The Methodist choir and organ have been taken in charge by Mr. Mark Everett Wright, Conductor and Organist and Mrs. Emma Tage Wright, Soprano Soloist. Every effort will be taken to make this choir a first class chorus choir. New members are solicited. Those who wish to join call at the studio and have voice tested as to efficiency.

Miss Ella Karstedt is visiting friends in Toronto.

Vernon McGirr, son of Mr. R. T. McGirr, who at one time kept hotel at Feversham, was accidentally shot in the stomach by his uncle, W. J. McAleer, at Hammond, Indiana. A party had been out shooting and were preparing to return home in their auto when the fatality occurred. Mr. McAleer's gun had jammed in unloading and in manipulating it the gun went off. At that moment the victim stepped out from in front of the car and received the full charge in his stomach. He was rushed to the hospital but his life could not be preserved. Vernon (or "Teed,' as he was affectionately called) was a bright young lawyer of Hammond, of the firm of McAleer Bros. He was 24 years of age. Vernon was a nephew of Mrs. Geo. Mitchell, of Flesherton.

Construction work at the big Eugenia development is now in full swing and the concrete is fast being laid on the south end of the big dam. This is known as No. 1 dam, being constructed by the Ambursen Hydraulic Co. No. 2 dam, a mile north, which the Hylands are erecting, has been at a comparative standstill for a week, the big steam shovel having been broken on a large boulder. It was sent to Owen Sound for repairs and was returned on Thursday of last week. Operations are proceeding again there as before. This Company has no difficulty in getting all the men they want, but no one will venture an opinion as to when the contract will be completed. The Ambursen people hope to have their big dam completed by Christmas.

Blaschke—Moffat

A very happy and pleasant event took place at the home of Mr. and Mrs. W. G. Moffat, 8th line, Osprey, on Wednesday, Sept. 3, when their eldest daughter, Gertrude, was united in holy matrimony to W. A. Blaschke of Blair, Ont. The ceremony was performed by Rev. J. Phimister in the presence of a few relatives and friends. The bride carried a bouquet of white roses and lily of the valley. Mrs. Phimister played the wedding march. After the usual congratulations the guests sat down to a sumptuous wedding dinner. The bride received many useful presents, the groom's gift being a beautiful set of Persian lamb furs. The happy couple left on the afternoon train en route to Muskoka, where they will spend their honeymoon. They will be at home to their friends after October 5 at Preston, Ont.

Mrs. John Speers

Mrs. John Speers, one of Osprey's oldest pioneers, prssed away at Feversham on the 26th ult., in her 74th year. The was born in Co. Tyrone, Ireland, and came to Canada with her parents when nine years of age, settling with them in King township, where she was married to the late John Speers. After uniting her future with his they settled in Osprey 56 years ago, on lot 16, con. 12, where they lived until eleven years ago, when they moved to Feversham. Mr. Speers died nine years ago last February. Since his death Mrs. Speers has lived with her two daughters, Maggie and Mary, in Feversham. Two sons survive—John of Clarksburg and James of Feversham. The deceased lady was a member of the Methodist church, and the remains were laid to rest beside her husband in the Buckingham burial ground, where also four children who died in infancy occupy the family plot. Mrs. Speers is survived by only one sister—Mrs. Miller of Whitechurch in Bruce county. Other sisters, now deceased, were Mrs. Wm. Blackburn, Mrs. Robert Henderson, Mrs. Joseph Watson, Mrs. James Hemphill, all late of Artemesia, and Mrs. Wm. Mullen, late of Rob Roy. One brother, Mr. Wm. Watson of Artemesiisa, also deceased.

Those who have been depending on lumbering for their winter's work are likely to go idle this winter, as lumbering on the Manitoulin is almost certain to be at a standstill. All orders for ties have been cancelled, which means that the Indians on the Manitoulin, who have depended on this class of work for several years, will be practically without work, and will possibly have to be supported by the Department.

East Mountain

Rev. and Mrs. Schwalm and two children, Flora and Georgie, of Dundalk, also Miss Mildred Robinson of Proton Station, spent from Thursday until Saturday week with Mr. and Mrs. W. J. Martin.

Nearly Buried Alive

Mr. J. T. McNaughton, of the firm of Perrett & McNaughton, plumbers, steam and hot water fitters of 76 Nairn Ave., Toronto, came near losing his life by being buried in a drain 14 feet deep. The young man was on his knees in the drain replacing a pipe, when, without a moment's warning, the sides of the huge drain caved in. Two men who were digging a drain across the street noticed the accident and rushed to the rescue. It took them over five minutes before they got his head to the surface. A doctor was immediately summoned. Had the young man been buried a minute longer life would have been extinct, as his lungs were on the point of bursting from suffocation. Although the young man's lungs were badly bruised and ribs crushed he is doing as nicely as can be expected.—O. S. Sun.

One of D. Smith's horses got out of the field on to the railway on Friday night, and in attempting to cross the culvert just above Smithdale, got its feet fast between the timbers and fell over the side, in which very painful position it hung for about four hours, when it was found by Mack Gadway as he was going home. Had he not happened along as he did the animal would have died before morning, and there is no telling what might have been the result if the early train had ren into it.—Creemore Star.

Lady Strathcona has given $50,000 towards the maintenance of the Strathcona Horse, raised by her father for the South African war, who will be sent, it is said, as a unit with the Canadian expeditionary force.

THE NATIONS of EUROPE

the cause and issue of

THE GREAT WAR

This is an historical work, but it is of more thrilling and vital interest than the most vivid fiction. The information it contains is not to be found in newspapers nor in school histories. It gives the history of each of the great nations engaged in the European War, and tells of the deep underlying causes of that war as well as both the hidden and apparent forces which have been at work there for years. It tells of the military and naval strength of the countries involved, their financial resources, their area and population. In tells the story of their national growth, the previous conflicts in which they have been engaged, and the race antipathies which have played so important a part in European history.

This war is the great conversation with everyone on every corner. Any person desiring a copy of this book of 500 pages, profusely illustrated, will receive the same by enclosing an order for $1 50 cloth binding or $2.25 half morocco binding.

The dislocation of business produced by any war is bad enough; but in the present case the number of warring nations is so great as to most seriously affect even neutral nations and other continents. Non-combatants in Argentina face ruin from the stoppage of their wheat trade. Per-u declares a moratorium. China will miss her ginseng from the Virginia mts., and must otherwise take medicine. Rubber tires go soaring in price. Boots will do the same while shoemakers shoot each other and the commerce in hides is halted. Children the year over will miss their Nuremberg toys at Christmas. The whole world is paying the penalty for the war madness which has smitten the great nations of civilized Europe. The United States is a neutral power, but its commerce with Germany is dead, and its seaborne trade with other nations largely paralyzed, and it is estimated that it will lose in tariff collections alone from $100,000,000 to $150,000,000. This is one of the results of putting over 17,000,000 men into the business of killing their fellows. And the war has lasted only a month! What will happen if, as Lord Kitchener intimated a few days ago, it should last for a year?—Christian Guardian.

Orillia smelter closed its plant for good last Saturday night. The closing of it hits the town rather hard. It employed a good number of men and was also a splendid customer of the Water, Light & Power Commission.

The editor of the Uxbridge Journal referred in his paper to certain officers who "hid behind their wives' skirts." Major Sam Sharp, M.P., horsewhipped the editor, and Major Sam Hughes praises the whipping, and roasts the editor of the Journal for his criticism.
