Dundalk hockey team journeyed up on Thursday night last and played a game with the locals. The game started out very one-sided and at the end of the first period the score stood 5-1 in favor of Dundalk. In the second period the local boys came to life and before the period was up the score stood 8-7 in Dundalk's favor. In the final period Flesherton had it over the visitors like a tent, and with four minutes to play the locals were leading with the score 10-9. This was where the referee, P. Morgan of Dundalk, got in his work by penalizing Flesherton players when they were not deserving of it he managed to let Dundalk score two goals and win the game by the score of 11-10. Many thanks to Pat, is the Dundalk cry.

The Roblin, Manitoba, Review, of date February 25, announces the death of Mrs. John Clark at the age of 78 years. Mrs. Clark was the widow of the late John Clark, of Gore Bay, Ont. Mrs. Clark, whose maiden name was Isabella Porteous, was born in Dumfries, Scotland, January 12th, 1837. When she was a year old her parents came to Canada and settled at Richmond Hill, Ont. In 1858 she became the wife of John Clark and they took up their home near Eugenia Falls, Grey County, Ontario., until 1879 when they moved to Manitoulin Island, where in 1906 her husband was called to his reward. Five years ago Mrs Clark came to Roblin with her son-in-law and daughter, Mr. and Mrs. Gamey. Mrs. Clark was a staunch member of the Methodist church and throughout a long life her superior christian character was an example to all who believe.

Cardinal Facts

Everybody can do a little.

Every man should do what he can.

Every woman should do what she can.

Improved production means incressed production.

Canada's future depends upon our actions of to-day.

In serving the empire we are serving ourselves.

Markets are not created, won and held in a day.

Now is the time to prove ourselves the granary of the empire.

We have the soil, we have the resources, we must have the energy to use them to the greatest advantage.

As we acquit ourselves at this crisis, so will be our prosperity and pride in the years to come.

With more than half of productive Europe engaged in war, and large sections decimated, other countries and especially those forming the British empire, will have to make up huge deficiencies, both of foodstuffs and material.

Great Britain imported 31,786,915 bushels of wheat from Canada in 1913. She imported 80,013,879 bushels from the United States. She also imported 12,789,969 bushels from Russia and central Europe.

Great Britain imported 24,148,833 bushels of barley in 1913 from Russia, Roumania, Turkey, Germany and Austria. From Canada she took 5,977,535 bushels, or less than a fourth.

Great Britain took 22,454,683 bushels of oats from Germany, Russia and Roumania in 1913, of which one half was from her bitterest and most savage enemy of today.

Great Britain imported 185,125,000 bushels of wheat from August 1, 1913, to July 31, 1914. Russia exported 163,267,000 bushels and Roumania 46,643,000 bushels in the same time. How far is Canada going to help make up the deficiency?

Great Britain imported from August 1, 1913, to July 31, 1914, 54,307,000 bush. of oats. Russia exported 34,750,000 bushels, Germany 25,077,000 and Roumania 17,195,000 bushels. Who is going to make up this deficiency of seventy-seven million bushels?

Then we have the usual stock of all kinds of parlor, bedroom and dining room furniture—desks, chairs, odd pieces, secretaries—Oh! there is too much to enumerate. Come in and go over our stock yourself. Always happy to show goods and to demonstrate that our prices are as low as the lowest.
