"Why don't I call them up?"

Yes, why not? Haven't you often started a letter when your thoughts went a'wandering —made you want to *talk* rather than *write* . . . and, then, within a minute, you heard "Dear Mary"—her own familiar voice.

"And here's Johnny!"

Watch a child's face when he hears Daddy's voice. You wish Daddy himself could see it—then he'd *really* know how much it means to his family, when he calls from a distant town.

"...now I call them *every evening!*"

Somehow you are attracted to a man who says this. In those few words he tells you much about himself and his family. He sets an example by "Going home" every evening—

by LONG DISTANCE

By using low Night Rates (which apply every evening after 7 and all day Sunday), and placing "Anytime" calls—you can talk a long way for very little.
