Dundalk

Dundalk Citizens' Band has been reorganized under the leadership of H. C. Claridge.

R. S. Fraser, of Ventry, received a shipment this week from Markham of the complete material for a new silo ready to erect. This is the first of its kind in the section and Mr. Fraser's enterprise is commendable. He deserves success and no doubt other farmers will follow his lead. Silo fodder makes the feeding of stock an easy matter. The silo will come into general use.

During a high wind on Wednesday of last week Firman Irish's shingle mill at Wareham was destroyed by fire. A spark in the sawdust is supposed to have been the origin of the fire. The engine, which was on wheels, was removed from the building. Mr. Irish estimates his loss at $1000. He carried no insurance. He will likely rebuild right away.

Mr. John Sinclair has sold his Woollen Mills in Dundalk to Messrs. Irving and Kay, of Pembroke Ont, who will take possession this week and will be on the market for the purchase of wool. The mill has not been operated for several years. We understand the new proprietors are both practical men in that line and the starting up of the mill should be a decided benefit to Dundalk and community.

A runaway accident which might have proven very serious occurred on the farm of James Fairbairn, near Corbetton, on Wednesday, May 29th, when his son, James, a lad of 13 years, was driving a team hitched to a land roller. The bridle had got over the ear of one of the horses and the lad went along the tongue between the horses as the shortest way to adjust the difficulty. One of the horses being a lifey colt jumped to one side, and the boy fell in front of the roller and under the horses' feet. The team ran away through the field and the roller went over the young fellow. Fortunately there were no bones broken but he was badly cut on the forehead and face. His head was forced into the newly cultivated ground and the roller went over his face. He was rendered unconscious for a time but he soon came to, and is now little the worse of his mishap. He has learned the lesson that it is not the safest plan, when doing any work with horses and machinery to take short cuts. Caution is a first requisite. —Herald.

Drinnan gave a very interesting talk on the topic chosen, which was the first inhabitants of our country, and what are we doing for their descendents. He spoke briefly of the first missionary work done by the Jesuit Fathers in the great Northwest, and from that until the present day, telling us considerable about their reserves in Ontario and other places. The Rev. gentleman is an excellent speaker, and his talks are very much appreciated, although brief and concise, they are thoroughly enjoyed by all. The financial report was given. Some discussion followed on some business matter, but as the Society was not fully represented, they were left over until next meeting.
