Kimberley baseball team drove over to Ravenna on Friday afternoon last and played a five inning game with the much tooted team of that place, our boys winning out, the score being 7-6. A feature of the game was the phenomenal catch of Kimberley's left fielder, Jasper Stuart, who jumped into the air and brought down with his left hand what looked like a sure three-bagger. This was the first defeat that Ravenna has sustained this season, and of course it was a hard pill to swallow. Wm. Harr's refereed the game and gave general satisfaction. Batteries—Pinch and Wagg, Leslie and Leslie.

The Hydro Electric Engineers and surveyors were down in our vicinity recently, taking levels along the old Beaver, to see how much power could be developed. We understand that there is 100 ft. head from Henry Weber's on the valley road south to the farm of Henry Hurd about a mile north of our burg. We don't think there is any prospects of the power being developed at an early date.

The return match between our local baseball team and Ravenna was pulled off on Saturday afternoon last. It was a pitcher's duel with our twirler, having the better of the argument. When the smoke of the battle cleared away after a hard fought nine innings game the score stood 14-7 in our boys favor. Walters of Ravenna refereed the game, and gave universal satisfaction.

City Dairy Ice Cream on sale at Wideman's every Saturday night.

William Ritchie, a retired farmer, 80 years of age, was found dead on the floor of his bedroom at the residence of Edward French, where he boarded. He was a widower and is survived by only one son, who lives in the West. An inquest was held and according to medical evidence death was the result of a rupture of the heart, technically known as myocarditis. Mr. Ritchie left an estate valued at about $10,000.

Meaford After 'Em

On Tuesday afternoon Inspector Beckett swooped down upon a consignment of liquor at the station addressed to various individuals about town in care of C. Gibbons. The shipment included seven cases of ale and beer and 1 keg of other moisture, all of which was quietly taken to the Town Hall to await development. Just on what grounds the seizure was made we do not know, but we learn that the Inspector has forwarded some of the foaming moisture to Toronto for analysis. In the meantime Chief Clarke is holding the goods behind the "bars."

Two more cases of infractions of the Local Option law were aired in court this week and it is needless to say that not a few of them realize that the law is in force in Meaford.—Express.

Priceville Jottings

Considerable damage was done by the frost last week to early potatoes, corn and some of the garden vegetables. We also hear bad reports about fall wheat that was well out in head.

There are three contractors with gangs of men putting up cement structures in town—the large sheds at the Presbyterian church and two bridges over the Saugeen.

A hide-bound politician created a scene in the Methodist church last Sunday morning. When Rev. J. A. Lece read the resolution of the conference to uphold the temperance policy of the Liberal party, a certain official of the church disgraced himself by getting up and refusing to listen to a temperance sermon. A number of persons, both in and out of the church, have been waiting to see if this man would prove true in the present campaign to the christian and temperance principles that he professed. His family are highly respected in this community and are no doubt grieving very much this week over the old man's indiscretion.

Mr. Richard Heron is renewing acquaintances here.

We are sorry to report the severe illness of Mr. R. Colquette of Feversham. His many friends wish for him a speedy recovery.

Mr. Fred Hutchinson, while working in the mill on Friday last got his fingers in contact with the sharpener, removing his finger nail.

Mrs. Burrett of Fairmount visited with her cousin, Mr. J. R. Hewson, the latter part of the week.

Take your eggs, butter and cash to D. W. Wideman's, Feversham.

To the Electors Of Centre Grey

Meaford, June 10th, 1914

At the Rowell Convention, including both Liberals and Conservatives, held in Clarksburg on the 9th inst, I was nominated as the candidate of the Rowell platform to abolish the bar. The nomination was not sought by me, but I was assured that if I consented to accept the nomination the temperance men of both parties would support me. The Rowell temperance platform means (1) the immediate abolition of the bar, including therein the abolition of all hotel and club licenses and therewith the treating system; (2) such other restrictions upon the residue of the liquor traffic as experience may show to be necessary to limit its operations and effectively to remedy its evils; Local Option to be maintained as a means of wiping out the residue of the retail sale where the electors so decide; (3) the strict enforcement of the law by officials in sympathy with the law enforcement and the elimination of political influence from the administration of the law; (4) the regulation and inspection of all houses of public entertainment so as to insure reasonable accommodation for the travelling public. In brief, the abolition of all hotel licenses and club liquor licenses and the treating system abolished. Shop licenses will come under further restrictions. They can be wiped out by Local Option on a majority vote where the electors so decide. New shop licenses cannot be issued in the place of bar licenses abolished.

The Rowell policy of temperance reform is that adopted unanimously irrespective of party affiliations by the temperance and Christian forces of the Province in 1902 and pressed upon the successive governments from that day to his.

This is a most significant contest. It is a rare opportunity for the electors of the whole Province towards temperance and moral reform.

The liquor interests and Government forces of the Province are arrayed against this policy, and if it fails to receive the support of the electors it will indicate that the temperance people are not behind temperance reform, and the temperance cause will receive a set-back.

I ask your hearty support of this policy. Owing to the short time before the elections on June 29th, and the sickness in my home, I may not be able to see you personally, as I should like to do. If you give me your vote and I am elected I stand pledged to support the above policy.

Yours faithfully,
Geo. G. Albery.

Eugenia Development Is Now Under Way

The contract let last week for the Eugenia falls development provides for an expenditure of $239,000 on dams, canals and penstocks.

Two dams are to be constructed. The contract for No. 1 dam has been awarded to the Ambursen Hydraulic Construction Company of Montreal. This will be one of the largest works of its kind in the Dominion. The dam will be built of reinforced concrete, 2000 feet long, and with a height from 40 to 50 feet. No. 2 dam will be built by Hyland, Scribbin and White, of Toronto, and will not be as large as No. 1.

Tenders are being invited for the necessary hydraulic and electrical equipment which will be used to develop 4000 horsepower, although the headworks, canals and storage reservoir of the undertaking contemplate an ultimate development of 8000 horsepower.

The municipalities to be served by this development are: Owen Sound, Markdale, Durham, Flesherton, Chatsworth, Meaford, Thornbury, Walkerton, Chesley, Hanover and Mount Forest. When the work is completed this development will be connected with the Severn system at Big Chute, which has been purchased by the Commission from the Simcoe Railway and Power Company, and the Commission is also considering the linking up of Wasdall's Falls, where construction work is now under way.

The Eugenia Falls development will be the second undertaking of the Hydro Commission on its own account, the power which it distributes elsewhere being purchased from private corporations at the present time—notably from Niagara Falls.

Wm. Lovatt, an employee of the Seaman Kent Co., had his right eye torn out while operating an end-matcher at their factory yesterday afternoon about 2.30 o'clock. A piece of board flew back from the machine with the above results. The patient was taken by auto to the Owen Sound hospital, where the eye was removed about 8 o'clock last evening.—Meaford Express.
