Columbia Grafonolas

Records, Needles, Catalogues

The Columbia is the perfect talking machine. Compare all others, then hear this and we are not afraid of the result. We can sell machines on easy terms to responsible people.

All the best appointed city homes have their parlor machines and there is no reason why the farmer should not have the best music of the day in his home, including band music, vocal artists, and performers on all kinds of instruments. You can have it on a Columbia Grafonola, as perfect as the original, and for much less than you would pay for a Common Organ. They range from $20 up.

The Perfect Columbia

Is a marvel of recording instruments and the Columbia records, made in Canada, embrace thousands of selections from which to choose.

Epitaph for Kaiser

Devil take his soul! But where he's fled
Can't be imagined, much less said.
Should he the realms above us share,
No more will peace and love be there;
But, if he's gone to lower level
We can't congratulate the devil.

Hound Lost

Strayed from Priceville, about May 7th, was last seen going in the direction of Flesherton, was spotted yellow, black and white. Photographs and a thorough description furnished to parties thinking they can locate him and have him returned to the owner who will pay all expenses.

New Basis of School Grants

The new basis of rural public school grants is on a sliding scale. Hitherto the grant was 40 per cent. on the salary over $350, but under the new regulations the percentage varies from 40 per cent. to 20 per cent., according to assessment and the amount on which no grant is given is also increased in large sections. To give a concrete illustration; a section with an assessment of $100,000 or over will be given the minimum percentage of 20. The amount on which the grant is given is increased to $400 in such sections, therefore the grant in a section where the teacher has been receiving a salary of $500 will be 20 per cent. on $100 or $20. The grant under the former system would have been $60.

Mr. Jos. Dawson, Brampton, is going around with his right arm in splints. He broke his wrist while cranking an auto.

Elora is going to oil the streets to combat the dust nuisance. The council has purchased 5000 gallons at 6½ cents per gallon.

On the farm of Thos. Gowland, in Vaughan township, Mr. and Mrs. Gowland were sitting in the kitchen when a bolt of lightning entered the room, stripping both the soles from the boots Mr. Gowland was wearing, and burning a number of holes in the dress worn by Mrs. Gowland, but leaving each of them uninjured.

Mrs. George F. Smith, who resides near Galt, says that a little robin with only one leg and an injured wing, has returned to her farm for the fourth consecutive year. The brave little fellow is as cheerful as the two-legged variety, but is handicapped, for when in battle with a worm, the stress of strife overbalances him. But as he hasn't far to fall he is never injured, and comes out victorious over his meal.

Archibald Campbell, the well known sawyer, who lives not far from Orangeville, was struck by lightning during a recent storm. He was in the house and the bolt struck the building and came down through the ceiling and entered the right side of Mr. Campbell's body and passed into the floor, shattering the boards into matchwood. Mr. Campbell, who was filling his pipe at the time, was rendered unconscious and remained in that condition for some time. His wife, who has been ill for some time, was lying on a sofa and she was also stunned by the shock. She soon recovered, however, and called Joseph M. Island, a neighbor, to their assistance. He found Mr. Campbell in a semi-unconscious state, but he soon opened his eyes and in an hour or two was able to get on his feet. It is not thought that any serious results will follow, but Archy had a close call.

The Acorn.

Take a large acorn, suspend it by a thread so as to nearly touch the water in any glass vessel, set it upon your mantelshelf, bracket or table and let it stand there for about two months without in any way interfering with it excepting to supply fresh water. The acorn will burst, throw a root down into the water and a stem upward, sending out from the stem beautiful green leaves.

Precaution.

"Why did you insist on having your new servant arrive on Saturday?" asked the neighbor.

"There's no train back till Monday," replied Mrs. Crosslots. "We wanted to be sure of having help for our Sunday dinner."—Washington Star.

SWP

SWP means Sherwin-Williams Paint (Prepared). This is the best paint for you to use because it is made of pure materials—pure lead, pure zinc, pure Linseed Oil, and pure coloring pigments which are thoroughly mixed and ground in scientific proportions by powerful machinery.

It is better than the old fashioned hand-mixed paint because the materials are put together according to correct chemical formulae which have been tested out in a practical way. • Its fine grinding makes it cover nearly 50% more surface than hand-mixed paint.

SWP is an economical paint because it will cover the greatest amount of surface, wear longest, and look best.—Ask us for color cards.
