"Imagine it taking a war to set us right"

Husband: "There's one thing we can thank Hitler for. He's got us saving at last."

Wife: "Yes! Imagine! Until it became a positive *duty* we certainly never managed to put anything by each week."

Husband: "I think it's partly because these War Savings Certificates are so simple to buy."

Wife: "You mean the idea of getting the office to deduct a regular amount each week from your salary?"

Husband: "Yes! And how they're mounting up! Quite a nest-egg when you count the interest they're earning."

Wife: "Well the more the merrier, I say! There are lots of things we'll need the money for, as the years roll by!"

The help of every Canadian is needed for Victory. In these days of war the thoughtless selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.
