Office of the Clerk of the Peace,
Kingston, 4 h April, 1865.

R. M. WILKISON,
Clerk of the Peace, County of Frontenac.

THE FIRST ARRIVAL.—The schooner China arrived here yesterday morning from Port Dalhousie, towed by the tug Lion, being the first vessel which has come in our port this season. The China has been lengthened and improved during the winter. Edward Brown, owner.—Spectator.

PREPARING FOR A MOVE.—The steamer Clifton, of the Owen Sound mail line, has got in complete readiness, preparatory to starting for Owen Sound. She has made a trial trip of her machinery, during which she gave unmistakeable evidence of her former well-known speed. The two Liverpool vessels, Saranac and Thermutis, are hastening their fit out for to start to the Bruce Mines. But little is doing with any of the larger class of vessels in port in the way of fitting out as yet.—Detroit Free Press.

ON THE RIVER.—The schooner John Thursby arrived here on Tuesday night from Goderich, with a cargo of hemlock bark. She experienced no difficulty from ice throughout the passage. The schooner J. O. Moss, from Sandusky, passed up at an early hour of the day, and the schooner Reindeer, from Toledo, reached here at noon. The propeller Belle came in from Port Huron on Tuesday morning and has resumed her trips between this city and that port, the same as last year. The steamer Forester arrived down from Forestville, and on this occasion extends her route through to Toledo. The steamer Huron took her departure for Goderich to resume her former route.—Detroit Free Press.

NAVIGATION.—The Steamer H. P. Redner commenced her trips between Belleville and Prince Edward on Tuesday. The ice is not yet out of the Big Bay, but with the mild weather and strong east winds that have prevailed for the last two days, it will soon break up.

THE ICE IN THE LAKE.—The Buffalo Courier of April 6th, says the prospects for the early opening of navigation are not very flattering. Looking lake-ward this morning, there appears only one vast field of ice; which having grounded in many places, is piled up from twenty to twenty-five feet high. The east wind which prevailed a few days since, drove the ice up the lake about ten miles, leaving the entrance to our harbor entirely clear; but the wind having changed Monday night, it is back again, filling the bay to the southeast of the city with almost solid ice, and stretching away to the Canadian side, extending up the north shore twenty miles.

ICE IN THE STRAITS.—Reports as Late as the 25th March from Mackinac Straits, state that an opening through that channel is by no means close at hand. The ice was as firm as in mid winter, and sufficiently strong for teams to travel upon. From Bois Blanc Island to as far as could be seen on Lake Huron the ice had disappeared, and was only visible on occasional shifts of wind. Reports from Beaver Island and thereabouts are encouraging for an early opening.—Detroit Free Press.

POLICE COURT, Saturday.—There was no business for the Court on Saturday.

THE CRIMPING CASE.—The case of the the two carters, James Marshall and William Coburn, has been dismissed, and the accused have been released from bail, Judge Draper deciding that the second information was substantially the same as that of Barr on which they were first tried.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, and are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years, with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford great relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now. It has stopped his cough and made his breathing easy: his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues, which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by E. H. Parker, Kingston, and all Druggists. Northrup & Lyman, Newcastle, General Agents. 2mo28

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases, Pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitutions that they think medicine will not help them; let not even these despair; incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts undeniable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine.

Sold by all Medicine Dealers.

"WIDELY KNOWN."—It is generally supposed that the Websters, Palmerstons, Gortaschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, but not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry oftenest made when he became known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, that made the medicines. They use his remedies—many of them have been cured by them—and they speak of him, as if he occupied the whole of America or were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent had ever produced worthy the attention of Chinamen.—[N. DRESS. DRESS.

S. CARSLEY

HAS JUST RECEIVED HIS FIRST ASSORTMENT OF

SPRING GOODS FOR 1865!

THREE CASES NEW DRESS GOODS,
ONE CASE STRAW HATS,
ONE CASE FANCY BUTTONS AND TRIMMINGS

SPECIAL.

S. Carsley begs to state that the Dress Department will receive his special attention during the coming Spring and Summer trade. The error that most of the stores make of filling their shops full of common stuff, from 7½d to 1s per yard, will be avoided.—Neither will the plan of some leading stores in this and other cities be adopted, of buying a scanty assortment of first-class goods, and making them at unreasonably high prices.

THE AIM WILL BE

To show a large assortment of First-Class Goods, at from 3 dollars to 5 dollars per dress, or from 1s 3d, to 2s 3d per yard.

☞ CALL AND SEE THEM.
