VICINITY CHIPS

Owing to the war no circuses will be allowed in Canada this summer.

Miss Lyla Alexander of Feversham, is the guest of Miss Reta Buskin.

T. J. and Fred Sheppard of Toronto were up this week on a fishing trip.

Born—In Flesherton on Saturday, May 6, to Mr. and Mrs. Bert Best, a son.

Pte. Harold Mitchell of the 123rd, Toronto, is home on a fortnight's furlough.

Mrs. W. A. Armstrong left last week to visit her daughter, Mrs. Hyland, in New York.

Mrs. P. Holman returned last week from Hopkins, Mich., where she spent the winter with her son.

Born—On Sunday April 30, at the Methodist parsonage, Six Nations, Ont., to Mr. and Mrs. Victor A. Ellis, a daughter.

Capt. Pollock and Lieut. Ritchie of the 147th, were in town Monday arranging for a campaign to complete recruiting for the battalion, which needs at least 150 men yet.

Graham Bros. will give a motion picture entertainment in the town hall on Thursday evening of this week under the auspices of the U. D. Girls. Admission 10 and 15 cents.

Mr. Charles Watson of the Durham road handed us an egg last week produced by one of his ambitious hens, which measured 8¼ by 7 inches and weighed exactly a quarter of a pound. We rather think this beats the record.

Mr. Pinder of Markdale has purchased the bakery premises lately vacated by Mr. Goldhawk, and moved his family down last week. He is a practical baker and has been in partnership with Mr. England in Markdale for some time.

Rev. Byron Stauffer, the popular preacher and writer of Toronto, will give his very interesting lecture on "The Folks Next Door," in the Methodist church on Monday evening of next week, May 15. This lecture was announced some time ago but was portponed on account of illness. Admission 25 cents.

Thanks to the stringent laws and law-abiding citizens there is still some game left in this country. Mr. T. Watson of the Durham Road informs us that on Wednesday of last week four deer came within forty rods of his barn. It was a pretty sight and Tom longed for a camera to "shoot" them. Later in the fall a camera would not satisfy him for a shooting iron, however.

The Mission Band of the Methodist church elected the following officers: Pres., Wes. Armstrong; Cor. Sec., Miss Mabelle Henderson; Rec.-Sec., Miss Elda Karstedt; Treas., Frank Thurston; Delegate to Branch meeting in Toronto, Miss Zella Bentham. The Band raised $25 during the year.

Those who attended the funeral of the late Mrs. Murray from a distance were: Mr. and Mrs. James Johnston and Mrs. John Johnston, Dundalk; Mr. and Mrs. Fred Murray and Dr. T. Henderson of Toronto; Mr. and Mrs. Percy Russell of Weyburn, Sask.; Mr. and Mrs. Joseph Henderson, J. Paul, James Long and E. Buckingham, Feversham; Dr. Caldwell and John Burk, Shelburne, and Rev. T. R. White, Alton.

At the annual meeting of the Woman's Missionary Society of the Methodist church the following officers were elected: Hon. Pres., Mrs. J. Dudgeon; Pres., Mrs. Thurston; 1st Vice, Mrs. Joseph Clinton; 2nd Vice, Mrs. Bulmer; Cor. Sec., Mrs. W. A. Armstrong; Rec Sec, Mrs. Mitchell; Treas., Mrs. Mark Wilson, jr.; Supt. of Christian Stewardship, Mrs. R. Bentham; Organist, Mrs. Joseph Duncan. The society raised $60.46 and sent a bale of clothing and quilts to Toronto to Rev. J. C. Cochrane to be distributed among needy ones. We also sent a small bale to Oxford House, Manitoba.

Two petitions were presented to the village council on Thursday last—one praying that cows be shut off the streets altogether, the other that the by-law remain as it is at present, allowing them to run from 7 a.m. to 8 p.m. There were no champions of the former present, but the latter was backed by a good sized deputation. The original petition found no favor among the councillors and the cows will be still allowed to reap grass and weeds during the hours mentioned.

Mrs. Jonathan Hickling, a pioneer resident of Artemesia township, passed away at her home in Collingwood, where she has resided for some 12 years past, on April 29, at the age of 82 years. Mrs. Hickling resided on the 8th line of Artemesia with her husband, who predeceased her 15 years ago. The funeral took place to Maxwell English church cemetery on Tuesday of last week. The children living are Charles and Elizabeth at home, Fred at Chippewa, and Mrs. (Rev.) Condell at Sebringville. Mr. F. H. W. Hickling, Mr. and Mrs. W. Stewart and Mr. and Mrs. A. Stewart of Flesherton attended the funeral.

Sunday evening last some boys put in the flume planks at the planing factory dam with the result that when Mr. Henry, the owner, went down Monday morning he found the water overflowing the dam and it would only have been a short time until there would have been no dam and Mr. Henry would have been put to hundreds of dollars expense. We said boys, but should have qualified it by saying that it is supposed to have been young men, whose growth of brain had been arrested in infancy. Anybody who would do a deed like that is either an idiot or a criminal of the Casement brand and ought to be shut up. It is a pity the guilty parties could not be discovered and strict judgment meted out to them.

Grey Battalion Day

A large number went to Owen Sound on Wednesday of last week by special train. The report from Owen Sound says: In the face of a sleet and rainstorm this morning the 147th Battalion day turned out most successful. The special trains on the C. P. R. and the Grand Trunk brought in about seven hundrdd excursionists from points covered by these lines. About noon the weather cleared, and large crowds drove in from thecountry. The military tactics programme was carried out on the athletic grounds of Victoria Park. This included a march past in platoons, and then in close formation giving the salute to the commanding officer, Lieut.-Col. McFarland. This was followed by the formal presentation of a field kitchen to the battalion by the Orpheus Male Chorus of Owen Sound, and the presentation was made by Mayor Little, and Lieut.-Col. McFarland replied. The condition of the trenches was too suggestive of the mud in Flanders, meking it undesirable to give this part of the programme. When the battalion paraded from the Market Square to the Park the streets were lined with crowds of people for several blocks. Lieut. Mike Kelly, of Markdale, who is home recuperating, was amongst the spectators, who numbered over five thousand. In the evening a minstrel show was put on by the men of the battalion, and played to a capacity house in the Savoy Theatre. During the day a special effort was made by recruiters to bring the battalion up to full strength.

Camp Borden is the name of the new Simcoe county training ground, where 35,000 troops will camp this summer.

Ontario expects to derive over $500,000 yearly from the tax on amusements effective next Monday.

THE MARKETS

Carefully Corrected Each Week

Wheat	90 to 1 00
Oats	40 to 40

Buckwheat	65 to 70
Flour	$3 50 to $3 50
Hay	$12 00 to 12 00
Butter	25 to 27
Eggs, fresh	20 to 20
Potatoes per bag	1 00 to 1 25
Geese	13 to 13
Ducks	14 to 14
Fowl	11 to 11
Chickens	13to 13
Turkeys	20to 20

Mrs. Murray Passes

Mrs. (Dr.) E.C. Murray passed away on Wednesday of last week at her home here at the early age of 38 years. The deceased lady was a sufferer for years with a serious and incurable derangement of the stomach, which was borne with great fortitude. Mrs. Murray was the eldest daughter of Mr. Wm. Henderson of Flesherton, and was born on the homestead near Wareham. Sixteen years ago she married Dr. Ernie Murray, dental surgeon, and came to Flesherton when he started practice here. She leaves, besides her sorrowing husband, one little daughter, Shirley, aged 15. The interment took place in Flesherton cemetery on Friday afternoon, a most impressive service being held in the Methodist church. There were present and took part in the service, Rev. T. R. White of Alton, who was the officiating clergyman at her wedding; Rev. Dr. Caldwell of Shelburne, a former pastor, and the local clergymen. Three of these, who had known her well, paid a high tribute to Mrs. Murray's christian character. Hers was an exemplary christian life and her character was one which endeared her to all with whom she came in contact. Modest and considerate for the comfort of others, she possessed the regard and esteem of all and this will ever remain in the memory of her co-workers and companions. Death was a kind release from suffering for her, and the grim reaper he'd no terrors. While her immediate family are the recipients of much sympathy, it is known that they, while mourning, feel happy in the knowledge that she is now free from pain and bodily suffering, while her bright spirit is happy with its maker.

The Wool Situation

"They say that a centipede hasone hundrd legs, but the centpede would run short of legs if he would attempt to place one on each angle that has to be considered in determining the price of wool this year," said Mr. John Hallam, the large Toronto wool buyer, "for there are so many elements entering into price of wool and so many contingencies to be considered, that growers and buyers alike will have to be very conservative and use good judgment or they will find that they have lost money on the season's business.

Mr. Hallam argues that unless the unexpected happens last year's prices for wool were as high or higher than can be expected for this season's clip. Prices in 1915 were about 100 per cent. higher than had prevailed for many years past and gave the wool grower handsome returns for his product. It seems that there is a large surplus of last year's wool in the hands of the dealers and manufacturers in Canada and the United States and this factor, Mr. Hallam believes, will operate to keep prices down to last year's level.

Must Report all Fires

A new regulation requires the chief of every municipality that has a fire brigade organized, to report every fire within three days after its occurrence to the provincial fire marshall. For doing this the chief receives no extra remuneration: but for not doing it, he is fined fifty dollars. In this report he must enumerate the amount of damage done (estimated cash value); the amount of insurance carried; by whom it is carried; and the cause of the fire and other particulars concerning it. In the case of townships the clerk of the township is required to forward the information to the fire marshall. The clerk receives 50 cents for each report he sends in. From these reports, are compiled the fire statistics of the province, and it is hoped by carefully scanning these reports to soon eliminate a large number of the disastrsus fires that mean so much loss in the course of a year.

F. G. KARSTEDT, FLESHERTON — **KARSTEDT BROS. PRICEVILLE**

Seeds! Seeds! Seeds!

We have on hand—No. 1 Timothy, No. 1 Mammoth Clover, No. 1 Red Clover, No. 1 North Dakota Alfalfa, No. 1 Alsike. CORN---Crompton's Early North Dakota, Wisconsin No. 7. ONIONS---Dutch Sets and Potato. GARDEN SEEDS---A full range of all kinds of Garden Seeds, also Flower seeds.

Features which place the Cockshutt Manure Spreader head and shoulders above other makes

It is the simplest machine made—not nearly so many parts as others.

It is a thorough pulverizer and spreader.

It is not so high to the top of the box as other spreaders, yet there is much space underneath.

The box is well supported and is built with a solid bottom. Direct chain drive, no gears or clutches to cause trouble. Drive and conveyor chains are extra heavy and will stand a lot of hard work. Easily operated and no trouble at all to oil the bearings. When not spreading the machinery is not running.

The Foundation of Prosperity

The future prosperity of this country depends upon the continued prosperity of the agricultura interests. It has been proven that agricultural prosperity cannot persist unless the fertility of the soil is conserved. The one machine in the whole category of farm implements which can accomplish this necessary thing is the Manure Spreader. Upon it as upon a foundation will the future prosperity of the farm depend, and therefore the prosperity of the nation. Pay close attention to your fertilizing,—this year of all years—and benefit accordingly.

Pays Its Own Way

Comparing the cost of spreading manure with a spreader with that o, spreading the same amount by hand shows a saving sufficient to make the spreader pay for itself within a short time if no more than a few loads a day are spread. No other implement about the farm can do so well. This says nothing either about the more efficient work of the machine nor the consequent additional benefit to the soil. The spreader is the one machine which visibly pays its own way. The farmer is money in pocket rather than out of pocket when he buys a spreader.
