## The Sun Has Another Retch

The Owen Sound Sun, acting as mouthpiece for the C.P.R., says : "The village of Chatsworth, Flesherton, Holland Centre and others of small size along the local branch of the C.P.R. appear to have calmed down in their wrath against the big railway company for closing their stations at 6 p. m."

The Advance can only speak for Flesherton but we can inform the Sun that [illegible]ning down has been brought [illegible] co[illegible]pany completely re-[illegible]evance after one week's [illegible]noxious order. The fact [illegible]r agent has been replaced [illegible]nt at a saving to the com-[illegible]mably thirty cents a day is [illegible] of the public's business so [illegible]rants are properly served : [illegible] that is required. It is a matter [illegible]ence to us, too, how the Sun [illegible] Flesherton. The small spirit [illegible]s the Sun never loses an oppor-[illegible] to give a punch at Flesherton, for [illegible] the unknown reason, while it boosts neighboring towns, possibly because that paper is not popular here. And it is probably useless for us to point out to the Sun the solemn truth that there is more business done at this station than at any other station on the line between Shelburne and Owen Sound. The Sun was going out of its way when it referred to Flesherton as one of the villages that had cooled its wrath, without intimating to its readers the why and wherefore, but it is not the first time the Sun has been guilty of handing out gratuitous insults. Moreover, the Sun knew the facts for it published an item two weeks ago from The Advance stating that the grievance had been redressed, yet in its last Friday edition it handed out this bouquet for Flesherton.

---

The village lights were off for about a quarter of an hour on Monday evening. The big motor in Bowes' mill had been hooked up and the power was turned on to give it a try out. Immediately the streets and houses were thrown into darkness. Investigation showed that a lever in the sub-station had been thrown out by the extra demands made upon the transformers. This lever is a safety valve for the transformers. If the load becomes heavier than the transformer is supposed to carry the lever is thrown out atuomatically, thus breaking the current and preventing the destruction of the transformer. It probably will be some days before the necessary alterations are made for carrying the heavy load.—Chatsworth News.

## Division Gourt

The Division Court held here last week disposed of more business than usual. Outside the adjourned cases, garnishees and other unimportant affairs, the following were tried :

Orr v. Montgomery—This was a cattle buying partnership case. Orr sued for $27.50 for settlement and was awarded $13

Flynn v. Gott—A wage account for $42. Judgment for $18.85.

Pedwell v. Martin—Pedwell sued Martin for damage to buggy. There was some very contradictory evidence given in this case but the judge allowed Pedwell the full amount of his claim, $11.50 and costs.

Boyce v. Blair—Action for wages for $41.70. Judgment for $31.

Middaugh v. Frewing and Hindle—Middaugh had vacated a farm on promise of $40, which he had not received. The judgment was for full amount with costs.

Radley v. McLean—Claim for $100 for damage to farm when defendant was a tenant of Radley's farm. Judgment was for $25 and costs.

Thos. Dowkes of Shelburne is in rather a bad state. A couple of years ago he fell on the roof of a building and injured his hip and since that other complications set in to make matters worse. He is now strapped on a board with a weight attached to the injured leg and his physician says he will have to remain in that position for six months. Much sympathy is expressed for him in his trouble.—Free Press.

# Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—*HON. MARTIN BURRELL, Minister of Agriculture.*

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

**LIVE STOCK**—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

**MEATS**—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from **without** the Empire. Out of 430,420 tons of beef only 104,967 tons came from **within** the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

**DAIRYING**—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly $6,500,000 over 1914. Prices at Montreal—Cheese : January 1915, 15¼ to 17 cents ; January 1916, 18¼ to 18½ cents. Butter : January 1915, 24 to 28¾ cents ; January 1916, 32 to 33 cents.

**EGGS**—Canada produced $30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.
