VICINITY CHIPS

All accounts must be settled before June 15th 1916.—E. C. Murray.

Mrs. Ayers of Sarnia, is visiting her daughter, Mrs. Blackburn.

Pte. Brady of Walkerton spent a few days in town on leave last week.

Full particulars of J. C. Wright's sale about June 13, will appear in next week's paper.

Rev. Mr. Wallace of Markdale, preached in the Methodist church, morning and evening, on Sunday.

Principal Murray of the Owen Sound Collegiate died at his home in the county town last week.

Mrs. (Rev.) McLean of the manse is spending the summer with her daughter at Whitechurch.

Mr. and Mrs. A. S. Thurston of Toronto visited the former's parents here for a couple of days last week.

Born—On May 22, at 530 Campbell avenue, Detroit, Mich., to Mr. and Mrs. J. D. Ryder, a son—James Arthur.

The Anglican congregation at Proton Station will hold a garden party on Wednesday evening, June 14. See bills later.

Corp. Jos. LeGard of the 147th was unable to accompany his battalion to Niagara and is in quarnatine at Owen Sound for diphtheria.

Pte. Jack Sharpe of the 147th was presented with a wrist watch and address by the neighbors and friends, previous to his departure for Niagara.

Prof. Mark Everette Wright of Orangeville, formerly of Flesherton, has been appointed choir master in the Methodist church at Listowel.

Mr. George Cairns and family, who have been visiting here, returned to their home at Glenella, Man., Mr. Cairn having received a hurry call to report for duty, thus curtailing his holiday.

A number of neighbors of the fourth line and Rock Mills met at the home of Mr. W. T. Pedlar and presented Pte. Cecil Meldrum with a pen and wrist watch, accompanied by an address.

Pte. Preston Beattie, of the 147th Batt., was presented with an illumined dial wrist watch and a fountain pen, by his brothers and sisters. There was a baseball match between the 124th Batt. and the 147th Batt. at Niagara last week when the victory came to the Greys. The catcher for the winning team was Preston. Preston was a good catcher with the team here and went away highly recommended.

It is told us on good authority that before the 147th left Owen Sound the handlers of marriage licenses ran completely out of the five dollar documents, so great was the demand for them. We presume the ministers of the town also reaped a whirlwind harvest from the brave boys in khaki. We also hope the latter will be able to defend themselves against the Germans better than they have against the fair sex.

An extremely severe electric storm passed over this section Saturday morning last. The storm was a costly one for the county. Owen Sound had a $75,000 fire as a consequence, and a number of barns throughout the county were struck and burned. The only damage here was putting out of business several of the street lights. At the power house the operators had a fierce time while the storm raged. One of the metres was smashed, glass flying all over. It was literally a hair-raising for the man in charge. You have seen the electric sparks fly from a cat's coat when you stroked it the wrong way in the dark Imagine this ten thousand times magnified and you have a faint idea of the fireworks on display at the power house for an hour or so.

Mrs. Neff of Singhampton, is visiting her sister, Mrs. Bulmer.

Miss Wilda Crossley of Toronto visited her parents here last week.

Spring Hill Red Cross Society last week sent $45 to the Serbians and the following articles to the Red Cross : 5½ doz. handkerchiefs, 30 pair of socks, 2 hospital shirts, 58 surgical towels and 80 bandages.

Two auto loads of Fleshertonians drove over to Walkerton on the 24th to inspect the Bruce battalion, which was on exhibition there that day. The visitors say Bruce has a stalwart bunch of men, from which great things should be expected.

Lieut.-Col. Bickford of Niagara Camp says : The 119th, from Sault Ste. Marie and Manitoulin Islands, and the 147th, from Grey County, are as fine battalions as Canada has produced." This praise will make the boys themselves, and their friends, feel glad.

An administrator's sale of a quantity of good live stock, farm and household implements, will be held on lot 21, con. 8, Osprey, on Friday, June 9, the property of the late Margaret Bows. This is a good bunch, for which see bills—Wm. Thompson, administrator ; Wm. Kattting, auctioneer.

A few weeks ago, we announce that Mr. Pinder of Pinder&England, Markdale, had purchased the bakery here. It appears that it was both gentlemen who bought here and the firm name remains the same, with Mr. Pinder running the business here and Mr. England the Markdale end. Mr. Pinder is doing a good business here and giving the best of satisfaction.

The Advance man, with some Owen Sound friends, paid his first visit to the power house in the valley on Friday last, and was courteously shown over the premises by Mr. Fred Graham, who was in charge. Mr. Graham carefully explained the working of the numerous instruments and machines. We couldn't understand it all, but there was one point in the outfit that he made perfectly plain. This is the "suicide cable,' carrying 4000 volts—a current so powerful that if you put your finger within two inches of it the current would jump across the intervening space and the experimenter would be no more. For and expeditions taking off that would beat Niagara, rope or gun. The thing is well guarded, however, and there are not likely to be any victims. We did not attempt to verify the statement. We are always willing to take such things for granted and let the other fellow do the experimenting.

A couple of auto loads of joy riders, said to be from Mount Forest, passed through here on Sunday for Eugenia and returned the same evening. The bunch was made up of youngsters under twenty years of age—an equal number of boys and girls. As they approached the town on the return journey one of the drivers ran his machine over the embankment at the sand hill east of the sink hole. Just then Rev. Mr. McDonald, the Baptist minister, attempted to pass the outfit when his horse became frightened at the hullabaloo kicked up by the Bushwhackers and bolted. His buggy was badly smashed. The misguided young men, who were alleged to be under under the influence of liquor, managed to get their car righted with the help of horses and a logging chain and boys and girls went on their way rejoicing. The party then got along all right until they came to the Glenn, between Priceville and Durham. This was a nice stretch of road for speeding, and those who watched them pass said they must have been travelling at about eighty miles an hour. The auto slewed from side to side and finally struck a telephone pole. One man was thrown clear over into a field and badly hurt. Another had his arm badly broken, shoulder dislocated and back injured. The girls, while all were severely shaken up, appear to have got off comparatively safe. A telephone message to Durham brought a car to take the injured in. One of the victims was unconscious for some time. The wonder is there were not some sudden deaths as a result of this accident. As the party went through town Sunday evening we remarked to a citizen that we did not think they would get safely home that night, and the prophesy came true. Iles was the name of the man most seriously injured. There were two soldiers in the party but they occupied the car which came safely through.

Mrs. John Wright and Miss Zella Bentham are delegates to the Branch Meeting of the W. M. S. of the Methodist church in Toronto, the former from the Auxiliary and the latter the Band.

Sergt. E. Jamieson and Pte. H. McAuley, of the 147th, stationed at Niagara, are home on furlough, the former proceeding to Porcupine to visit his brother, Sergt. Bert Jamieson, of the 159th Battalion.

All towns appear to have their share of that undesirable element of both sexes who seem to think Sunday joy riding is the desirable thing The practice is becoming a menace to our civilization and ought to be frowned down by all right thinking citizens.

Coming, under the auspices of the U.&D. Club, to Town Hall, Flesherton, June 6, Dr. Jos. Mandy, who (by special promission of Sir Sam Hughes) is travelling throughout Canada with most wonderful moving pictures of the war yet shown. Admission 25 and 15 cents.

Notice to Plotholders

A meeting of the plotholders of Meaford Road cemetery will be held at the cemetery on Saturday, June 10, at 2 o'clock p.m. All interested should attend.

Bad Fire at Owen Sound

Owen Sound was visited by a disastrous fire early Saturday morning last, when the large wholesale grocery and produce house of Lemon Bros. was wiped out by fire It is estimated that the loss will amount to between $77,000 and $100,000. A fireman named Danard was severely hurt by falling from a ladder fracturing his leg and receiving other injuries. The fire started through the building being struck by lightning in the midst of a severe electrical storm. telephone wires were out of business and there was a delay in the watchman notifying the fire department. Had it not been for a downpour of rain an entire block of stores would probably have been wiped out.

F. G. KARSTEDT, FLESHERTON — **KARSTEDT BROS. PRICEVILLE**

SPECIALS THIS WEEK

Features which place the Cockshutt Manure Spreader head and shoulders above other makes

It is the simplest machine made—not nearly so many parts as others
It is a thorough pulverizer and spreader.
It is not so high to the top of the box as other spreaders, yet there is much space underneath.
The box is well supported and is built with a solid bottom. Direct chain drive, no gears or clutches to cause trouble. Drive and conveyor chains are extra heavy and will stand a lot of hard work. Easily operated and no trouble at all to oil the bearings. When not spreading the machinery is not running.

The Foundation of Prosperity

The future prosperity of this country depends upon the continued prosperity of the agricultural interests. It has been proven that agricultural prosperity cannot persist unless the fertility of the soil is conserved. The one machine in the whole category of farm implements which can accomplish this necessary thing is the Manure Spreader. Upon it as upon a foundation will the future prosperity of the farm depend, and therefore the prosperity of the nation. Pay close attention to your fertilizing,—this year of all years—and benefit accordingly.

Pays Its Own Way

Comparing the cost of spreading manure with a spreader with that of spreading the same amount by hand shows a saving sufficient to make the spreader pay for itself within a short time if no more than a few loads a day are spread. No other implement about the farm can do so well. This says nothing either about the more efficient work of the machine nor the consequent additional benefit to the soil. The spreader is the one machine which visibly pays its own way. The farmer is money in pocket rather than out of pocket when he buys a spreader.

D. McTAVISH, Flesherton

Fresco-tone

The Daintiest Decoration

Like magic this charming medium

"FRESCO-TONE"

responds to the Artistic taste of the decorator and householder, giving a soft, velvety, flat effect on Halls, Living Rooms, etc.
