Child Burned to Death

A sad fatality occurred last Friday morning in Holland Township near Berkeley when a little five year old girl was burned to death. Mrs. Rowe, who resides near Berkeley, went out to the barn on Friday morning to do some work and left her little five year old child alone in the house. The child was playing about and as she did so spilled a coal oil can near the stove. The oil caught fire and ignited her dress, so that when the mother came back to the house she found the little one terribly burned. She called medical aid but nothing could be done and death ensued a sa result of the severity of the injuries.—O. S. Times.

To the Electors Of Centre Grey

Meaford, June 10th, 1914

At the Rowell Convention, including both Liberals and Conservatives, held in Clarksburg on the 9th inst, I was nominated as the candidate of the Rowell platform to abolish the bar. The nomination was not sought by me, but I was assured that if I consented to accept the nomination the temperance men of both parties would support me. The Rowell temperance platform means (1) the immediate abolition of the bar, including therein the abolition of all hotel and club licenses and therewith the treating system; (2) such other restrictions upon the residue of the liquor traffic as experience may show to be necessary to limit its operations and effectively to remedy its evils; Local Option to be maintained as a means of wiping out the residue of the retail sale where the electors so decide; (3) the strict enforcement of the law by officials in sympathy with the law enforcement and the elimination of political influence from the administration of the law; (4) the regulation and inspection of all houses of public entertainment so as to insure reasonable accommodation for the travelling public. In brief, the abolition of all hotel licenses and club liquor licenses and the treating system abolished. Shop licenses will come under further restrictions. They can be wiped out by Local Option on a majority vote where the electors so decide. New shop licenses cannot be issued in the place of bar licenses abolished.

The Rowell policy of temperance reform is that adopted unanimously irrespective of party affiliations by the temperance and Christian forces of the Province in 1902 and pressed upon the successive governments from that day to his.

This is a most significant contest. It is a rare opportunity for the electors of the whole Province towards temperance and moral reform.

The liquor interests and Government forces of the Province are arrayed against this policy, and if it fails to receive the support of the electors it will indicate that the temperance people are not behind temperance reform, and the temperance cause will receive a set-back.

I ask your hearty support of this policy. Owing to the short time before the elections on June 29th, and the sickness in my home, I may not be able to see you personally, as I should like to do. If you give me your vote and I am elected I stand pledged to support the above policy.

Yours faithfully,
Geo. G. Albery.
