EUGENIA

We extend our sympathy to our pastor, Rev. S. Elliott, in his sad bereavement. His sister, Mrs. Craver, of Winnipeg passed away on Tuesday of last week.

On Sunday evening the Y.P.U. had charge of the service in the church. The message was given by Mr. Argyle Martin, president, who took as his text "Fear not, they that are with you are more than they that are against you" which brought out the great Christian faith of Elijah and Elisha. There was only a fair attendance as the weather was stormy and the roads in poor condition.

We are sorry to report Mrs. Len Latimer not very well at present.

Miss Lillian Magee has accepted a position in Toronto.

We extend our sympathy to Mrs. Richard Park in the loss of her brother-in-law, the late Mr. Beaton.

Relieve Winter Aches

If your car was built like a man you would simply administer a tablet to relieve it of the aches developed during the Winter.

But, what you can't expect the tablet to do to your car, our factory-trained mechanics do —efficiently, economically, promptly.

Their skilled attention to your car, now, may reduce present operating costs and will certainly save you a lot of needless trouble and expense later on.

You know that the constant motion, stress and strain of driving is bound to loosen up any car, particularly when extremely difficult conditions prevail — like those of winter. This part gets out of adjustment; that one develops too much play.

Individually, these matters may seem small, but taken all together, they can result in a lot of avoidable trouble. They should be attended to before they reach the point where they become costly to service.

By having all of them serviced at one time, you get the benefit of a saving in time and labor which keeps the costs surprisingly low.

Come in and let us report your car's condition. If it is satisfactory, we'll tell you so and it will cost you nothing—if it is not, we'll report the trouble and give you an estimate on the cost of repairs. In any case, you will benefit by coming in now.
