JOHN MILLER & CO.

Kingston, Nov. 7, 1851.

TO THE ELECTORS OF THE COUNTY OF HASTINGS.

GENTLEMEN,—The Elections are close at hand, and it will soon be your privilege as well as duty to appear at the Polls to record your votes. Every attempt will be made by my opponents to hoodwink and deceive you as to my votes on the subject of the Clergy Reserves and Rectories as well as those Reforms which are necessary to give the people that power which has been too long withheld from them, by the old irresponsible retarding party. It will be my duty as far as is practicable, to place those votes before you, that you may judge for yourselves whether there has been anything inconsistent in the course pursued by me. In the meetings I have held, I have come to you depending on the justice of my cause and have not asked the assistance or the speeches of my supporters from Belleville, to aid me in those measures I have to take my opponent, drawn in my train a host of Lawyers and others to plead my cause but single handed I have, when permitted to do so in peace, given you my views on those important subjects which demand consideration at your hands.

I have the proud satisfaction of knowing that I have not directly attended or indirectly through my friends annoyed Mr. Murney at any of his meetings; and although I am accused by his Belleville friends as well as by himself of treating him unfairly that I had thrown down the gauntlet, and that I had backed out, being afraid to meet him and his friends; I can assure them it is untrue. I had no desire to stir up neighborhood strife, nor could I have supposed (until I saw it) that Mr. Murney would have done so. He promised to publish my votes, but I have not seen them. I am perfectly willing he should do so if he pleases but I hope he will publish the whole in connexion. Providence permitting I shall meet him on the day of nomination, when I trust fair play will be shown me, and I shall be able to explain my votes to the entire satisfaction of my supporters, if not of (at least some portion of) my opponents.

At McKim's School house, a few of my friends from Belleville attended; they would not have done so, but for the *hoot* that followed Mr. Murney; and at that or any other meeting I have held, I have not refused to answer any question put by the people at the close of my address,—which has generally given satisfaction.

I believe that the Electors in Townships are as capable of understanding and of asking questions as the would be aristocrats of Belleville, who at Huntingdon with Mr. Murney interrupted me repeatedly during my address, contrary to the word given by the man they delight to honour,—and which caused me to abandon the meeting.

I think Mr. Murney fears that his craft is in danger,—hence the ungentlemanly opposition which has been given me.

Yours &c.,
B. FLINT, Jr.

Belleville, 10th Nov., 1851.

Government Notice.

For sale by Wholesale to Country Merchants.

JOHN DUFF.

Kingston, Nov. 11th, 1851. 268

TO THE
Electors of the County of
FRONTENAC.

GENTLEMEN—

I received a requisition from the Freeholders of your County, numerously and influentially signed, soliciting me to become a Candidate.

A reluctance on my part, arising out of personal considerations, to become a Candidate for any constituency, and, indeed, an aversion to face the storms of public life, have greatly stood in the way of my acceding to the call. However, the presentation of four requisitions, and the urgent and continued requests of men, whose character and views I highly appreciate, have imposed upon me the obligation of deciding, and that at once. I have considered the matter anxiously, deeply, and thoughtfully, and at last find myself constrained to waive all considerations, and to place my services and abilities in your hands, at your disposal.

Being now committed to the coming contest, I am bound to cooperate with you in all proceedings necessary to secure the end in view.

In the prosecution of this contest let each and all of us act with moderation and good sense, like men who sincerely desire to serve the sacred cause of truth and public freedom, based upon the constitutional rights of the people, and those civil and religious liberties, which are so dear to the heart of every Briton. I view the duties of a Member of Parliament as of no ordinary character: his responsibility is great; the importance of his duties vast. The man who receives the suffrages of a people should spare no pains, omit no exertions, or fear no danger, in the cause of the people and good government.

I am of opinion that it is the interest of all classes to maintain the free constitution of this Province in its integrity, and to send men to Parliament who will see that it is worked out honestly and faithfully, for the benefit of the people, and not for the interest of a class or a privileged few.

Civil and religious liberty will find in me, as it has always found, a devoted friend and faithful advocate.

Perfect equality of civil and religious rights and privileges may be looked upon as the corner stone of the constitution, the birthright of every Canadian. In Parliament or out of Parliament I will maintain this principle at every hazard.

Agriculture lies at the foundation of all improvement; national prosperity is based upon it; without the efforts of the farmer the country would become a waste and a wilderness, and our towns and cities desolate. It is true the Provincial Legislature has not entirely overlooked the interests of agriculture; but much remains to be done. Every effort should be made to secure the highest remuneration for the production of the soil. Every encouragement which the state can command should be freely and fairly extended to the farmer.

The construction of Railroads, and other mediums of cheap and speedy communication is admirably calculated to increase the rewards of the agriculturist for his productions, by enhancing the value of grain and lowering the expenses of transportation. I am ready to support such works of utility, taking good care that the interest of Canada shall be the first consideration, and that no additional burden shall be laid on the industry of the people.

The splendid achievements of the Arts and mechanical skill, aided by the light of Science and inventive genius, may be looked upon as the peculiar glory of the present age. The fostering of Science; the promotion of the liberal and useful arts by Legislative encouragement, will be warmly supported by me, as no country under the sun affords so ample a field for the skill of the artisan and the researches of the lover of science than this magnificent Province.

The common sense of all men points out the necessity of increasing and equalizing the Representation of the people in Parliament. Is it not preposterous, is it not absurd that the little town of Cornwall, with a population of 1500, should have the privilege of returning one member, when the fine county of Frontenac, with a population of over 15,000, has only the same privilege? Such a state of things should not be tolerated. By an increase of representation there would be three farmers returned for every one. Now I am ready to support a comprehensive measure for increasing the Provincial representation.

Popular education should be among the first objects of a free Government. A comprehensive system of cheap education must be of immense interest to any country. By its influence public morals will be improved, crime repressed, order promoted, life and property made secure, and the character of the country elevated at home and abroad. I am of opinion that an improvement might be made in our present system of providing funds for common school purposes. The utility of the present system of taxation for school purposes is not clear to my mind. It is possible, should a proper inquiry be instituted, that it would be found out that funds arising from other sources, now of little or no use, or squandered for purposes of no public utility, might with great advantage, be appropriated to the noble purposes of education. This is a subject above all others in which I feel a deep and vital interest. I trust the day is not distant when the humble cottager and the poutest man in the remotest township of the Province will have an opportunity of giving a cheap, practical education to his children. Such a consummation can be accomplished, but not until men of patriotic minds, and liberal and enlightened views, are sent to Parliament.

Should I have the honor of being your Representative, my exertions, humble as they are, will be honestly and zealously exercised to promote such public measures as will contribute to the substantial interests of the County of Frontenac, and the prosperity and happiness of the Province at large. I will endeavor to visit every Township in the County without delay when I will explain my views fully upon the various public questions of the day.

I have the honor to be,
Gentlemen,
Your faithful servant,
KENNETH McKENZIE.

Kingston, Nov. 7th, 1851.

Another Living Witness of the Hydropathic and Botanic Medicines, from CAPTAIN McMASTER.

I WISH to inform the Public, for the good of the afflicted, that I was very unwell with a cough and inflammation of my lungs and chest, which threatened my whole constitution. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, when I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

FRANCIS McMASTER.

Amherst Island, 23rd Aug., 1851. 212

SEEING and hearing of so many testimonials for Dr. Lanktree's Medicine, brings me to recollect my duty both to him and the public; for I was some time ago, to the knowledge of many in this city, given over as an incurable case, with Enlargement of the Heart and Liver Complaint, and was effectually cured by him; also, lately, I was in despair with a Dropsical Swelling, and obtained immediate relief, so that I am now able to do my business well, thank God.

FRANCIS JERVIS.

Kingston, 30th August, 1851. 212

I FIND that I am in duty bound to state to the public far and near, that I was very ill since 1843 with the effects of a hurt, which disabled my chest and spine, in such a way that I became debilitated all over my person, and unfit for any business, but pining away all the time; and hearing of so many persons cured of different complaints by Dr. Lanktree of Kingston, I went to him and by the use of his medicine, and advice as to what food I should use, I can now certify to all that I am fully restored thank God, to my family and perfect health again.
