FOR THE

KIDNEYS, LIVER AND URINARY ORGANS

THE BEST BLOOD PURIFIER.

There is only one way by which any disease can be cured, and that is by removing the cause—whatever it may be. The great medical authorities of the day declare that nearly every disease is caused by deranged kidneys or liver. To restore these therefore is the only way in which health can be secured. Here is where WARNER'S SAFE CURE has achieved its great reputation. It acts directly upon the kidneys and liver and by placing them in a healthy condition drives disease and pain from the system. For all Kidney, Liver and Urinary troubles; for the distressing disorders of women; for Malaria, and physical troubles generally, this great remedy has no equal. Beware of imposters, imitations and concoctions said to be just as good.

Ears for the Million!

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar specimens of small White Shark, caught in the Yellow Sea, known as Carcharodon Rondoletti. Every Chinaman, fisherman, knows it. Its virtues as a restorative of hearing were discovered by a Buddhist Priest about the year 1420. Its cures were so numerous, and many so seemingly miraculous, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for over 300 years no Deafness has existed among the Chinese people. Sent charges prepaid, to any address, at $1 per bottle.

Hear What the Deaf say

It has performed a miracle in my case. I have no unearthly noises in my head, and hear much better. I have been greatly benefitted. My deafness helped a great deal—think another bottle will cure me.

"Its virtues are unquestionable and its curative characteristics, as the writer can personally testify, both from experience and observation. Write at once to Haylock and Jenney, 7 Dey Street, New York, enclosing $1, and you will receive by return a remedy that will enable you to hear as anybody else, and whose curative effects will be permanent. You will never regret doing so."—Editor of Mercantile Review.

FATAL PANIC.

In a German Catholic School—Some Sixteen Children Crushed and Many Injured.

A telegram of yesterday announced the burial of sixteen children, killed during a panic in a German Catholic School on Tuesday. The school is in charge of the sisters of Notre Dame, and over 700 children attended. The fire was of a trivial character, starting among sweepings in the closet beneath the stairs. It had been smouldering for some time and had eaten its way through to the center of the partition wall dividing the hall from the class room in front and crept up to the third floor ere it was discovered. At this moment a visitor called at the school to see one of the pupils on the second floor. The door opens almost opposite and within a few feet of the closet in which the sweepings were burning. The visitor knocked at the door, which was opened by one of the sisters, and almost at the same instant flames burst out from under the stairway.

PANIC TERRIBLE.

The sister hastily shut the door, but not until some of the children caught sight of the smoke, when all efforts to quiet them were in vain. The building is of five stories and has two stairways, one at the east and the other at the west end. These stairways were about three and a half feet wide and opened almost at the doors of the class rooms, but from the play room in the center of the building were approached by a narrow dark passage way. The removal of the children from the fourth floor was progressing quietly and rapidly when the sister in charge of a class of girls fainted. Immediately the class became panic-stricken and a rush was made for the hallway. On the stairs already crowded a deadly crush took place. The railing of the stairs broke and the mass of struggling children was precipitated to the floor below.

FALLING IN A MASS

from four to five feet deep. When the girls on the second floor rushed from their class rooms they had barely reached the head of the stairs, when the scholars from the upper floors were upon them. All fought frantically to get to the narrow stairway. The stairs broke and the calamity which occurred on the fourth floor was repeated. The police and firemen already summoned arrived, but their work of rescue was much hampered by the frightened children, continuing to leap from the stairway, those in front being crowded over the the broken balustrade by the children striving to reach the exit.

SCENES ON THE STREET.

Conveyances soon arrived and the remains were taken to the Fifth street police station, followed by a clamouring, shrieking throng of woman. The bodies were promptly identified by and removed to their afflicted homes.

ALL PRECAUTIONS DISREGARDED.

A survey of the building shows that any precautions for the safety of the children in the school have been utterly disregarded. On four floors there are nine class rooms opening into hallways with stairs running east and west reaching either end of the building. Through the class rooms access can be had to either stairway, but the halls and stairs are separated. In nearly every room the doors open inward, and at the top of the highest flight is a stout wooden gate not easily removed. The school was inspected two years ago, but no recommendations were made respecting it.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle.

If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Diptheria and Cough.

Mr. C. M. Adair of Gladstone, Ont., had an attack of diptheria which was succeeded by a cough. This cough which is described as "dreadful," settled on his lungs. For months his sufferings from it were intense, in fact, until he began using Dr. Wilson's Pulmonary Cherry Balsam. The Balsam calmed his nerves, put an end to his cough, and restored him to perfect health. The action of Dr. Wilson's Pulmonary Cherry Balsam on the nerves is very remarkable. The consumptive is calmed and strengthened by it and put on a far way to recovery.

This explains why more than a million bottles were sold the past year. It relieves croup and whooping cough at once. Mothers, do not be without it. A Run on a Drug Store.

Never was such a rush made for any Drug Store as is now at J. G. King's for a trial bottle of Dr. King's New Discovery for Consumption, Coughs and Colds. All persons affected with Asthma, Bronchitis, Hoarseness, Severe Coughs or any affection of the Throat and Lungs, can get a trial bottle of this great remedy free, by calling at above Drug Store. Regular size $1.00.

People Who Read and Reason, after reading, upon the many published testimonials regarding Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure, can scarcely fail to perceive that evidence as positive and conclusive as could not be adduced in behalf of a remedy of doubtful efficacy. The facts proven by such evidence are that it roots out impurities of the blood, restores digestion, somehow the circulation, and regulates the bowels and liver.

PRISON DISCIPLINE.

The Ill-Treatment in the State Prisons not Duplicated in Canada—an old Statement.

The New York papers have been engaged in showing up the atrocious treatment of convicts in the State Penitentiary. Some of the punishments are of the most terrible character. Men for trivial offences have been flogged, placed in stocks or hung up by the wrists. Only the other day Governor Butler, of Boston, ordered the convicts to send him sealed letters stating their grievances. They did so, and the result was that several of the prison officials were discharged.

The other day a gentleman engaged in the Kingston Penitentiary was met and a conversation ensued in regard to the disclosures made by the New York papers. "The convicts here," said he, "are not subjected to severe punishment. An indignant public would protest such a thing. While convicts are deprived of their liberty they are entitled to consideration, and it is given them. There is very little punishment inflicted, especially since Warden Creighton assumed control of the institution. Flogging is administered in very rare cases. One of the severest penalties is to be deprived of light and that is hard enough to endure. Some hardened fellows are placed in the dark cells, but not for a very long time. Mr. Creighton is one of the kindest yet strictest Wardens that I know of. Justice is tempered with mercy and a convict can always rely upon being patiently heard if he has a grievance to make known. If there is any ground for it it is redressed. The Warden knows the peculiarities of the convicts; I can assert you that he knows the name and crime of each one within the prison walls. In walking around the prison he can tell the name of every one and the term he has to serve. He often chats with the convicts. In this way he gets a better knowledge of their character and the best mode of dealing with them." The gentleman spoke of other circumstances but without bearing on this subject at issue, beyond the fact that he believed no other penal institution could be found better disciplined or better governed.

THE WILMOT ASSAULT CASE.

Some one, signing himself "Fair Play," snaps at the Whig for daring to involve Henry Wilmot in the difficulty which occurred between his brother, the Captain, and Mr. W. Donaldson. We have only to say that although H. Wilmot did not participate in the proceedings which led the unseating of Mr. Donaldson, he knew of them and he did not use his influence to stop them. On the contrary when Mr. Donaldson said perhaps no other man in the Township would act towards him as his brother had done the candidate (then unthought-of for parliamentary honors) turned upon him and said he had no right to complain, he had no right to be a Councillor when he did not possess the necessary qualification. This is Mr. Donaldson's statement and we challenge Mr. H. Wilmot to deny it. The rib-stabber proceeds:

"Mr. Donaldson is not so singularly constituted nor so meanly constituted either, as the Whig would make him out to be, and we are of the opinion that he will not thank that journal for placing him before the public in such a false light."

The Whig has only to say that it has been thanked by Mr. Donaldson and his many friends for its defence of him, a decent man and a friend of the Whig for long years. Mr. Donaldson has been cajoled, and coaxed and beseeched to forget the past, the law expenses to which he has been put were offered to him, every endeavor has be made to mollify him and his win support and good will. He remains manly and independent and will not brook insult for the sake of any party.

PUTTNER'S EMULSION.

The medicinal properties of Cod Liver Oil have long been recognized as superior to any of the agents employed in the cure or arrest, in the incipient stages, of affections of the Throat, Lungs, &c. Modern science has taught that this valuable substance may be advantageously combined with Phosphorus, Lime Soda and other medicinal articles in such a way as to make each and all more thoroughly effective than if employed alone. The inventor of Puttner's Emulsion has made the matter of combining these elements a study, and has evolved from his studious experiments the combination which is denominated Puttner's Emulsion of Cod Liver Oil. In another column will be found the advertisement of the Puttner Emulsion Co., accompanied by certificates as to the merits of their preparation, which cannot be doubted. A careful perusal of these is invited. A trial of their emulsion can be made through any druggist in the Dominion. See that you get it, "Puttner's" when you ask for it.

EUREKA.

READ AND JUDGE FOR YOURSELF.

As a general rule we do not pin our faith to specific remedies; but there is no excuse for skepticism in well developed and authenticated facts. Since its introduction to the American public the great German Remedy, St. Jacobs Oil, has advanced with more rapid strides in the estimation of the public than anything of a similar character ever brought into notice by the aid of extensive advertising. We write this for the benefit of those who may be afflicted with the divers ailments for which the oil is announced as a specific remedy, and we are induced to do this in consequence of the proof of its curative power brought by people who have tested its merit and are anxious to acknowledge the great benefit derived. In the enumeration of such people it is necessary to be specific, and to this end we have obtained their permission to give their names and addresses, in order that the afflicted may have the advantage of a personal interview or postal correspondence, and in evidence that what we write is a candid statement and not a mere puffing advertisement. Mr. Frank Letcher, of No. 432½ West Fifth Street, assures us that for a series of years he was prostrated with rheumatism until life became emphatically a burden. He had exhausted the advertised remedies, and laid lost all faith in the efficacy of anything to afford relief, when a friend, who had tested the virtue of the oil, made him a present of a bottle, and, to Frank's wonder and delight, the first application afforded sensible relief; while before the bottle was exhausted the pains and aches had disappeared. He is a new man, and a walking advertisement of the infallibility of St. Jacobs Oil. Aloyus Reidy, on the corner of Eastern avenue and Lewis street, was afflicted for three years in a similar manner, and is now hale and hearty, although he still continues the use of the oil.

C. O'Callahan, of 171 Sycamore St., is another grateful witness to the infallible power of the remedy, which, he says, has made a new man of him.

Thomas Lewis, of 62 Butler street, was for seven years afflicted with that dreadful malady Sciatica, and being induced to try St. Jacobs Oil, found almost immediate relief therefrom, and is now perfectly cured. He is prepared to substantiate this statement under oath.

John Miller, of 54 West Fifth street, was cured of a complicated case of rheumatism of ten years' standing, and George Hollinger, who lives on the corner of Terrance and Columbia avenues, adds his testimony to its efficacy, and has assured us that his pains were relieved as if by magic.

The above statements are by well known and respectable citizens of Cincinnati, and with all who know them will carry conviction upon the face. Hence it is we deem it a matter of duty to suffering humanity to give them all the publicity in our power.—*Cincinnati Irish Citizen.*

A LIBERAL HEARTED MAN.

John Wilmot, brother of the Conservative candidate in this county, complains that he has suffered by a misrepresentation of his motives in giving to two public institutions while a member of the Council of the Township of Pittsburg. It seems that when the Councillors were voting themselves the usual allowance of $18 each, for attendance at the Council in 1882, Mr. Wilmot objected to take so large a sum, stating that he did not think he had earned it, but that he would consent to take $12 and generously donate the whole of $6 to charity, the amount being equally divided between two city refuges. That his opponent (Mr. Whitney) circulated false stories about his motives is not correct. Mr. Whitney denies that he said anything about Mr Wilmot's liberality and the high price he placed upon his municipal services, but left the issue to the people and they desired Mr. Wilmot to remain at home.

MRS. RODENSTEIN'S TRIP.

A New York paper, referring to Mrs. Rodenstein's remarkable walk, says that in passing through the principal towns and cities, she was received with uniform kindness and respect, was fed and lodged and sent on her way. At no place did she conceal her name and address, and it is very remarkable that, in view of the large publicity given her disappearance, no one should have recognized her. After many weary steps she arrived at Yonkers, where the Rodensteins are well known. Friends surrounded her there, and the rest of her journey, some twelve miles, was made by rail. Her sudden appearance at Dr. Rodenstein's residence startled the inmates, but it was a joyful surprise. She wore a diamond ring all through her trials and no one appears to have attempted to rob her, and for those she met on the way she has no words but of praise.

LETTING IT SHINE.

The talent of Kingston is not allowed to remain under a bushel, but is in active demand, not only in political but in social circles. A trio of events occurred on Thursday and in them Kingstonians took part. The St. Andrew's Church Choir made melody for the people of Sunbury and surrounding country, while a quartette of persons from the Queen Street C. M. Church Choir performed in the musical line at a tea meeting held at Zion Church, Pittsburg. The spread was very large and a happy time was spent. Mr. Galloway, Mr. Crumley and others, including the Cameron Bros., of Queen's University, did good service at a concert at Centreville.

Mrs. W. J. Lang, Bethany, Ont., writes: I was one of the greatest sufferers for about fifteen months with a disease of my ear similar to ulcers, causing entire deafness. I tried everything that could be done through medical skill, but without relief. At a last resort, I tried Dr. Thomas' Electric Oil, and in ten minutes found relief. I continued using it, and in a short time my ear was cured and hearing completely restored. I have used this wonderful healer successfully in cases of inflammation of the lungs, sore throat, coughs and colds, cuts and bruises, &c., in fact it is our family medicine.

It is often asked, "Why does my doctor recommend Cadbury Cocoa Essence?" The reason is that being absolutely genuine and reconcentrated by the removal of the superfluous fat, it contains four times the amount of nitrogenous or flesh forming constituents of the average of other Cocoas which are mixed with sugar and starch. Beware of imitations, which are often pushed by shopkeepers for the extra profit. Sole agent for Kingston, J. S. Henderson, Italian Warehouse.

Last December a convention of School Inspectors for Eastern Ontario was held here, when various suggestions were made in reference to the educational system. In the counties not covered by the Act he is prepared to sanction the issue of temporary certificates. My little daughter was troubled with Catarrh for two years, and was very much benefitted by the use of "Hall's Catarrh Cure." She is now almost cured. W. T. BOURN.

Welland, Ont., March 20, 1883.

I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if the use be continued for a reasonable length of time. W. H. HELLEMS.

Ayer's Sarsaparilla!

FOR PURIFYING THE BLOOD.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the corrupting humors in the system, that innoculate health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action will disorder, and whose substance they disease and destroy. Ayer's Sarsaparilla expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Dyspepsia of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony Fire, Rose or Erysipelas, Pimples, Pustules Blotches, Boils, Tumors, Tetter and Salt Rheum Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pains in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhœa Irritating from Internal Ulceration and Uterine Diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.
