YOUNG LADIES' ACADEMY
OF THE GREY SISTERS,
OTTAWA CONVENT.
Under the Patronage of His Lordship the Right Reverend Dr. Guigues.
THIS INSTITUTION, established some Twenty years ago, is well calculated by its position between Upper and Lower Canada, to afford the greatest facilities to French and English Young Ladies, for acquiring a complete education in their mother tongue and at the same time, in another tongue that is foreign.
Nothing has been neglected that could contribute to attain this double end; and the ample and honorable testimony constantly rendered proves the effort to have been successful.
Among many means employed to develope the intellect and cultivate a literary taste, are a well regulated Post Office and a Weekly Newspaper, edited exclusively by the young Ladies.
In the Commercial course a practical emulation is excited by a Bank and Commercial Rooms, in which business is transacted in both languages.
It is a particular point of the rule that some of the recreations of the day are, each alternate week, strictly French, or entirely English, for those who are capable of speaking both languages.
Those who study Music will find everything that could secure them rapid and brilliant success; for this, it suffices to say that no fewer than Six Teachers are devoted to this Department, which embraces the Harp, Piano, Guitar, Melodeon, Organ, &c.
A similar number of Mistresses preside over the different kinds of Painting in Oil, Pastille, Poonah Painting, and the different kinds of Drawings, Embroidery, Wax Work, Artificial Flowers, &c. The Ornamental is not permitted to supersede the useful; for all the pupils are obliged to learn the theory and practice of Domestic Economy.
No distinction of Religion is made in the admission of pupils. Children of different denominations, though obliged to conform strictly to the order of the House, are not required to assist at the Religious exercises of the community.
☞ Circulars containing particulars can be obtained by addressing the Lady Superior.
The Classes will re-open on the First of September.

FLAX, HEMP, JUTE AND RHEEA FIBRE.
Prepared without Scutching
BY
J. Hill Dickson's Patent Portable Machine
To be worked by
HAND, WATER, OR STEAM POWER.
117 Gt. Dover Road Boro. London.
THE advantages and economy gained in converting GREEN FLAX STRAW by Machinery, into Stronger and Finer fibre for being spun, on Cotton, Silk, Worsted, or Flax Spinning Machinery, than if retted by steeping in either Cold or Hot Water, (which process frequently by over decomposition produces as much Tow, as long Fibre) arises from the following facts, respecting a system that avoids Tow and Waste.
1st.—The seed bolls or husks can be taken off in the field as the flax is pulled, by turning the side-projecting rollers that are upon the ends to permit of only about six inches of the top or seed ends, to pass down between them to break the seed bolls without crushing or injury to the seed, or taking off any portion of the fibre.
2nd.—The wood inside the fibre is so crushed and ground into dust when laid on the grate-like moving table, which admits of such stuff falling through, that whether the Flax Straw, Retted in the usual way, the woody and dusty substance is entirely got rid of without scutching, and the reeds or (as it is called) hard of the fibres are so preserved from being broken into tow, that they appear like as many narrow ribbons. Flax spinners are certain to appreciate this great improvement in preparing, as no Tow or Waste can be seen, and as a consequence there is a gain of fully one-third more fibre from a given weight of flax straw than by any other invention or system known, see report of Messrs. Marshall & Co. of Partington & Leeds, taken from the Belfast Flax Society reports and copied at page 214 in the work of Dixon on the Fibres, Plants of India Flax, Hemp, &c., &c.
3rd.—The Flax and Hemp being when free from the wood, covered over with a natural Green Gum, is made perfectly soft and two-thirds White, by a simple run of Hot Water, as the fibre passes through in a few minutes, the washing part of the invention, and then wrung dry at the end, by this means the fibres are stronger and better adapted for the Flax Spinners than any retted flax, and the yarns from it will be nearly white without alkaline or acids to injure the strength, and ready for weaving without boiling.
4th.—If very fine quality be required for Cotton, Silk or Worsted spinning purposes, the cottonizing part of the Machine must be worked and the softening liquid applied and by such means flax equal to the best Courtrai, Flax at 4d.to 6d per ton cost be produced, and practical instructions will be given to parties purchasing the machine by the Inventor and Patentee.

Buy your Shorts from Morrison, fresh and sweet; it will do your animals good.
If you happen by accident to drop into one of those two-penny half-penny concerns, dart out at once, and make tracks for Morrison's, where you will find everything to suit you, where everything is well regulated and in good order, where no inferior goods are sold, and you will at once arrive at the conclusion that you have found the Toronto Wholesale FLOUR STORE, and a man that understands his business, in MORRISON.
Kiln-dried Oatmeal, the best in Canada.
Double Bolted Cornmeal for family use.
Wheatmeal from picked new Fall Wheat.
Cracked Wheat from fresh ground best white Winter Wheat.
The above goods are specially manufactured for my customers, and I defy competition.
SELF-RISING OR PATENT FLOUR
I have received a small quantity of Patent Flour, and as most of my customers are fond of good things, I would recommend it as being very good for bread, Windsor tea cake, very superior luncheon cake, pastry, &c., &c. An excellent pudding may be made by merely mixing some of the flour and water together, boiling it in a cloth, or steaming it, with room for expansion, and using a little nice melted butter with sugar for sauce. Pancake fritters &c. are very superior when made of this flour—no eggs need be used.
N. B.—I have a few choice SUGAR-CURED HAMS still on hand.

"Unquestionably the best sustained Work of the kind in the World."
HARPER'S NEW MONTHLY MAGAZINE,
Critical Notices of the Press.
It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE, a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good wood cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*
The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*
