Treated in Notre Dame

A. J. Forgue Had Chronic Catarrh so Badly His Lungs Were Affected—Tried in Vain for Relief—Ozone Cured Him.

"I consider it a great duty to write you in order to tell you all that Ozone did for me. About 15 years ago I contracted a grave attack of catarrh. I took nothing for it as I did not understand the nature of the disease. Two years ago complications set in and the discharge from my head tainted my lungs, which became very weak. I took treatment at the Hospital "Notre Dame," Montreal, for catarrh and from our family physician for the lungs. I also had remedies sent me from the United States, but all without results, as I was in worse shape every time I changed remedies.

"Ozone made its appearance. I got a free bottle from your Montreal agent on May 24th last and took it according to directions. I can swear to you that when I finished that bottle I felt better than ever before in my life. My appetite is good, no more vomiting, my lungs are strong, my catarrh has disappeared, and I am sure that with Ozone I will become a man again a better man than ever before. Never will I be without Ozone, now that I know it is the only remedy for perfect health. Doctors do not approach where Ozone is. One of my sisters, who has been sick for many years, has commenced the Ozone treatment. Once more I thank you for all that your good Ozone has done. I remain, yours respectfully,

"A. J. FORGUE, St. Constant La Prairie, P. Q."

Catarrhal trouble is due to inflammation of the membrane linings of the nose and throat. You probably pay no attention to a cold—the cold congests the linings and makes the surface of the membrane open to the attack of the germs of the catarrhal disease. The foul mucus taints the throat passages and often attacks the lungs themselves. You can destroy the catarrh germs without injuring the nasal tissues by applying Powley's Liquified Ozone to the nose in the form of a douche—one part Ozone to eight of water. Then by taking the regular internal dose you supply the system with oxygen and make all the tissues healthy—so that the germs of disease cannot operate in the lungs. There is no other preparation that will give you relief for chronic catarrh like Powley's Liquified Ozone. You know what oxygen is—you know how it feeds the blood and makes all the body healthy. Ozone is not a medicine—not a combination of drugs—and contains no alcohol.

50c. & $1.00 at all Druggists. The Ozone Co., of Toronto, Lim., Toronto & Chicago.

The Doctor's Story

When the matter of Foods for Infants and Invalids came up for consideration,

Sir Chas. A. Cameron, C.B., M.D.

Ex-President of the Royal College of Surgeons, Ireland, pronounced

NEAVE'S FOOD

"An excellent Food, admirably adapted to the wants of infants and young persons."

Mrs. A. EVANS, of The Hollies, Withington, near Manchester, writes: "Gentlemen,—I am sending photo of my little girl, age two years, brought up entirely on Neave's Food, and a more healthy child could not be found. There is no doubt it is excellent Food, and so easily prepared. Many of my friends have asked me what I give them, and when told Neave's Food, have tried it, and in every instance found it satisfactory."

UNITED STATES CONGRESS.

ITS SESSION WILL BE A MOST NOTABLE ONE.

The President's Message—Many Important Matters to be Considered—A Concise Outline of The Questions.

(Special to the Whig).

Washington, D. C., Nov. 30.—Unless all signs fail the fifty-seventh congress, which will be given birth at noon, the day after to-morrow, will be one of the busiest and most important of recent years. No time must be wasted if all of the questions on the agenda are considered. Under the most favorable conditions it seems probable that the session must be prolonged a considerable time beyond the usual date of adjournment.

Monday will be devoted to the reading of the president's message, which is expected to be one of the most important state papers of recent years. The message has been read before the cabinet, and received its final corrections.

One of the first actions of congress will be to take action in regard to the death of the late president McKinley. Undoubtedly both the house and senate will follow closely the precedents of the two preceding times when presidents fell by the bullets of assassins. When the message of president Roosevelt has been received and read a motion will be made to refer the portion referring to the death of his predecessor to a select committee of one of each state on the part of the house with such as the senate may join. This committee will report a concurrent resolution providing that an oration be delivered before the two houses at an early date.

The main subjects of probable legislative action at the coming session, are: The trusts, internal revenue reduction, river and harbor improvement, construction of public buildings, pensions, revision of the currency and banking laws, irrigation and insular affairs and labor legislation.

Three other subjects will also be urged upon the notice of congress—provision for an isthmian canal, subsidies for the rehabilitation of the American merchant marine and the construction by the government or authorization for private laying of a Pacific cable.

The canal question will prove a long and probably bitter fight. The same opposition that has met the efforts made in the past to build an interoceanic canal, will undoubtedly be active at work this session. The interjection of the Panama canal scheme into the situation will not, in the estimation of well-posted people, accomplish the purpose for which it is alleged to be designed. It is thought that congress will brush aside the Panama scheme at once, and get down to the main question of whether a canal shall or shall not be built via the Nicaragua route, and upon this the bill will be fought.

The demand for a Pacific cable probably cannot longer be ignored. Opinion was divided in the last congress upon whether the government should build and own the cable or whether a private corporation should be authorized to land it. This difference in opinion resulted in failure to act. Hawaii and the Philippines are demanding the cable, and the mercantile interests of the country will probably bring pressure to bear upon congress sufficient to force action. It is the general belief that some kind of a ship subsidy will be passed at this session.

In addition to these important matters, the purchase of the Danish West Indies is likely to receive some attention. It is understood that negotiations having been conducted for some months past have reached a point where they may be carried to a finish here in Washington. The difficulties that beset the agreement have been gradually eliminated until there is good prospect of an early final agreement. If acquired, these islands will undoubtedly become a part of the territory of Porto Rico, the nearest large body of land.

The reciprocity question is certain to give the session much concern. While there is a very general sentiment in favor of reciprocity, there are a variety of opinions as to how far it should go, and what it should embrace. Local and selfish interests are bound to intrude themselves, and make it difficult to reach a conclusion that will bring the desired results.

One or more bills will be introduced in the house to supplement and strengthen the act of 1900, known as the gold standard law. Mr. Overstreet of Indiana, who is regarded as the author of the gold standard law, and a member of the banking committee, has prepared a bill the purpose of which is to require the secretary of the treasury to exchange on demand gold coin for standard silver dollars. The present law makes it the duty of the secretary to maintain all forms of government money at parity, but this leaves much to his discretion, and it is with a view to correcting this and making the exchange mandatory that the Overstreet bill has been prepared.

The question whether or not the war revenue taxes should be reduced may lead to a lively fight between the republican member of the house, ways and means committee.

Just what course president Roosevelt will take respecting these many matters will not be known until his message is submitted. His intention to follow out the policy mapped out by president McKinley will probably be followed, though many republicans, as well as democrats, seem to be of the opinion that he will go a little further, or rather conduct more of an aggressive policy than that of the late president.

Many Become Despondent.

Many persons become despondent because they have been unable to find a permanent cure for eczema (salt rheum) and kindred skin diseases, such as pimples, and blotches. Wade's Iron Tonic Pills will positively cure these ailments and make the skin healthy. Each box contains seventeen days' treatment. Price 25c. at Wade's drug store.

Three applications of Peck's Corn Salve will cure hard or soft corns. In big boxes, 15c., at Wade's drug store.

DEVOURED BY WOLVES.

Gatineau Lumberman Meets With a Frightful Death.

Montreal, Nov. 30.—Word is received here that a young man named Edward Connors, employed at the timber limits at Rock Lake, on the Gatineau, had met his death in a frightful manner. He was attracted by a pack of wolves, and literally pulled to pieces, only small portions of his body being found.

Theatrical Notes.

"The Burgomaster," known on this continent as the twentieth century threatical freak of fortune, has attained 750 consecutive performances since June, 1900. Two companies have been on the road.

Rose Leslie, dainty soubrette of "The Burgomaster," is one of the most divinely formed women on the stage. She has posed for many paintings and arranged with a Montreal photographer to picture her in various poses to illustrate a Christmas story for St. Nicholas.

The choristers of "The Burgomaster" company have formed a club called "The After Thinkers." Its main object is charity. Once a week the girls meet and sew for charitable institutions. Most of the beautiful flowers they receive, find their way to hospitals, and many a gay chap has donated princely to the good cause in lieu of buying a wine supper.

McGoodwin and Maxine Elliot return to America in January to tour in "When We Were Twenty-Two."

Klaw & Erlanger's leading attractions, "Ben Hur," "The Sleeping Beauty and the Beast," and "The Roger Brothers in Washington," are playing to an average business of $45,000 each week. Their opera company in "Foxy Quiller" is beating the records of all travelling musical organizations and "The Liberty Belles" at the Madison Square is taking the largest receipts in the history of that theatre. With these five companies over 1,050 individuals are employed.

A Marriage In Manitoba.

At the residence of Mr. and Mrs. James Keeler, near Hartney, Man., Wednesday evening, November 13th, their daughter Hannah, was married to E. Arthur Shillington, a prosperous farmer of that district. Rev. Mr. Lously, of Napinka, officiated. The bride was assisted by Miss Hattie S. Shillington, a sister of the groom; both wore a costume of white organdie. W. Keefer, the bride's brother, was the friend of the groom. A large company of friends and young people of the district were guests. A rich wedding supper was served. Numerous and valuable presents attested the general esteem in which the bride was held. The groom's present was an elegant diamond brooch. The young couple will reside on their farm.

How It Is Done.

The first object in life with the Canadian people is to "get rich"; the second, how to regain good health. The first can be obtained by energy, honesty and saving; the second, (good health) by using Green's August Flower. Should you be a despondent sufferer from any of the effects of dyspepsia, liver complaint, appendicitis, indigestion, etc., such as sich headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, etc., you need not suffer another day. Two doses of the well-known August Flower will relieve you at once. Regular size, 75c. For sale at Wade's drug store.

When Baby Had Scald Head — When Mother Had Salt Rheum — When Father Had Piles.

Dr. Agnew's Ointment gave the quickest relief and surest cure. These are gems of truth picked from testimony which is given every day to this greatest of healers. It has never been matched in curative qualities in eczema, tetter, piles, etc. 35c. Sold by E. C. Mitchell.—103.

Yale Athlete Weds.

New Haven, Conn., Nov. 30.—In St. John's church at noon to-day Lewis P. Sheldon, the former well-known athlete, was married to Miss Margaret Trowbridge. The bride is the daughter of Mrs. Huntington Dent Trowbridge, grand-daughter of Henry Trowbridge, the millionaire shipbuilder, and great-granddaughter of Noah Webster. Mr. Sheldon was captain of the Yale track team in 1896.

They Sell Well.

Says druggist O'Dell, of Truro, N.S. Want any better evidence of the real merit of Dr. Von Stan's Pineapple Tablets as a cure for all forms of stomach trouble than that they're in such great demand? Not a nauseous dose that makes one's very insides rebel—but pleasant, quick and harmless—a tiny tablet to carry in your pocket. 35c. Sold by E. C. Mitchell.—104.

McKinley Memorial Postal Card.

Washington, D.C., Nov. 30.—The post office department announced today that the new McKinley memorial postal cards are ready for distribution and will be placed on sale during the coming week. The card bears a portrait of the late president McKinley. Around the design is the name McKinley, the dates of his birth and death and the words "Series 1901."

To Fight Whiskey Trust.

Peoria, Ill., Nov. 30.—In distilling circles the opening here to-morrow of the new Corning distillery is attracting much attention for the reason that the new distillery intends to fight the whiskey trust. The new plant has a capacity of 3,000 bushels of corn per day and is considered one of the best plants in the country.

Machine weighs 17 pounds. It is more wonderful than a sewing machine, just as durable, and higher speed.

To Work at Their Homes Under the Direction of

The GLASGOW WOOLLEN CO.

37 MELINDA ST., TORONTO,

To Fill Large Contracts—Good Wages Easily Earned.

A Pair in 30 Minutes

We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract, order form, and remittance, as a guarantee, and we will send machine and outfit to begin work at once.

OUR METHOD OF DOING BUSINESS

We wish to secure the services of families to do knitting for us in their homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada.

After long experience, we have been able to produce an Automatic Machine by which all kinds of seamless knitting is now done by our Family Machine, thereby enabling anyone of ordinary intelligence to quickly learn to do the work from the Instruction Guide. All we require is that you use the machine according to directions. The Machine being made expressly for this purpose, and the operation so simple, it cannot possibly make a mistake in its work.

The great demand now is for Bicycle Stockings, Woodmen's Socks, and Motormen's Mittens, and as we are unable to supply the demand, have taken this method of advertising for more help.

The large export trade to the North-west Territories, British Columbia, and the British Colonies, furnishes an unlimited demand for our goods, and, with the combined co-operation of the many families we are employing, together with the large amount of knitting we are able to turn out, by which we save rents, insurance, interest on capital, etc., enables us to undersell any manufacturers of this class of goods, and we have sale for all the knitting we can have turned out.

The price we pay for finished bicycle stockings is $10.00 per hundred, or at the rate of 10c per pair; woodmen's socks, 5c, and motormen's mittens, 12c a pair. All other work in proportion to size.

The machine can be operated by any one of a family, and at our prices any energetic family should be able to sustain themselves comfortably, and in time be a source of independent comfort.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings and a simple and complete Instruction Guide, showing how the work is to be done. When the samples have been finished and returned to us satisfactory, we send a quantity of yarn, which you knit and return likewise when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as we have stated, is simple and rapidly done, the machine having a capacity of ten thousand stitches a minute. We have many persons now in our employ who can knit from twenty-five to thirty pairs of socks or stockings a day, and where the time of a family is devoted to the work, you can readily see that $15.00 or $20.00 per week can be easily earned.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desiring to take employment with us, who must, in order to become a member, send us this Contract Order Form, properly signed by them, and at least one good reference, and remittance accordingly, to give us the necessary assurance that the quantities of valuable yarn we may send from time to time will not be wasted or misappropriated. Our interests are mutual, and this confidence must be established if we are to succeed. We guarantee fair dealing and prompt payment for work, so do not ask us to deviate from our terms, as we cannot make a distinction with one and not another; besides, we are doing an extensive business, and must be governed by business principles.

The manufactured price of the machine is $15, and positively will not be sold to any others than those who will agree to do knitting for us.

If at any time after you commence, and have done an amount of work equal to the purchase price, and wish to discontinue, we will take back machine and refund the amount paid for same, after deducting cost of our expense only.

There is a Large Demand by the Trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return it promptly. We entrust our workers with large quantities of valuable yarn, and as we give references as to our honesty and integrity, we must you to do the same, in order that we may know with w we are dealing.

We have, in as brief a manner as possible, endeav to show you what our work is, and we simply say as t machine, it is just what we represent it to be, and will tively do everything we claim for it, or refund the mo Each machine, securely packed with an outfit, is set u work, thoroughly tested, and a sock or stocking part knitted before boxing and shipping. Should you decid engage with us, it will be necessary to send us Cash tract Order Form, properly signed by you, and at least good reference, together with the remittance, accordi upon receipt of which we will forward machine and o ready to commence. Respectfully yours,

GLASGOW WOOLLEN CO., 37 Melinda Street, Toronto

Our References—Express Companies, Banks, or Toronto ness Houses.

If you wish to examine the machine and see the terial before undertaking the work, you can do so sending $3.00 as a guarantee of good faith, and to de expense of shipping, and we will send everything to nearest express company, leaving a balance of tw dollars to pay the agent and 25 cents for the return cha on the money to us.

We are so frequently and unnecessarily asked if one learn to knit without a teacher. We say, Yes; it req no teacher; any person of ordinary intelligence who read the Instruction Guide can learn to knit at once.

—ORDER FORM—

$15.00 Cash Contract Order Form.

To the Glasgow Woolen Co., 37 Melinda St., Toronto.

Gentlemen,—I desire to do the work as described in advertisement, and enclose $15 to pay for one Auto Knitting Machine, together with material, instruct and everything necessary for the work, the same to be to me by Express, CHARGES PREPAID.

It is understood and agreed that any time after I done an amount of work equal to the purchase price and wish to discontinue, that the Glasgow Woolen Co. take back the machine and outfit, and after deducting expense, refund me the amount paid for same.
