I have some extra good young stock at present both sex. also one young sow, bred to farrow in Sept. Write or phone Geo. W. Ross, Maxwell P. O.

Osprey Council

Maxwell, May 27, 1916

On the above date the members of the Municipal Council of the Township of Osprey, met at Maxwell as a Court of Revision on the assessmeht of Osprey for the year 1916.

The members were all present and severally subscribed to the statuary oath as a member of the Court of Revision.

The following appeals were received and dealt with: Frank Hawton against Lot 25, Con. 11, as being valued too high. The court reduced his asseessment $200.

Wm. Hodgson against Lot 19, Con, 12 as being too high was also reduced $200.

The appeal of T. S. Wilton against Lot 33 and 35, Con. 3, N.D.R. being too high and against T. H. Weatherall all being too low on Lots 36, 37, 38, Con. 3, N.D.R. was laid over until the next meeting of the Court of Revision.

A number of names were added to the Roll on application and a number of changes were ordered as changes of ownership and tenants, when the Court adjourned to meet at Feversham on Saturday, June 17th, 1 p.m.

May 27th, 1916

The members of the Council then proceeded to general business, according from March 4th last.

The minutes of last meeting were read and adopted.

Communications and accounts were received from: Collingwood hospital $74, maintaining of Fred Leech; Bell Telephone Co., regarding the appointment of officers for the Osprey Municipal System: Hydro Electric Railway Association, regarding membership fee; Thos. Hepenstall account, $7.50, post stamps to Clerk; Thos. Scott report of Canadian Patriotic Fund Conference; Chas. Kerton account $151, balance of account for board of Fred Leech; Joseph Bowler asking for further payment on contract Grummett ditch; John Thompson, account $16, expenses removing Fred Leitch from Collingwood hospital to House of Refuge, Markdale.

Orders were issued on the Treasurer to pay Thos. Heppenstall $7.50 clerks postage. Collingwood hospital $74.00 maintenance of Fred Leech. The members of the council and the clerk and assessor $2.50 service on assessment committee. James Potts $90.00 salary as assessor and $3.00 postage. John Paul $30.00 expenses burying Hambly girl. John Thompson $16.00 expenses removing Fred Leech from Collingwood hospital to House of Refuge at Markdale. Thos. Scott $11.40 expenses attending Canadian Patriotic fund conference in Toronto. On motion the account of Chas. Kerton for $151.00 for board account of Fred Leech be not entertained.

The clerk was instructed to notify the contractors for the Grummett ditch to have their contracts completed by July 1 next, otherwise the Engineer will be instructed to re-let the work with costs against the original contractor.

John Lockhart, commissioner of Div. No. 2, was instructed to proceed with the work arranged for in 1915 to improve the streets at the corner of Victoria and Mill streets, Feversham.

Council adjourned to meet at Feversham on Saturday, June 17, 1916, next.

—THOS. SCOTT, Clerk.

If Germany is defeated by the shortage of meat fats it will merely prove that the pigpen is mightier than the sword.—Weekly Tatler.

NEW SUITINGS

New Suitings just to hand—some of the nobbiest weaves to be found anywhere.

Leave your order now for that new suit. You will never regret it. Satisfaction guaranteed.

Don't forget that we do cleaning, pressing and repairing. Our prices are right and our workmanship is the very best.

S. J. BOWLER

Sole Agent for the Hobberlin Tailoring.

How to Paint for Less Money

We'll tell you how in three words—*use less gallons.* That's the thing to go by in Paint—not the price per gallon, but the number of gallons required plus the length of time it will wear and look well.

"100% Pure" Paint costs about half as much, counting the surface it covers, and wears two or three times as long as ordinary paint.

You pay by the gallon—both for the paint and for putting it on. The Paint that is cheapest for you is the paint that spreads easiest and covers the most surface.

MARTIN-SENOUR
"100% PURE" PAINT

"MADE IN CANADA"

has a covering capacity of 900 square feet of surface per gallon one coat, as against 500 square feet covered by hand-mixed Lead and Oil—or 600 square feet covered by low priced prepared paint.

And as further proof—if you will send us the dimensions of your house, we will tell you the number of gallons of "100% Pure" Paint required to cover it thoroughly. No charge for this service.

Write direct to the Martin-Senour Co., Limited, Montreal, for their 1916 Booklet, "Town and Country Homes", showing many new color schemes and giving valuable paint information. 66R

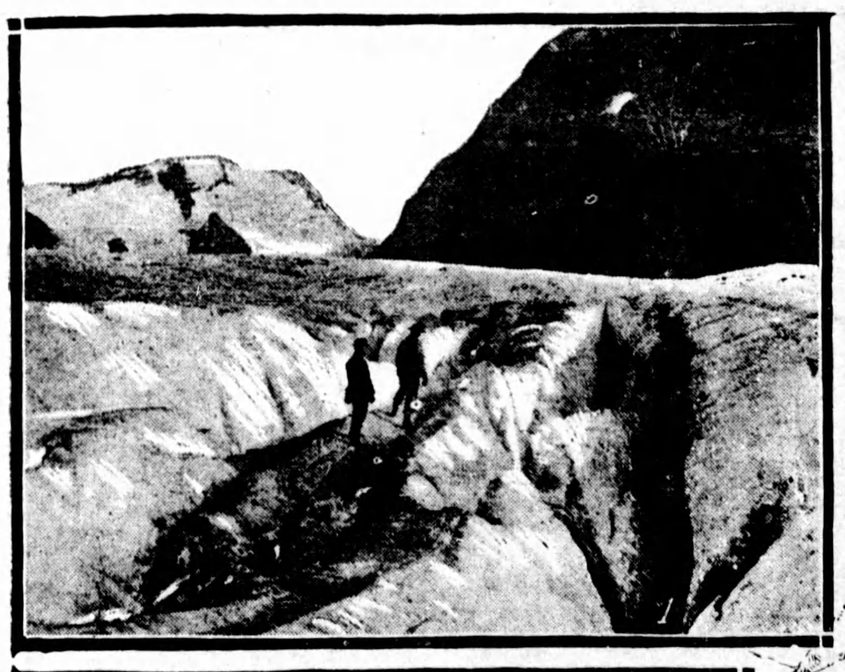
WHERE RIVERS of ICE FLOW



(1) The Cracks in a Glacier. (2) A Rocky Mountain Lakelet fed by Glacial Waters. (3) The Fissures in a Glacier. (4) The Yoho Glaciers.

STAND with me on the summit of a Canadian Pacific Rocky Mountain. What a wondrous panorama is unfolded: not only of peaks and ranges, tier on tier, line on line, but of vast glittering fields of snow and ice, making a white world of the upper heights, a region of eternal winter in striking contrast of the flower-covered beds of the valleys a mile below us, or the green of the alpine meadows and the forest depths.

We are standing in a realm where rivers of ice flow, for it is one of the manifold wonders of nature that these huge snaky lines of ice are slowly but surely moving down the mountain slopes to their death in a terminal moraine. And while they thus travel down hill, they are at the same shrinking, so that with few exceptions they show a gradual recession which is marked in some glaciers by scientific study, huge boulders carrying the year when the toe of the glacier reached that spot, with later markings indicating the shrinking process. The Illecillewaet Glacier, for example, retreated up the valley, between 1890 and 1898, a distance of no less than 452 feet.

The Illecillewaet glacier, in the Selkirks, is one of the largest remaining glacial deposits in the Canadian ranges, a gigantic icy river of green and white-flowing valleyward with a magnificent sweep. Longfellow's description comes to mind as one gazes on the scene as "a glittering gauntlet which the frost king has thrown in defiance of the sun," and so it seems as it flitters back its radiance from its white bosom and its crystal architecture.

Or stand on Lefroy or Hungabee, or better still, on Temple, in the Lake Louise region, and again the eye is held in thrall with the colossal canvas and the icy glaciers on every peak. Who will forget that superb view of the Victoria Glacier from the Lake Louise Chalet, or the white masses on the lofty roofs of the Ten Peaks, when a full moon floods them with silver light? The sheen of a hundred sparkling waterfalls makes a drapery, while at times the ear is bombarded with the sound of a mighty avalanche tumbling from inconceivable heights.

The wonder of the glacier is more fully realized when they are explored at close quarters, when their fantastic caverns and awesome fissures are entered or crossed, when the mountain climber picks his way over a mass of ice masses thrown up as if in mortal agony by the pressure of the upper deposits that cause the downward movement. Yonder is the snow field from which the glacier flows, here is a "bergschrund" as the ugly-looking crevasse is called that separates the glacier from the mountain side. Seracs—curious ice towers—look like monuments of the gods, and the tongue or snout marks the end of the glacier from whence flow the melting waters that mark the birth of great rivers.

In this vast Canadian Garden of the Gods, of Rockies and Selkirks, in which scores of Switzerlands could be put, nothing is more wonderful than the great glaciers, ever journeying to their obliteration, ever sweeping toward the valley beds.
