The second act of the tragedy in which Inspector Beckett played the role of villian last Saturday at the Paterson House was staged yesterday morning, when Mrs. Ida Marron, proprietoress, was called to answer to a charge of breach of the Liquor License Act. She was not present, but through her solicitor, Mr. W. H. Wright, she pleaded guilty. The fine was $200 and costs.—Advertiser.

Walkerton

Dick Addley was arrested on Saturday by Chief Ferguson on a charge of non-support which was prefered against him by his young wife from whom he separated some time ago. The case however did not receive a hearing as Addley agreed to take back his wife and provide for her, and as the latter was willing to return to him the case was dropped.

Jack Burke who volunteered for service with the local division of the 32nd. Regt. in the second Canadian contingent and sent back home by the military authorities at London, for being drunk, left Walkerton on Saturday last for Toronto with the object in view of securing a place in one of the regiments being formed at that centre. If Jack can overcome King Alcohol, he will make a good soldier.

On Thursday last Chief Ferguson arrested Harry Zinman and Ben Israel peddlers, both of Toronto on a charge of selling merchandise in Walkerton, which is contrary to the town by-laws. Thes two men were making a systematic door-to-door canvas of the town selling dress-goods, drygoods, etc. when they were nabbed by the Chief. They were taken before Magistrate Tolton who imposed a fine of $25.00 and costs on Zinman, while Israel was allowed to go, it transpiring that he was merely Zinman's assistant and did not share in the profits.

Joe Calbfleisch who came to work as a plumber for H. A. Aavill abont two weeks ago was arrested on Thursday last by Chief Ferguson on suspicion that he was a famous criminal of Winnipeg for whom there was offered a reward of $100.00. The Chief hustled his prisoner to the goal and wired the Toronto authorities who sent a detective here on Monday to investigate when it was found that he was not the man wanted and was consequently set free. Thus the Chief's one hundred dollars took wings and flew away.—Telescope.

Amelia Tiede, the 3-year-old daughter of Mr. Gus. Tiede of Formosa, was badly burned about the body and arms by her clothes catching fire while playing with matches at her home last week. The young sufferer, though still in a painful condition, is recovering under the doctor's care.

Wilfrid Eckenswiler, the 6-year-old son of Mr. Louis Eckenswiler, east of Walkerton upset a large dish-panful of boiling water onto himself on Friday last, badly scalding two of his legs, his left limb, which was scalded almost from the thigh to the ankle, being in an especially bad shape.

A young man from Greenock was arrested in Walkerton on Wednesday of last week for attempting, it is said, to get into a lady's home here. As booze is thought to have been at the bottom of the trouble, a charge of disorderly conduct was laid against the accused, and he was fined $2.00 and costs or a total assessment of $7.00 by Magistrate Tolton for the part he played in the affair.

Wes. Russell, who was committed on Sept. 24th, 1913, to three years in Kingston Penitentiary for setting fire on Aug. 11th to the Hartley House barn and stable here, when the huge structure was destroyed, returned on Monday night to town, having been let out on parole after serving a little over a year of his time. During his incarceration in the big prison Russell was put to work at the tailoring trade, and as a result he has probably become quite proficient with the needle and shears. We understand he has accepted a job at Truax's mill here.

Donald McLaughlin, the prisioner from near Chepstow, who escaped from the Walkerton jail, and after being re-captured, later made a successful getway from the Central prison, Toronte, has bee re-taken with the three pals who fled with him from the Toronto jail last month. The four fugitives were arrested in Bracebridge this week on a charge of robbery committed at Gull Lake. The men were identified by Provincial Bailiff John Ryan as the quartette who broke jail in Toronto. After beiug tried on the robbery charges, they will be tranferred to the Central prison, where they will be dealt with for jail-breaking.

With the wind blowing through a luxuriant growth of black whiskers, a hobo was wafted into Walkerton on Friday night sitting astride the bumpers on the coal tender of the passenger train. He was bound for Southampton and probably would have got there had a cold in the head not caused him to sneeze at the crucial moment when a brakesman was passing. The game was up and the hobo made his exit with the toes of a hostile boot reaching painfully near his coat tails. The disappointed look on the hobo's face as the train steamed off without him, shows that the tramp has troubles of his own these days.—Bauce Herald and Times.

S. C. Smith, proprietor of the Norfolk House, Simcoe, received a dozen wounds in the head from the discharge of a shotgun in the hands of Bruce McQueen, a hunting companion, while hunting partridges near Delhi. He will recover.

Xmas Seals Again This Year

—Campaign for Muskoka Free Hospital for consumptives being organized.—

The little Xmas Seal will be with us again this year. A new design has just been approved by the Postmaster-General, who agrees to their use, but on the back only of all mail matter. The design is appropriate to prevailing conditions, showing a little Angel of Peace over the earth and bespeaking goodwill for the Consumptives in need.

The first order for three million seals is already being turned out. It is expected that further large supplies will be required before Christmas is over.

The Public and Separate Boards of Education of the City of Toronto have approved of the seal being sold by the children of the City Schools, as in former years. The National Sanitorium Association who organized the Campaign, look upon the rising generation as one of the greatest factors in the ultimate success of the Crusade against comsumption and believe that the education gained by the co-operation of the children, in selling the seals, and by their absorbing the literature sent out in connection with the Campaign, is one of the greatest benefits which could be conferred upon the children.

Orders to the value of many hundreds of dollars have already been received for the seals.

More patients than ever before—some two hundred—are to-day being cared for at the Muskoka Free Hospital for consumptives. The need of money for the Xmas Seal Campaign is reported to be more urgent than at any other time in in the history of this Institution.

Orders for seals should be sent to the National Sanitorium Association, 34 Ross Street, Toronto.

Sent up for trial

Harry Knolls, the man who is charged with having been the cause of the death of Joseph Ferry at Griersville on Hallowe'en night, came up to his preliminary hearing before Magistrate Johnston on Thursday afternoon and was sent to Owen Sound to stand trial on a murder charge.

The evidence taken at the hearing was much the same as was taken at the inquest although some of the witnesses varied their stories somewhat when cross examined by Knolls' council, Mr. W. H. Wright, of Owen Sound. Yelling was admitted and nearly all the evidence went to show that Jas. Gilchrist was the ringleader in the attack against the accused.

In committing Knolls for trial, the magistrate expressed the opinion that parents should be responsible for the conduct of their children on Hallowe'en.

Crown Attorney Dyre acted for the Crown.—Meaford Express.

As the war rages on and we find ourselves pinched by it, we can and do thank God for neighbors. The most wonderful thing in North America's life is the fact for 4,000 or 5,000 miles our frontier is Canada's frontier and not only is there no fort upon it, but there is no place where anyone in either nation wants a fort. They are people one is glad to have next door, the Canadians. Sometimes a Taft or a Clack says something that makes us blush for him, but the nice thing about these people is, they understand what a loose tongue is and pay very little attention to it. A good deal used to be said about annexing Canada, and once in a while a man comes back from there so full of admiration that he wants to annex the United States to Canada instanter; but most of us feel—and we sincerely hope Canada can share the feeling—that just being neighbors is the best thing for both of us. We have the same problems in the main, and we are glad to have Canada show how she thinks they should be worked out. We have a good deal of common property in the lakes and rivers which lie between our shores and hers. It is a really beautiful thing to think of—in the war-torn autumn of 1914—that we have never had a serious difference about this common property. This is a good time to vow that we never will. Our "Lady of the Snows" is not so cold as her title might lead one to think. She is distinctly our sort—and we hope she won't mind our saying so. The frontier is an imaginery line only. Thoughts are the true bond of friendship. Let us draw closer and closer to Cannda in thought. Let us seek nationally and individually, to foster the relations which make us thank God for Canada as a neighbor. After all, most of our history is the same as hers.—Colliers.

Some days—or nights—ago Thos. Lonsway was intercepted by Inspector Beckett while getting off the G.T.R. train with a grip containing eighteen bottles of whiskey. Yesterday morning he appeared in Police Court to explain matters and give reasons why the firewater should not be confiscated. His explanations were not satisfactory to the P. M., who ordered the liquor to be disposed of by the Government.—Advertiser.
