AMERICAN WATCHES.
THE AMERICAN WATCH Co.
OF WALTHAM, MASS.,
Having recently increased their facilities for manufacturing Watches, by large additions to their buildings and to their force of workmen, are desious of introducing their products into Canada, a market which they have hitherto been unable to supply, owing to the large demand for their Watches in the United States.
The reputation which these Watches have acquired in the States, may be judged of by the fact that since the Company began their business, nearly 150,000 Watches of their manufacture have passed into use among the people, and have given, with rare exceptions, the utmost satisfaction to all who have tried them. They have superseded in this market all other Watches coming within the range of their prices.—The Company have attained this result solely by making
GOOD WATCHES,
AND SELLING THEM AT MODERATE PRICES.
At the present rate of Exchange between the two countries, American Watches can be sold for Canada currency at about one half of the currency prices in the States; and as we have not advanced the prices of our Watches since the war commenced in proportion to the rise of gold, this state of exchange renders them cheaper, in reality, than they were before the war.
The Company do not solicit orders for single Watches, but will be happy to furnish every one with full information respecting them, and to fill such orders from the Watch Trade as they may be favored with.
