STEAM COAL.

THE FORMER ADVERTISEMENT for Tenders for Coal for Kingston Penitentiary and Rockwood Asylum, dated 23rd April, has been withdrawn, and the following is now substituted for it:—

SEALED TENDERS,

Endorsed "Tender for Coal," will be received at the office of the undersigned until

Monday, 10th June next, at noon,

from parties willing to contract for the delivery of

2,100 Tons, of 2,240 lbs. each, Large Coal,

1,400 tons of which to be delivered at the Coal Shed, Rockwood Asylum, and 700 tons at Coal House, Kingston Penitentiary.

The Coal to be clean and free from slate, and a Certificate must accompany each cargo, distinguishing the Mine from which the Coal has been taken.

The whole of the Coal must be delivered on or before the 15th October next.

Two responsible sureties, whose real signatures must be given in the Tenders, will be required for the due fulfilment of such contract as may be entered into. Parties tendering will please state from what Mine the Coal is to be taken.

There is safe and convenient wharfage accommodation at each Institution for mooring vessels.

S. P. JARVIS, Lieut.-Col., D.A.G.,
Kingston.

R. Gage,

ARCHITECT, MARBLE BLOCK, Princess Street.

Kingston, May 25th, 1872.

To the Public of Canada.

OFFICE OF THE
JOSEPH HALL MANUFACTURING COMPANY,
OSHAWA, ONT., MARCH 8, 1872.

Being desirous of testing the merits of the different water-wheels now offered for sale in Canada, as to their economical use of water, we as manufacturers of the GENUINE JAMES LEFFEL DOUBLE TURBINE, make the following challenge to the manufacturers of ANY WHEEL now made in Canada, whether it be IMITATION of the JAMES LEFFEL DOUBLE TURBINE or any other pattern, the wheels in all cases to be wholly manufactured by the competing parties:

We will place in the hands of any responsible party six thousand dollars ($6,000), the party accepting the challenge to do the same, the money to be held subject to the award of the judges. The wheels to be tested in a flour mill, driving the same runs of stone, grinding the same wheat, and having the same number of square inches of opening to receive the water, the amount of water discharged to be the measure of the amount used by each wheel.

The judges to be non-residents of Canada, and to be thoroughly well informed in the mode of testing the power of turbine wheels—each party to choose one judge, and the two to chose the third.

The owners of the winning wheel to have their money refunded them, and the loser's money to go towards establishing a mechanical free library in any town in Canada named by the owner of the successful wheel.

The wheel to be tested at ¼, ½, ¾, ⅞ and full gate.

Each party to give good and sufficient bonds, to the amount of $4,000, that the loser shall pay the entire expenses of the test.

There are some wheels that give very good results with full head and full gateage which entirely fail under partial head and partial gateage. Such wheels in our climate, where the water-powers are affected by both cold and drouth, are of no practical value.

We claim that we are the only makers of the GENUINE JAMES LEFFEL DOUBLE TURBINE WHEEL in Canada, and that it is without a RIVAL in the WORLD IN PRACTICAL RESULTS.

More than 6,000 of these wheels are now in operation in Canada and the United States. The sales of no other wheel ever yet introduced on this continent exceed one-sixth this number.

Our wheel has been thoroughly tested in GREAT BRITAIN, and has fully maintained the reputation it has gained in Canada and the United States, as the most economical water-wheel in practical operation ever yet introduced.

We are now publishing a new descriptive water-wheel pamphlet containing 150 pages of valuable matter, which will be sent free to all applicants.

For further information address,

F. W. GLEN,
Oshawa, Ont.

N.B.—We desire to call attention to the following certificate:—

SPRINGFIELD, Ohio, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr F. W. Glen, of Oshawa, Ontario, Patterns, Formers, Drawings, Guages, and all other necessary information to build our celebrated Double Turbine Water-wheel, invented by James Leffel, and known as the "Leffel Wheel." We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given to Mr Glen, no one can successfully build our wheels, and we advise parties in Canada to purchase our wheels of no other manufacturer. Mr Glen's facilities are unsurpassed, and we feel sure that he will build a wheel that will give perfect satisfaction. We therefore commend him to the public of Canada with entire confidence, feeling sure he will manufacture a wheel in all respects equal to our own.

[Signed,]

JAMES LEFFEL & CO.

May 20.

The Daily News.

FRIDAY EVENING, MAY 31.

Dominion of Canada.

The Picton *Times* says:—The Quail tied to the wharf all day on Saturday—and there yet. Cause, we are told, row between engineer and captain; the former gone.

A large moose strayed into Mr J. W. Smith's barn-yard, Spring Hill, Halifax, on Thursday, and was seized by his dog, and finally captured. When dressed he weighed 500 pounds.

As the Government has not sufficient equipments for all the cavalry lately gazetted in different parts of the Dominion, it is probable some of the Troops will have to perform their annual drill without full equipments.

Mr Thomas Reynolds will leave Ottawa in a few days for a short season of salmon fishing in York River, Gaspe, of which he is a lessee. He will be accompanied by Col. McNeill, C.M.G., Military Secretary, and Capt. Butler, late of the 69th Regiment.

We had the pleasure of meeting to-day the Rev. Mr Lauder, who has apparently quite recovered from his recent illness. We understand the rev. gentleman will preach to his congregation as usual on Sunday next.—*Ottawa Free Press.*

In political circles matters begin to move in Toronto West, or as the new division would have it, Centre. Joel Crawford will be elected sure. He is highly popular. His wife and family connections are of the old, honest, square Sherwood stock, and this name alone is a host. No opposition can defeat Mr Crawford.

British Columbia exchanges received to-day advise us of the death, on the 14th instant, of Hon. David Cameron, formerly Chief Justice of the Colony; of the resignation of Mr J. P. Booth, as a member of the Local Assembly; and of the appointment of Hon. Henry Holbrook, as President of the Executive Council of the Province.

The Presbytery of Manitoba met at Little Britain on the 6th of March. Four ministers and two elders were present. A missionary was asked for—one who can speak the English and French languages—to labour at Pembina. Of the three congregations in the Presbytery two ask to be allowed to use instrumental music. The request was granted.

We learn from the St. Catharine *Times* that the apple orchards in that neighbourhood promise an immense crop of fruit this season. Should nothing happen to blight the prospect, Niagara District will have about 250,000 barrels of apples to export next autumn. Other fruits, including peaches, promise well, but many grape vines have been killed by the severity of last winter.

An Ottawa correspondent writes: I understand that there is no truth in the story which has been persistently circulated by the Toronto *Globe*, that Hon Minister Morris is to be the successor to Mr Archibald as Lieut.-Governor of Manitoba. I learn on good authority that, so far from this being settled, the question of appointing a successor to Lieut.-Governor Archibald has not even yet been considered by the Cabinet.

The annual meeting of the Montreal and City of Ottawa Junction Railway Company was held at the Commercial Hotel, at Lancaster, on Tuesday. The following were elected to the Board of Directors, for the ensuing year: D. A. Macdonald, M.P., President, Alexandria; Archibald McNab, Breadalbane; Edward McGillivray, Ottawa; Alfred Brown, Montreal; John Rankin, Montreal; Hon. James Skead, Senator, Ottawa; James Frazer, Lockgarry; Peter Kennedy, Notfield; C. D. Chisholm, Treasurer, Alexandria; John R. Wilson, Solicitor, Alexandria; Wm. Bristow, Cornwall, Secretary.

Col. Moffat, Brigade Major, and Capt. Smith, Quarter-master of the District, are in Windsor making arrangements for what is to be the "greatest camp" even seen in Ontario. The Essex *Record* says it is hoped than an effort now being made to obtain mission to bring over from Detroit the Light Guard of that city, a body of well-drilled men, on some day during the continuance of the camp, will prove successful; and that a friendly competition in target practice and company drill be brought about. The corps is willingly to come, and we are sure the Canadian boys would be glad to receive and treat them well. The London and Goderich artillery will come down on the 18th, and the infantry on the 19th.

This morning we were shown quite a number of mineral curiosities R. Law, Esqr's office, in the shape of amethysts, of blue, white, purple and rich bronze colours to the number of between twenty-five and thirty; also specimens of the silver ore from Silver Islet, Thunder Bay. They were obtained by J. B. Elleson, Esq., Chatham *Planet*, while on a surveying expedition in company with Mr Donelly, P. L. S., who intends donating them to a museum in connection with an Academy, in which he received his education in the town of Tain, county of Ross, Scotland. They are well worth an inspection before they are packed for exportation.—*Hamilton Spectator.*

ONTARIO AND QUEBEC RAILWAY.—At a meeting of the Provisional Directors of the Ontario and Quebec Railway, held in the Canada Central Railway Office, Ottawa, on the 23th inst., the following gentlemen were appointed managing Directors of the Company; Sir Hugh Allan, Andrew Allan, Esq., George Stephen, Esq., Hon. A. B. Foster, Hon. A. Morris, Hon. Billa Flint, and Beaubien, Esq., of the Northern Colonization Road.

We are in daily expectation of beholding H. M.S. Tamar, steam into our harbour, having on board the 87th Royal Fusileers, to be quartered among us, it is thought, for a lengthened period. The gallant Royal Irish, as they are familiarly called, we understand are not sorry to exchange the heat of Malta for the more temperate and enjoyable climate of Nova Scotia, more especially as, on their arrival here, they will be under the immediate command of there own Colonel, H. E. Lieut.-General Sir Hastings Doyle, K.C.B. We feel assured that our citizens will accord his renowned regiment a welcome reception, and not forget at the same time to wish goodspeed to our parting friends the 61st, who will not soon be forgotten in Halifax.—*Halifax Reporter.*

A gloom has been thrown over the city today by the receipt of the intelligence of the death by drowning of a party of surveyers on the Upper Ottawa. It appears that Arthur Hamilton, E. J. C. Abbott, George Knoat, and G. Rochette, belonging to division C. of the Pacific Survey, had completed their work and arrived at the mouth of the Montreal river *en route* for home. Hamilton and Abbott returned to Fort Temiscaming to settle up some accounts, and on returning to the depot undertook to bring down Knoat and Rochette, in a two fathom canoe. They were traced to a point some three miles above the mouth of the Montreal river, when the party went ashore and lit a fire. This was on the 20th inst., they evidently embarked again and hugged the shore, until they came to the mouth, and it is thought they were swamped in crossing. The canoe was recovered about five miles below on Thursday night, bottom upwards with a satchell attached. Every effort is being made for the recovery of the bodies, but so far without success, and this fact has given rise to some hopes that the party may, in spite of appearances, be safe. Gentlemen well acquainted with the country hold out expectations that this may be the case.—*Montreal Gazette.*
