THE DEFENCE OF CANADA.—An important debate took place in the House on Tuesday night on this question. Mr. Galt asked for $1,000,000 for the erection of permanent fortifications, and the resolution he introduced for the purpose was carried through Committee. The concurrence of the House will be asked.

THE FRONTIER FORCE.—Mr. Galt got an additional vote of $350,000 for this force on Monday night. Its services are to be continued till the 1st September, and partially until the American war is brought to a close.

CRIMPING.—James Hanley and Thomas Fanning were arrested on Tuesday evening in the act of taking a young lad named John Horan to the States to enlist in the Federal army. They were brought before the Mayor yesterday morning, and committed to the ensuing Assizes for trial. They had promised Horan $600, and said they would help him to jump the bounty. Horan's mother is a widow woman, and together with four young children is dependent on him for support.

SHERIDAN'S MOVEMENTS.

RICHMOND IN A PANIC.

Baltimore, March 14.

A returned Union prisoner who reached Annapolis to-day direct from Richmond, communicates some interesting intelligence in relation to the state of affairs at Richmond and Sheridan's movements.

On Saturday night last Richmond was thrown into a state of intense excitement by the announcement that Sheridan was near the city. The alarm bells were rung, and all the home guards and every available man that could be spared was hurried off to repel the Yankees, who were said to be at Beaver Mills aqueduct, on the James River, some 20 miles from the city, and to have destroyed the canal, the main feeder of Richmond. The excitement continued all night, and increased to a panic throughout Sunday, and down to Monday morning, when he left, the alarm still prevailed.

New York, March 15.—The Herald's Newbern correspondent, dated March 11, says: Some of the heaviest fighting there has been since the corps commanded by Gen. Cox reached the vicinity of Kinston, occurred on Friday. The rebels had evidently learned that General Couch with a portion of the 23rd corps was not far off and would soon join Gen. Cox, and it urged them to extraordinary desperation. They charged again and again upon our works, making ten or twelve separate charges through the day. Generally they spent their fury upon the left, but some of the time these would charge upon the entire line, vainly hoping that the momentum of so large a body would break down everything. Our men, however, stood their ground heroically, as attested by piles of slain rebels before our works in various directions. The enemy also fought with valor worthy of a better cause. It was in vain however.

On Friday night and Saturday morning Louck's forces came up from towards Wilmington and effected a junction with Cox, which gave us an advantage of course, which the rebels were not slow in becoming informed of; so they at once began to fall back, abandoning all further opposition this side of the Neuse river, and they are now on the north side of the river, with the bridge that crosses over to Kinston partially burned. The much talked of ram Neuse was also partially destroyed. Our forces followed them up vigorously, and will doubtless prepare to cross over the river at once by means of a pontoon bridge or by relaying new timber over the old bridge for the cars to pass over. I apprehend that there will be no difficulty now in driving the rebels back from any point where they may see fit to make a stand.

NOTE.—This correspondent says Sherman has been heard from at Fayetteville, reporting all right. [Laurel Hill and not Fayetteville is the place undoubtedly meant.]

New York, March 15th.—A letter from Gen. Schofield's headquarters, Newbern, the 11th, says: This morning Hoke attempted to break our lines, but was repulsed with terrible slaughter. Our own loss is not more than 300 or 400 killed and wounded. The rebel loss in killed, wounded and prisoners, is eight times greater. We have possession of the field and the rebel dead and wounded are in our hands. Sanitary supplies are abundant at the front. The Sanitary Commission has sent to Newbern $100,000 worth of supplies, and is loading several more vessels for the same destination. Newbern is to be made a depot for sanitary supplies for the armies in North Carolina.

New York, March 14.—The Times' Army of the Potomac correspondence, dated 11th, says: Deserters report that Sheridan had captured Lynchburg after a short battle.

Fort Monroe, March 11.—The steamer Virginia, Capt. Seider, arrived here last evening from Wilmington. The base of supplies for Gen. Sherman's army in view of his rapid movements northward, is to be established at Wilmington N.C. Gen Sherman's chief quarter-master had arrived at Wilmington, and all the passports and other vessels laden with supplies have been ordered from both Charleston and Savannah with orders to rendezvous at New Inlet S.C. The captain of the Virginia reported having experienced unusally heavy weather during the trip up the coast, and saw ashore off Cape Henry's a brig and schooners high and dry upon the beach.

WM. NIVIN & CO.'S PRICES CURRENT.

Montreal, March 14th.

Foreign advices have no new feature to notice, and operations here are controlled chiefly by local wants and demands for the United States market.

Our receipts of Flour and Wheat are still restricted by the want of accommodation on G. T. R. R., and our exports of coarse Grains suffer from the same cause. Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford great relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now: it has stopped his cough and made his breathing easy: his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with our constitutions that they think medicine will not help them; let not even these despair; incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts unbelievable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine

"WIDELY KNOWN."—It is generally supposed that the Websters, Palmerstons, Gortschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, but not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry of most men when he (Boone known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, that made the medicines. They use his remedies—many of them have been cured by them—and they speak of him, as if he occupied the whole of America or were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent had ever produced worthy the attention of Chinamen.—N. The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one-half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.
