Kimberley received a thrill last week, when they saw airplanes circling over the valley It became known that one of them was in trouble and had to make a landing on Duncan Lake. The next day almost everyone who could, went up to see them take off. The pilot made a good and safe landing. The planes were on their way from Camp Borden to Hamilton when, due to wind conditions, drifted out of their way. The gas metre was not working properly and they were low in gas, so we were informed. Through the courtesy of those in charge, the boys were allowed to see the inside of the bombers, which they appreciated.

There is plenty of everything necessary, though certain food-stuffs are to be rationed in the near future. This does not mean a shortage, but as a precaution to make a reserve. London, so far, has been fortunate in keeping out of enemy range, though great preparations were made for the safety and shelter of her millions of inhabitants."

These bright, rosy or yellowish warblers are about eight inches long, and feed generally on confer seeds and seeds of weeds projecting through the snow. They appear to be unafraid of people and the children could get quite close to them.

With some hest and plenty of home treatment he was able to return to work.

We are now into March and in this locality the weather has been really ideal this whole winter. Not too cold, yet not moist or sloppy weather. Some people would not have minded more thaws. The fields were covered early extra well with snow and have had no stormy weather to block the roads very much. Early in the season the snow plow cleaned the shoulders of the road, which has made very good sleighing and yet left good roads for cars and trucks. Even the mail carrier has not had as much trouble finding the mail boxes this year. So, with this record we cannot complain very much, even if the March lion—which has not really appeared yet—does get a bit out of control.

Miss Viota Richardson has been in Toronto for a couple of weeks nursing her sister, Mrs. Robt. Bowering.

Keep Canada's War Effort United!

Experienced Leaders are

VITAL for VICTORY

In six months of war the Mackenzie King Administration has set an unprecedented record of *getting things done* without fuss and fury. Under its steady leadership, Canada has gone ahead on all fronts—war, economic and domestic. With clear heads and with feet on the ground, this group of purposeful men is making every ounce of Canada's weight felt in our fight for freedom. What it has done has been done thoroughly: there has been no loose thinking; no half-measures; no waste of men, money or materials.

Some of the Mackenzie King Administration Wartime Accomplishments

It united Canada as never before— *Every* province is heart and soul behind the Empire's war effort this time, thanks to the Administration's truly national policies.

The First Division, completely equipped, has been sent overseas to a Mother country *prepared* to receive it.

The Second Division is recruited, equipped and ready to go over.

The great Empire Air Training Scheme— sponsored and mainly financed by Canada, has been launched on a planned and ordered basis.

Naval Defence for both East and West Coasts including Air Force, Mine Sweepers and Convoying, has functioned efficiently since the outbreak of War. Of it, a Senior British Naval Authority has said: "No finer work is being done anywhere by the Royal Navy itself."

Price Control of all commodities, including such vital necessities as wool and sugar, has been established, with prices pegged low for the poor man. The profiteer is out, and *will be kept out*—in marked contrast to the free-for-all of the last war.

Shipping Control and Foreign Exchange Control are firmly established on sound lines and are functioning smoothly and effectively.

A $200,000,000 War Loan was over-subscribed within two days of its launching, a record that proves public confidence. Its reasonable rate of 3¼% contrasts with 5½% tax-free rate of the last war.

Political and Private Patronage has been stamped out: merit is the sole basis for selection or promotion in our armed forces.

Great Britain's war financing problems have been lessened through the co-operation of the Canadian Government.

War Contracts totalling well over $100,000,000 have been placed, stimulating every branch of Canadian industry.

Canadian employment has hit an all-time high owing to these orders and to good internal business conditions.

Armament deliveries are approaching full-speed: aeroplanes, Bren guns, tanks, artillery accessories, ships — all coming forward in impressive quantities.

Large purchases of Canadian wheat, — preventing a serious wheat glut — have been arranged through a special mission sent to London by the Mackenzie King Administration.

5,600,000 pounds of bacon will be shipped to Great Britain each week, as well as large quantities of flour and fish.

Huge shipments of steel and other materials essential to the conduct of the war have been arranged for.

Make Your Vote Support Canadian Unity

Such a record simply didn't *just happen.* It resulted from the efforts of a strong administration working on behalf of a country *united in all its parts as never before.* And this singleness of purpose—conspicuously absent in 1914—is due to the vision, understanding and drive of individual *Canadian and Empire-minded* Statesmen who back the Empire's participation in the war with their eyes wide open and with full determination to play their parts to the full.

We appeal to the people of Canada for the support which is essential to carry on and complete a task, the groundwork for which has been laid carefully, soundly, wisely . . . with foresight, determination and resolute courage.

On March 26th show your faith; vote for the Candidate supporting Mackenzie King and help make sure there can be no break in Canada's steadfast stand in these critical times.

FORWARD WITH

MACKENZIE KING
