 of such periodicals as they may subscribe for.

Or instead of the above, new subscribers to any two, three, or four of the above periodicals, may have, as premium, one of the 'Four Reviews' for 1871; subscribers to all five may have two of the 'Four Reviews' for 1871.

Neither premiums to subscribers nor discount to clubs can be allowed unless the money is remitted direct to the publishers. No premiums can be given to clubs.

To secure premiums, it will be necessary to make early application, as the stock available for that purpose is limited.

Circulars, with further particulars, may be had on application,

THE FARMER'S GUIDE

To Scientific and Practical Agriculture, by Henry Stephens, F.R.S. Edinburgh, and the late C. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven.

Two vols., Royal octavo. 1,600 pages, and pumerous engravings. Price $7; by mail, post paid, $8.

CHOLERA, DIARRHŒA, &c.

EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been raging fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.

"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*

TOWLE'S CHLORODYNE.

The Original Preparation of known Composition.

From Dr C Kidd, Author of Standard Works on Chloroform.

Sackville-street, Piccadilly, London.

Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. CHARLES KIDD, M.D.

To Mr Towle, Chemist, Manchester.

A Surgeon from New York writes:—"I only requires to be known to be appreciated. I have no hesitation in characterising it (viz. Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."

NOTE.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside

LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.

JAMES SHANNON, Publisher.

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.

Purifying drinking and other water from organic matter, lead &c.

Freshening the air of close places, and removing bad smells.

Freeing meat, fish, butter, or other provisions from taint.

Counteracting the effects of organic poisons taken into the stomach.

Curing Musty provender. Freeing wheat and other seed from smut.

Maintaining the health of plants in pots and conservatories.

Preserving and restoring the freshness of cut flowers kept in water.

Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.

Washing dogs and other domestic animals.

Cleansing bottles, beer barrels, pickling tubs, dairy utensils.

Washing the hair and darkening its colour when turning grey.

Enhancing the purifying and invigorating effects of baths and tubs.

Dressing poisoned wounds and destroying animal virus.

Treating the infectious diseases of cattle, horses, dogs, &c.

One gallon makes 200 to 800 gallons adapted for use.

N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.

To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.

CONDY'S PATENT OZONISED WATER,
(FOR TOILET PURPOSES,)

Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.

H. BOLLMAN CONDY,
Patentee, Battersea, London.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE," and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale—amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this article secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of the substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

ORANGE CERTIFICATES and Lodge Summons may be obtained at the DAILY NEWS OFFICE. Orders by mail promptly attended to. Devices for every description of Orange printing kept on hand at the DAILY NEWS STEAM PRINTING HOUSE

FELLOWS' Compound Syrup of Hypophosphites.

AS ALL LIFE-ENDOWED BODIES, whether they be beasts, birds, reptiles, insects, or even zoophytes and subjects of the vegetable kingdom, are governed by vital force, which binds all the springs of existence; and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed boon to the world.

Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened.

This, then, is substantially the basis on which Fellows' Hypophosphites is built; its direct action is upon the blood, the brain and nervous system, and the muscles. Strengthening the nerves, it causes the rapid distribution of vitalized blood in the muscular organs of the body.

Rousing the sluggish heart and liver, strengthening the action of the stomach and bowels, and enabling the lungs to be fully inflated with oxygen.

It is adapted for all cases of weakness and emaciation, whether arising from a sedentary life, a tropical climate, from fever or debility, from any cause, and is efficacious in pulmonary consumption, many confirmed cases having been cured, and all benefited, where its use has been continued over a fortnight.

In bronchitis it is a specific, and in asthma it gives relief where every other remedy fails.

For nervous debility it stands unrivalled and may be used with confidence in all cases.

As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for Fellows' Syrup, and take no other.

Sold by Apothecaries. Price $1 50; six for $7 50.

JAMES I. FELLOWS, Chemist,
St. John, N.B.

HOUSES TO LET.—We invite attention to the advantages presented by the DAILY NEWS as an advertising medium for Houses to Let. Enjoying by far the largest local circulation, it presents the widest publicity to these announcements. Persons having houses to let cannot do better than advertise the fact in the DAILY NEWS.

THE DAILY NEWS is kept on sale every day at the Book Stores of Mr John Henderson, Princess Street, and Mr Edward Stacey, King Street. Single copies may also be had at the Publication Office, Princess Street. PRICE TWO CENTS

The Daily News

IS PUBLISHED every lawful evening Five Dollars per annum, payable in advance. Subscribers who receive their paper by mail are charged Five Dollars.

The Chronicle and News

IS PUBLISHED every Friday morning, and contains the news of the week. It embraces a large amount of reading, and is furnished at Two Dollars per annum, paid in advance. Address orders to the publisher.

JAMES SHANNON.
