SWP

SWP means Sherwin-Williams Paint (Prepared). This is the best paint for you to use because it is made of pure materials—pure lead, pure zinc, pure Linseed Oil, and pure coloring pigments which are thoroughly mixed and ground in scientific proportions by powerful machinery.

It is better than the old fashioned hand-mixed paint because the materials are put together according to correct chemical formulae which have been tested out in a practical way. Its fine grinding makes it cover nearly 50% more surface than hand-mixed paint.

SWP is an economical paint because it will cover the greatest amount of surface, wear longest, and look best.—Ask us for color cards.

Bulls Running at Large

Department of Agriculture
Live Stock Branch,
Toronto, August 9, 1915.

We receive enquiries occasionally from different parts of the province with reference to bulls running at large, and as the editors of the local papers are quit frequently asked for information with reference to points of law by their subscribers, I thought it might be of interest to you to have information with reference to this.

At the 1914 session of the Legislative Assembly of Ontario "The Protection of Pure Bred Cattle" Act was passed. It provides as follows:

1. A penalty of $55 for the owner of any bull who allows the bull to run at large or to be off his premises when not confined or led by halter.

2. The right of an owner of a pure bred cow to recover full damages from the owner of the bull if his cow should be got with calf by a bull running at large.

A bull will be considered to be at large even though he may have broken out of the owner's field, the onus being on the owner of the bull to provide a fence to keep the animal in.

The Act does not apply to New Ontario or the provisional county of Haliburton, but applies to all parts of Old Ontario.

Young Man Drowned

On Monday afternoon a sad drowning accident occurred on the beach when Alfred Brooke Westcott, eldest and dearly beloved son of Mr. and Mrs. G. B. Westcott, lost his life. The young lad with some twenty other young people, were bathing as is customary at this time of the year, in front of the "Bonnie Doon," his parents' summer residence on the shore. After playing in the water for about half an hour the party went to dress, leaving Brooke engaged in shoving a saw-log that was adrift into shore. One of the little girls returning shortly afterwards, noticed him lying in the water beside the log, and at once gave the alarm. He was taken out of the water and medical aid summoned. Drs. J. R. Arthur and Donald McKay were on the scene in a few minutes, and worked for over half an hour in an effort to restore respiration, but life was extinct. It is supposed that the young lad had over-exerted himself, and was seized with a fainting spell, which caused him to fall into the water, and no one witnessing the occurrence, lost his life.

There is at present confined in the county jail here, a young man named Herb. Wilson, of Mono, committed by W. A. Henry, J. P., on a charge of lunacy. The unfortunate, who is about 25 years of age, is clearly not in the lunatic class and would not likely be admitted into an insane asylum. He is evidently an idiot, and might be eligible for the institution at Orillia. To add to the pathos of the situation Wilson is subject to epileptic fits, and has four or five attacks daily, and in his many falls has received several bruises. His condition has been greatly improved by the treatment of the jail surgeon, Dr. Carson. Wilson is quite silly and is never so happy as when catching flies, which he places in a bottle, a practice he has become quite expert in. The county jail is no place for Wilson who should be placed forthwith in the Epileptic Asylum at Woodstock.—Orangeville Post.

Messrs. Wilkins Bros., proprietors of the Chesley Woolen Mills, received an order for 1,500 blankets from the Canadian Government last Friday. The blankets are to be completed by October 1st. The order from the French Govt. was for 3,000 blankets. The firm is turning out 400 pairs of socks per day on an order of 48,000 pairs. An addition has been put to the factory to meet the requirements for the manufacture of socks. Chesley Woolen Mills Co. is running overtime to keep up with the large orders that have been received.—Enterprise.

Government Fish Car "Beaver" arrived at Markdale last Friday, accompanied by Mr. Henry Watson, of Toronto, Game and Fishery Overseer for Ontario, and was met by District Overseer Gillespie, of Beeckley, who assisted in conveying from the car to Bell's and Ewart's lakes eleven cans, (about the size of milk cans,) of what is known as trout fingerlings.—Standard.

On Tuesday last Mr. Jas. Graham of Edenvale sustained quite a loss while out at the large berry plains picking berries. He tied his driver to a tree with a rope and left it seemingly alright, but when he came back to get ready to go home the animal was dead, having hung itself. The animal was one of his best driving mares he had and was valued at over $200.

Mrs. Albert Hoare, a young married woman, of Orangeville, was so severely burned on Tuesday that she died from her injuries. She was an English woman, 26 years of age, and was alone in the house with her three children, her husband being absent harvesting. While she was lifting a pot from the stove the corner of her apron caught fire and instantly the woman's clothing was in a blaze. She ran into the street screaming for help. Neighbors hurried to her assistance, tore off the flaming clothes, and worked frantically to give relief. Mrs. Hoare was only recently discharged from the local hospital, where she was operated on for appendicitis. The husband has been six years in this county and has experienced considerable hard luck, and is left with three small children in poor circumstances.
